

\$6,000,000 Road Bonding Bill To Be Voted Upon Next June

(Continued from Yesterday's Herald)
Section 6.—The highways described in Sections 6 and 7 of this act are hereby determined to be highways of first importance to the general public of the state of Oregon. It is hereby determined that the following highways should be permanently constructed and finished with a hard surface:

1.—The Columbia River highway from the Multnomah county line to the Multnomah county line in Clatsop county, through the Tillamook county line, through the counties of Columbia and Clatsop, have already expended large sums of money in constructing the said Columbia highway through said counties, and in doing so have practically exhausted their ability to raise money by an issuance of county bonds, the state highway commission is hereby authorized, from the funds arising under this act, in addition to paying said highway, to use from said funds sufficient to provide for the preparation of said highway through said counties for the paving thereof.

2.—The Pacific highway from the Multnomah county line through Washington county and Yamhill county by way of Hillsboro, Forest Grove, McMinnville to Dallas, Monmouth and Independence, in Polk county; to Corvallis and Monroe in Benton county, and through Eugene to the north line of Douglas county.

3.—The Pacific highway from the Multnomah county line through Oswego, Oregon City and Canby in Clatsop county, thence through Marion and Linn counties, to a junction with the highway at Junction City.

4.—Such portions of the Columbia River highway between the Multnomah county line easterly through the city of Hood River and Hood River county and through The Dalles and Wasco county, through Sherman county, through Gilliam county, by way of the town of Arlington and up the Columbia River to the confluence of the Umatilla River with the Columbia River, thence up the Umatilla River through Hermiston, Stanfield, Echo and Pendleton, and thence north to the state highway commission to be determined by the county courts of the various counties affected shall agree to pave the road ready for paving, provided, that inasmuch as the county of Hood River has raised by a bond issue and expended upon said Columbia River highway practically its full constitutional limit, said commission may expend on said Columbia River highway in Hood River county, such portion of the money arising under this act as it may deem proper in preparing said Columbia River highway for paving. The various county courts in said counties in Eastern Oregon through which said Columbia River highway is projected shall agree with the state highway commission upon what portions of said highway are to be paved with a hard-surface paving and what portions are to be constructed as post roads, and whenever any of said counties shall have prepared a portion of said highway ready for paving, then the state highway commission shall proceed promptly to pave the same under the provisions of this act, and the remainder thereof shall be improved as a post road under the provisions of this act, and such portions so improved as a post road shall not be eligible for paving at the expense of the state under the provisions of this act.

5.—The Pacific highway through Jackson county, where the same has not already been paved, along the route heretofore adopted by the state highway commission. Inasmuch as the county of Jackson has already expended large sums of money in constructing said Pacific highway, and in paving a large portion thereof, and in so doing has practically exhausted its ability to raise money by any issuance of county bonds, the said highway commission is hereby authorized, from the funds arising from this act, in addition to completing the paving of said highway in Jackson county, to use from said funds sufficient to provide for completing the preparation of said highway through said county, for the paving thereof.

6.—Commencing on the Columbia River highway at or near Arlington in Gilliam county, thence up Willow Creek in Morrow county, through the cities of Ione, Lexington and Heppner in Morrow county, and through Pilot Rock, Pendleton, Adams, Athena, Weston, Milton and Freewater in Umatilla county to the Oregon and Washington state line.

7.—A road from the south line of Clatsop county, at the end of the highway described in paragraph 1 hereof, south by Wheeler to Garibaldi.

8.—A road from the Multnomah county line by Tigard, Rex and Newberg to McMinnville.

For the purpose of this act the above highways are to be known as hard surfaced highways.

Section 7.—The following highways, to wit:

1.—The road running from the north line of Douglas county to the Jackson county line over the line of the Pacific highway as adopted by the state highway commission.

2.—All that portion of the Columbia River highway described in the fourth paragraph of the description of hard surfaced roads as described in Section 6 of this act, which the county courts of the several counties through which the same is located, shall not determine to prepare for paving with hard surfaced paving as is herein provided, shall be considered a post road, and eligible to improvements as such under the provisions of this act.

3.—A road from Roseburg, by Myrtle Point and Coquille to Marshfield.

4.—A road from the Pacific highway from a point at or near McMinnville by Williams to Tillamook City.

5.—A road from The Dalles by way of Dufur, Maupin and Shaniko to Redmond, Bend and from thence to Klamath Falls.

6.—A road from Bend to Lakeview.

7.—A road from an intersection with the Columbia River highway at a point either in Sherman or Gilliam county, by way of Condon, Fossil and Spray, and thence up the John Day Valley to such point as the highway commission shall elect, and from thence to Vale and the Idaho line.

8.—A road from LaGrande, through Union and Walla Walla counties to Joseph.

9.—A road from Bend through Burns and Harney to Vale. . . . shall be known as post roads and

shall be constructed along routes between said certain points to be agreed upon by the representatives of the federal government, and said state highway commission. Said post roads shall be constructed according to specifications agreed upon between the representatives of the federal government and said state highway commission. Provided that if the counties of Douglas and Josephine or either of them shall prepare any part of the said Pacific highway, and make same ready for paving according to the requirements of the state highway commission, the said commission shall immediately pave the road so prepared, and such portion of said road shall be excepted from the classification as a post road.

If the county of Coos shall prepare and make ready for paving, according to the requirements of the state highway commission, twenty or more miles in length of the post road between Roseburg and Marshfield hereinafter described, or the county of Tillamook shall so prepare and make ready for paving twenty or more miles in length of the post road between Tillamook City and McMinnville, and if such portions of said roads, in either or both of said counties, are so prepared, that the same shall be ready for paving, according to the requirements of the state highway commission, then said commission shall immediately pave the road so prepared and such portion of said road shall be excepted from the classification as a post road, and such portion shall then be classified as a paved road.

Great French War Minister Forced Out

GENERAL LYAUTEY

General Lyautey, who when he was named minister of war three months ago was hailed as savior of France, has been forced out of office, because he could not get along with French politicians. Rather than submit to them he resigned.

She Cooks for Bacteria

ELIZABETH QUIRK

If the normal habits and tastes of bacteria are to be studied and classified with a view to their extinction as pests, somebody must feed them in the meantime and keep them cheerful. That is the job of Miss Elizabeth Quirk of the bureau of plant pathology, United States department of Agriculture. She is an expert on the culinary preferences of bacteria, and she fattens millions of them at a time. Her task is simplified somewhat by the fact that her charges are vegetarians. Then, too, unlike man, they don't growl if there happens to be too much oil in the salad dressing. Miss Quirk declares some of them are cute, and that their uncomplaining habits endear her to the job. She entered the department as a clerk.

Frisco Trade Case Up

SAN FRANCISCO, March 23.—Adjudgments are being made today before Judge Seawell in the superior court here, on the petition of the city of San Francisco for a writ of mandate directing the United Railroads to exchange transfers with the Union street line of the Municipal Railways, at Fillmore and Polk street. The case is a test brought by the city to decide whether transfers shall be exchanged on a 50-50 basis or whether transfers the basis shall be 60-40, which the United Railroads demands.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Cold. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, sneezing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuff-nosed with a cold or nasty catarrh—relief comes so quickly.—Adv.

HAVE DARK HAIR AND LOOK YOUNG

NBODY CAN TELL WHEN YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
