

Strahorn Waits on Oregon Towns

Continued from Page 1

short time is almost certain, because of the popular interest in getting a railroad through Central Oregon, but until that assurance is patent, Mr. Strahorn prefers to hold off the Portland campaign.

"It has been understood all along that the surveys, rights of way, terminals and franchises and practically all other assistance asked for in the Central Oregon field would be arranged before Portland would be asked for its contribution," Mr. Strahorn advised the local office.

Mr. Strahorn and the other members of the committee hope and believe these matters will be arranged in the early future, as the latest advice from the respective communities referred to so indicates. There is no lack of appreciation of the work being done by a few public spirited citizens in every community affected.

This is especially true of Klamath Falls, where great sacrifices have been made and efforts devoted to insuring the beginning of construction at that end this spring.

The organization, surveys, estimates and many other details of Mr. Strahorn's work are complete, ready for construction, and a large amount of valuable property acquired. He is still hopeful of the early financing of the project after Oregon interests

do their full part, but as he expresses it, his hands are now tied until those who are to be the chief beneficiaries of the work put him in possession of the remainder of the property and other assets and rights upon which to build.

He mentions another serious drawback constantly arising, and which it seems impossible to eliminate. This is the repeated reports of his alignment with some one of the five railroads with whose stub ends his proposed Oregon, California & Eastern railroad is to connect. First it is the Union Pacific, then the Hill lines, then the Western Pacific, and so on. "A reliance upon this sort of thing is fatal," says Mr. Strahorn. "We will never get anywhere with the project so long as such mistaken notions are entertained by any considerable number who should have their coats off and be straining every nerve and resource to pull this enterprise through."

"The whole matter is just where it was in the start—absolutely independent—and it could not succeed if it were attempted in any other way. With all the thought and strenuous effort I have centered upon it for two years, I fail to discover any other way to finance it than I announced in the beginning. That is, for those most interested to furnish the rights of way, station grounds, terminals, franchises, etc., upon the surveys and plans I furnish and subscribe 25 percent of the cash necessary to construct and equip the system, all of which, added to my outlays and work, to be used as a basis upon which to finance 75 per cent. We now have well organized and a businesslike start made on a splendid railway project, promising the greatest benefits to Oregon and neighboring states of any since the completion of the transcontinental lines. It only awaits the all-together pull which I hope will come quickly, because we can never tell what may happen to delay or defeat a development of such magnitude."

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

SAYS GLASS OF HOT WATER BEFORE BREAKFAST WASHES POISONS FROM SYSTEM

Physicians the world over recommend the inside bath claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.—Adv.

Beginning Work on the First New Fort to Protect United States

Within three days after President Wilson had spoken of the German situation to congress work was begun on the construction of a new fort near Rockaway, Long Island, within New York city, and eleven miles from the Battery. The state legislature promptly amended the city charter so that

this land—the property of the city—might be ceded to the federal government. The photograph shows laborers turning the first shovelful of earth. Here high powered rifles greatly elevated will be placed to fight off battleships that may attempt to shell New York city.

PINE CREEK CLUB COMMITTEE BUSY

HAS SPENT WEEK IN SECURING RIGHT OF WAY FOR STRAHORN RAILROAD—COMMUNITY EXPECTS LITTLE TROUBLE

NEW PINE CREEK, Feb. 20.—The railroad committee appointed some time ago by the New Pine Creek Commercial Club to secure the rights of way for the Strahorn road, started out the first of last week on their work. The duties of the committee are to secure the rights of way along the survey north and south of New Pine Creek to connect with the line from Lakeview and into Surprise Valley.

The reason for not starting the work earlier is due to the fact that the blue prints of the land desired were not received until recently.

New Pine Creek is quite enthusiastic over the proposed railroad, and the community is unanimous in its support of the project. Little trouble is predicted in the securing of the right of way.

EAT LESS MEAT IF BACK HURTS

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acids in meat excite the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

Physical Preparedness—Resting

Personal health is maintained by diligently keeping yourself at par. Public health is purchasable. Within natural limitations any community can determine its own death rate.

