

British Drys Demand Absolute Prohibition

Not Satisfied With Cutting Down Open Hours for Saloons---Reveal Enormous Cost of Booze to England

LONDON, Feb. 1.—British prohibitionists won't be satisfied until the entire nation boards the water wagon for the duration of the war and the demobilization period. The gradual paring down of "open" hours for drinking is not enough; they want absolute prohibition of all liquor and a ban on its manufacture.

Here are some of the striking comparisons advertised by the Strength of Britain movement, demand abolition of drink.

During the war enough grain has been used in liquor manufacture to make two billion quarter loaves of bread. Breweries and distilleries use enough sugar to supply the army. Though Germany has sunk 2,300,000 tons of British shipping, the liquor industry uses 1,800,000 measurement tons a year to import raw materials.

The board of trade withdrew large numbers of skilled men from the army to carry on ship construction, but the liquor traffic could release enough artisans to make 800,000 tons in six months. Coal shortage compelled the withdrawal of 11,000 miners from the army to resume mining, while liquor manufacture consumes the output of 6,000 miners.

The government passed the workers' customary holidays, but loss of time directly traceable to alcohol equals a three months vacation by the entire nation.

Prohibition people never tire of pointing to Russia as an example of what the water wagon can do.

They joined in the general outcry against the Asquith cabinet, daily demanding that the ministers resign and place the conduct of the war in more

efficient hands, and are now preparing to go before the people in the parliamentary elections, if cabinet action does not remove the alleged menace. In an election the liquor matter would indirectly become a referendum, as the people would be asked to elect or defeat candidates, according to their advocacy of prohibition or opposition to it.

Japs Export Money

TOKIO, Feb. 1.—Japanese emigrants in America remitted \$2,214,347 to their homeland during the first ten months of 1916, according to an investigation of the department of communications here. Japanese in Hawaii sent \$301,434 and those in Canada \$327,956.

Washes Gun First

LONDON, Feb. 1.—"What is the first thing you do when you come out of the trenches?" a nurse asked a Tommy, who came out wounded. "Run to the creek and wash my rifle," said the soldier. "Then I wash me."

Cincinnati Girl Entertain Diplomats

Mrs. Elizabeth Schoepf Huebscher, wife of Dr. Charles Huebscher, counsellor of the Swiss legation in Washington, is one of the hostesses favored by the diplomatic corps in Washington. She is the daughter of W. K. Schoepf, the Cincinnati traction magnate, and once went to school in Washington. Her marriage last November was of international interest.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

RUB PAIN FROM BACK WITH SMALL TRIAL BOTTLE OF OLD, PENETRATING "ST. JACOB'S OIL"

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest St. Jacob's Oil at any drug store, pour a little in your hand and rub it right on your aching neck, and by the time you count fifty the soreness and lameness is gone.

I don't stay satisfied! This soothing, penetrating oil is to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!—Adv.

Madam, Do You Carry Weight for Your Age?

The Life Extension Institute, of which board of directors William H. Taft is chairman, has determined just how much every woman ought to weigh for every year of her life from the age of 15 to 55. If you are too thin you are not healthy, and consequently will not live as long as you might; so if you are too fat. If you weigh more or less than you should you may write to the Institute in New York city and it will look into your case or refer you to a local physician. But, madame, you know you must give your correct age.

FIRST AVIATOR TO BE PRIVATE

BIRDMAN AND OWNER OF AEROPLANE IS FIRST TO ENLIST IN THE UNITED STATES ARMY AS A PRIVATE

PENSACOLA, Fla., Feb. 1.—Establishing a precedent by being the first aviator and owner of an aeroplane to enlist as a private in his country's military service, Charles E. Hays, cartoonist, reporter and birdman, today joined the flying squad of the United States marines at the aeronautic station here.

The youthful aviator, who rejected the temptation to go abroad in belief that his country has the first demand for his services, is eager to demonstrate his skill as a flyer, and expects to win rapid promotion in the "soldiers of the sea."

Young Hays says that he hopes to achieve success through merit alone, and ignores the inference that by owning and operating an aeroplane he is bound to rise in the world.

PLUMBER WAS ON BENCH FOR TIME

BUT HE WAS THERE TO BE JUDGED AND NOT TO JUDGE. HAD ENJOYED A MERRY NIGHT BEFORE

SAN FRANCISCO, Feb. 1.—Sam Atkinson, plumber, can now truthfully say he has been on the bench.

For one brief instant he occupied the bench with Police Judge Fitzpatrick. But Sam made a mistake. He was supposed to be there to be judged, not to judge.

Sam, after a merry night before, curled up on the street car tracks on Montgomery street. When he came to, he was in the prisoner's dock in police court.

"Sam Atkinson," called the bailiff. Still a trifle dazed, Sam stepped from the cage, mounted the bench with great dignity, seated himself beside his honor.

Judge Fitzpatrick was at least surprised. But indignation gave way to laughter, and in order to preserve the dignity of the court Sam was hustled out and started homeward.

THIS WOMAN CAN KEEP A SECRET

MISS JESSIE SIMPSON IS CLERK OF FOREIGN RELATIONS COMMITTEE OF UNITED STATES SENATE

WASHINGTON, D. C., Feb. 1.—Can a woman keep a secret? The foreign relations committee of the United States senate thinks so. The committee has chosen for the first time in history a woman as the clerk of the committee. This is an important post. Her name is Miss Jessie L. Simpson—business woman extraordinary.

Her nomination carries with it the privilege of the floor of the senate, enjoyed by but one other woman in history, Miss Leona Wells, clerk of the military committee.

Miss Simpson was nominated for the clerkship by Chairman Stone, and received the unanimous vote of the committee, of which she has been acting clerk for six months.

Soldiers Hold Show

LONDON, Feb. 1.—"Amateur night" methods are used to decide the winners of singing competitions behind the lines in France. The ranks comprise hundreds of mellow voices, and the man greeted by the loudest and longest applause gets the money.

No one likes to be a dead one, but everybody must come to it some day. Better get a life insurance policy while you are a live one. Ask Chiracote about the "Dividend paying company of America." 31

SAGE TEA KEEPS YOUR HAIR DARK

WHEN MIXED WITH SULPHUR IT BRINGS BACK ITS BEAUTIFUL LUSTRE AT ONCE

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored, and it becomes thick, glossy and lustrous, and you appear years younger. It is not intended for the cure, mitigation of Wyeth's Sage and Sulphur Compound or prevention of disease.—Adv.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

Have You Our 1917 Catalog?

Plant for Profit

Now—is the time

The shortage of food products in the markets of the world promises

Big returns for growers—Prepare to reap your share of the profits

OUR 1917 CATALOG and Planter's Guide, 100 pages, listing new and improved varieties that are most profitable for commercial or home plantings; latest and best equipment for poultrymen, bee keepers, fruit growers—IS NOW READY FOR YOU

TRY IT AND SEE!

Lift your corns or calluses off with finger! Doesn't hurt a bit!

A noted Cincinnati chemist discovered a new ether compound and called it freestone, and it now can be had in tiny bottles as here shown for a few cents from any drug store.

You simply apply a few drops of freestone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just lift it off with the fingers.

No pain, not a bit of soreness, either when applying freestone or afterwards, and it doesn't even irritate skin.

Hard corns, soft corns or corns between the toes, also toughened calluses just shrivel up and lift off so easy. It is wonderful! Seems magical. It works like a charm. Genuine freestone has a yellow label. Don't accept any except with the yellow label.—Adv.
