

County Court Proceedings

JANUARY TERM, 1917

Thursday, February 1st, 1917. Court met pursuant to adjournment, all members being present, and the following proceedings were had:

The following claims were allowed and the clerk was instructed to draw warrants on the general fund for their respective amounts:

Walter Wallin, widow's pension for Feb. 1917	25.00
Wm. H. Shidler, widow's pension for Feb. 1917	10.00
Wm. McLean, widow's pension for Feb. 1917	25.00
Wm. C. Donelson, widow's pension for Feb. 1917	17.50
John Daniel, widow's pension for Feb. 1917	17.50
Wm. E. Keesee, widow's pension for Feb. 1917	17.50
Wm. B. Burkhardt, widow's pension for Feb. 1917	10.00
Wm. Hilton, widow's pension for Feb. 1917	10.00
Wm. Tull, widow's pension for Feb. 1917	10.00
Wm. Godard, widow's pension for Feb. 1917	25.00
Wm. E. Madison, widow's pension for Feb. 1917	10.00
Wm. M. Maler, widow's pension for Feb. 1917	10.00
Wm. C. Horner, widow's pension for Feb. 1917	17.50
Wm. C. Ady, widow's pension for Feb. 1917	25.00
Wm. M. Cantrell, widow's pension for Feb. 1917	25.00
Wm. E. Pearson, widow's pension for Feb. 1917	25.00
Wm. E. Wilson, widow's pension for Feb. 1917	17.50
Wm. R. Beede, widow's pension for Feb. 1917	17.50
Wm. E. French, widow's pension for Feb. 1917	10.00
Wm. Smith, aid county poor for Feb. 1917	20.00
Wm. Graham, aid county poor for Feb. 1917	10.00
Wm. Kewen, aid county poor for Feb. 1917	25.00
Wm. Hill, aid county poor for Feb. 1917	25.00
Wm. Tyler, aid county poor for Feb. 1917	25.00
Wm. A. Ken, aid county poor for Feb. 1917	20.00
Wm. M. Liberty, aid county poor for Feb. 1917	15.00
Wm. Washburn, aid county poor for Feb. 1917	15.00
Wm. Joe Frasers, aid county poor for Feb. 1917	20.00
Wm. Midkiff, aid county poor for Feb. 1917	15.00
Wm. Goodell, aid county poor for Feb. 1917	15.00

The following claims were allowed by the High School Board and the clerk was instructed to draw warrants on the High School Fund for their respective amounts:

Wm. K. Kotzover, salary January 1917	75.00
Wm. I. Greog, salary January 1917	100.00
Wm. B. Swanson, salary January 1917	150.00
Wm. J. Marshall, salary January 1917	110.53
Wm. H. Hoos, salary January 1917	110.53

French Freighter in Battle With Submarine

When the French line freighter submarine in the "ruthless" submarine Guayne came into New York harbor in the war. The submarine fired three shots at her, but the gunner of the Guayne answered with two shots, and sank the submarine.

County Expert's Monthly Report

(Continued from Page 1)

weather conditions would permit. Considerable time was spent in personally assisting the organizations already at work, poison was prepared and distributed to those interested, and conferences with poison mixers were held in order to standardize operations. Three meetings were held at which the ground squirrel and jackrabbit work was discussed, methods explained and plans made for future extermination efforts throughout the year. The biological assistant spent one day mixing rabbit poison for an entire community, and was assisted in this by the officers of the organization. Several successful rabbit kills were reported. Perhaps the best results with rabbit poisons were obtained in Langell Valley. While figures are not available from reports received, it is estimated that some 3,000 rabbits were poisoned in the county. Rabbits in the county were comparatively scarce, and it was impossible to make spectacular kills, such as were made in Lake and Crook counties during the present winter. Strychnine for community poisoning by clubs was apportioned by the biological assistant from his personal supply until the arrival of the county strychnine.

Farmers Show Interest

Farmers of the county showed more interest in the control of ground squirrels than in the rabbit work, and this project was taken up with three organizations in person and with several others by correspondence. Standardized methods of work which have resulted in successful operations in some seventy-five clubs in other states and counties, were described and explained. Circular letters containing formulas and revisions in the methods of mixing were sent to poison

presidents of each organization in the county. By the provisions of this letter, it is planned to keep in close touch with the campaign so that definite figures regarding cost and results may be obtained. To this end all organizations using county strychnine are requested to report on poison used, area cleared in acres and number of squirrels actually killed. It is planned to spend some time in personally assisting each organization in the county later in the summer. By so doing, it is hoped to actually clear areas of squirrels that will otherwise be neglected. If necessary, vacant government lands, ditch banks, roads, etc., will be cleared of squirrels by the United States biological survey co-operating with the state, county and county agriculturist.