"God bless the man who first invented sleep." Rest, relaxation, sleep, pull your loose ends together; recuperate your run down resources. Work enough so you can enjoy a restful sleep. If you get up by six in the morning, you will not suffer with insomnia.

Long continued strain and worry causes mental and physical breakdown. We need rest to re-create, which put together means recreation. One can accomplish more by working intensely for a period with plenty of rest interspersed.

The universal speeding up of civilization, high living, the rush for wealth, and intensive methods all along the line, makes it high time for us to remember that the human body is the same as in more rational times. Our cardiac mechanism cannot stand the pressure of this age.

Take rest, rest, but not too much rest. Live the simple life. Have one "play time" each day.

Health is wealth and the basis upon

which to erect the temple of human happiness.

Insomnia, worry, fretting, feverish intensive work, while not mathematical, they can add to your nervous troubles; subtract from your physical energy; multiply your aches and pains; divide your mental powers; take interest from your work; and discount your chances for success.

Proper breathing, eating, drinking, working and resting conclude our constitutional measures, as it were, for physical preparedness. We will take up in the by-laws the Hidden Plague and a number of diseases and physiological facts.

To recapitulate—breathe more; eat less; be moderate in drink, work and rest, but not in the use of water or fresh air. Hit your bed before 10:30 p. m.

County Coroner.

MT LAKE LOCONICS

Mrs. Herb Phillips entertained at cards Friday evening. Mr. and Mrs. Alexander of Klamath Falls were among the guests.

Mr. and Mrs. Charlie DeLap and family were guests of Mrs. Clyde and Everett Griffith last week.

Mr. Snow was a town visitor Saturday.

John Koonz was in town for a load of wood Friday.

J. A. McComb and son Floyd were in the vicinity of Malin Saturday.

Mr. and Mrs. Lester and family have returned from the Falls, where they have been spending a week.

The Community Literary Society will meet at the Mt. Lake church Saturday evening.

Mr. and Mrs. Snow spent Sunday with Mr. and Mrs. Williams of Spring Lake.

The Embroidery Club will meet with Mrs. Elliott Thursday afternoon. Fay Grizzle is on the sick list.

L. B. Duncan and family spent Sunday with Will Cheyne and wife.

A CHEAP HOME

Four room house and good lot in Second Hot Springs Addition for \$250. Will take \$250 cash and give long time on balance. See Chikote at once or lose a real bargain. 13

CRATER FOREST RECEIPTS LARGEST

REPORT SHOWS CRATER RESERVE TURNS MORE TO GOVERNMENT THAN ANY OTHER NATIONAL FOREST

Receipts of the Crater Forest reserve for 1916 were greater than those of any other of the national forests, according to compilations made by the bureau of national forests, furnished by Supervisor M. L. Erickson. The receipts were \$98,227. The next largest earnings were made by the Whitman reserve, with \$72,672. The third on the list is the Tongass, in Alaska, with \$55,499. There is a big drop to the fourth, the Wallawa, with \$26,168.

Siskiyou forest earned but \$9,786, Cascade \$1,646, Umpqua \$21,042. The receipts of the Crater forest are divided as follows: Sale of timber, \$28,720; cattle and horses, 196 permits, 6,293 head; sheep and goats, 11 permits, 5,264 head. The total cost of operation and maintenance, \$52,676.

CINCINNATI AUTHORITY TELLS HOW TO DRY UP A CORN SO IT LIFTS OUT

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freesone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without pain.

A quarter of an ounce of freesone cost very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.—Paid Adv.

Underwood's Pharmacy
KLAMATH FALLS OREGON
WHERE PARTICULAR PEOPLE BUY THEIR DRUGS

Speaking of smoking sensibly—

WITH all their good taste, Fatimas would not be a sensible smoke if they weren't comfortable.

In other words, Fatimas would not be sensible if they ever bothered your throat or tongue; or if they didn't leave you feeling all right even after smoking more than usual.

Fatima Cigarettes never

disturb. They can't. The milder tobaccos in their Turkish blend are in such perfect balance with the richer, fuller-flavored leaves as to offset entirely all of that uncomfortable "oily heaviness" found in so many other cigarettes.

You'll realize this with your first package of Fatimas.
