Automobile Deliveries May Be Delayed

Car Dealers Over the Country Asked to "Spot" Cars and Report Cases Where Speed Can Be Made to Get Them Back to the Factory

Automobile dealers and the automobile buying public will be in store for many disappointing delays in the delivery of their new cars this spring unless they join forces immediately in an effort to relieve the great freight car shortage. Already the automobile industry has suffered heavily, and it is now threatened with an enforced slump in production because there is no outlet for the product. This situation is due partly to the exceptionally heavy freight business, and partly to the fact that thousands of specially built automobile freight cars are being seized by railroads and shippers in all parts of the country and held for their own use.

Thus the motor car manufacturers are deprived of the special facilities with which they had the foresight to equip themselves many months before the shortage. Their cars are being used to haul farm products—fruits, potatoes and everything imaginable. Meanwhile the big automobile plants in Detroit are forced to depend on the very limited supply of the ordinary box car type, and since these have been wholly inadequate, and since storage space in many instances has been exhausted, it has been necessary to cut down far below the normal production.

In view of the tremendous demand for motor cars already in prospect for the coming spring and summer, this condition will result in a decided under-production unless there is relief soon.

The real seriousness of the situation developed at the annual meeting of Dodge Brothers dealers of the Middle West, in the Blackstone hotel, Chicago, during the Chicago automobile show. At this time the 300 dealers in attendance gave their word, in response to addresses by A. I. Philip, general sales manager of Dodge Brothers, and A. T. Waterfall, director of traffic of the same concern, to do all in their power to have automobile freight cars returned to Detroit, so that they could be used for shipments. The belief was expressed that these 300 dealers could establish themselves as the nucleus of a nation wide organization with this purpose in view, and that the result would be a concerted movement by the 25,000 bona fide automobile dealers of the United States in the direction of better shipping facilities. Good results are already apparent, according to Detroit manufacturers.

"Spot" the automobile car," urged both Mr. Philip and Mr. Waterfall. "If you find one on a sidetrack in your home city, induce your freight agent to get it back to us, or wire us the number of the car and we'll both go."

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a savory tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the sage tea and sulphur essence at home, though, is troublesome. In easier way is to get the ready-made preparation improved by the addition of other ingredients, costing about 4 cents a bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so even. You just dampen a sponge or soft wash with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application of two year hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Mr. McAllister went to Portland by way of Reno and Sacramento, visited in the Bena country, and has returned here. He took the roundabout way on account of the snow, there being two feet of the beautiful in Lakeview when he left, and also the present railroad facilities, or lack of them.