Hunter Employed

The biological assistant employed a predatory animal hunter for the predatory animal inspector at Pendleton, who will operate in the county throughout the year. This step was taken in order to suppress the spread of rabies and reduce the losses by predatory animals in general. As the weather moderates, it is planned to employ two or three more hunters who will devote their entire time to the control of predatory animals. Many farmers of the county have conferred with the biological assistant regarding extermination of coyotes. Formulas for the preparation of poisoned baits and baits have been distributed, and also strychnine capsules, to those who agreed to use them as per directions and to report results.

Plans for ground squirrel control were discussed with Mr. H. W. Hincks of the Indian reclamation service, and a large batch of poison was prepared at Chillicothe for use in the spring.

Circular letters were written and personal visits made concerning the work of the extension service and the office of county agriculturist.

Rubber Gloves

It is cheaper and far more comfortable to wear out gloves than to wear out hands. It will take a long time to wear out a pair of our guaranteed Rubber Gloves.

WOMEN'S PARTIES MAY COMBINE

TO MEET IN WASHINGTON TO FIX WAR POLICIES AND TALK OF AMALGAMATION OF THE VARIOUS BRANCHES

WASHINGTON, D. C., Feb. 27.—Prior to the White House demonstration the Congressional Union and the National Women's party will hold conventions at the national headquarters here, beginning day after tomorrow.

Two important subjects are to be considered by the delegates—the advisability of framing a war time policy for suffragists and the proposal that has been made to combine the voting and non-voting women of the country into one big political organization by a merger of the union and the women's party.

Master of American Ship Sunk by Sub

Captain Stephen McDonough, whose home is in Maine, was master of the American schooner Lyman M. Law, which was sunk in the Mediterranean February 12th by an Austrian or German submarine.

Bend to Entertain Pine Manufacturers

Western Pine Association to Meet There in August With Others to Organize Lumbermen

BEND, Feb. 27.—Bend will entertain the Western Pine Manufacturers' Association at their meeting to be held in August, at which time invitations will be extended to the Pacific Coast Pine Manufacturers and the California Sugar and White Pine Association, according to T. A. McCann, general manager of the Shevlin-Hixon company, who extended the invitation to the association, and who also made the suggestion that three branches of the association be formed, namely: Kalispel Mont., for Montana; Spo-

RELIGIOUS MEN MAKING PLANS

WORKING ON THE THEORY THAT MEN'S SOULS WILL BE SICK AFTER EUROPEAN WAR IS FINISHED

BOSTON, Feb. 27.—On the theory that men's souls will be sick after the European war has finished tearing them to pieces, famous religious leaders met here today to consider what spiritual medicine shall be prepared for them. The prevention of future wars by proper religious teaching also will be considered.

"This convention of the Religious Education Association," said Secretary Dr. Henry F. Cope of Chicago, "is one of preparedness by education rather than by armament." Among those present are Bishop Francis J. McConnell of Denver, Governor McCall of Massachusetts, Professor J. E. Keiser of Texas, Dr. Katsujii Kato of Japan, William Douglas McKensie of Hartford, Rabbi Henry Levi and Harrison C. Elliott of the International Y. M. C. A.

"TIZ" GLADDENS SORE, TIRED FEET

NO PUFFED-UP, BURNING, TENDER, ACHING FEET—NO CORNS OR CALLOUSES

"Tiz" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters, bunions and chilblains.

"Tiz" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "Tiz" brings restful foot comfort. "Tiz" is magical, grand, wonderful for tired, aching, swollen, smarting feet. Ah! how comfortable, how happy you feel. Your feet just tingle for joy; shoes never hurt or seem tight.

Get a 25-cent box of "Tiz" now from any drugstore or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy. Just think! A whole year's foot comfort for only 25 cents.—Adv.

EAT LESS MEAT IF BACK HURTS

DRINK A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU

Having most regularly eventually progressive kidney trouble in some form or other, says a well-known authority, because the uric acids in most cases get sluggish; clog up and cause all sorts of distress, particularly headache and misery in the kidney region; sometimes twinges, severe headaches, stomach, constipation, torpid bowels, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if you get uric acid, get about four ounces of Jad Salts from any good grocery store; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be all right. This famous salt is made from the solid grapes and lemon juice, combined with lithia, and has been used for generations to flush out the kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder difficulties.

It does not injure anyone, and is a delightful effervescent lithia-water drink which millions of men and women take now and then to flush out the kidneys and urinary organs, thus avoiding serious kidney troubles.—Adv.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headache, dull and unstrung; some days really incapacitated by illness?

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.
