HOME PREPAREDNESS

Number 2

THE KITCHEN THE FIRST LINE TRENCH

By CARL VROOMAN

Assistant Secretary of Agriculture.
Member of the National Emergency Food Garden Commission.
(Written for the United Press)

WASHINGTON, D. C., April 6.—The domestic life of a modern army should be an example to every American housewife. In the army the ration is well balanced, the cheapest, nutritious and palatable foods are purchased, and the most economical means of preparing them are used.

It is a patriotic duty at this time and all the time, whether there is war or peace, for every American woman, rich or poor, to keep her home "prepared." Home preparedness means substitution of cheap, appetizing dishes for costly foods, practical elimination of waste, and scientifically balanced rations.

There are two great groups of foods that enter into a balanced human diet—the protein group, like meat, eggs and beans, and the starch group, such as potatoes, rice, cereals, etc. The protein foods as a rule are more expensive than the starch foods. Some protein foods, however, are cheap. The prime factor in economy of foods is the choice of protein foods that are at the same time cheap and palatable.

A cheap food, rich in protein and

fat is the ordinary field soy bean, often sold under the name "Togo bean." Ten cents worth at the price of 15 cents a quart will supply over 5 ounces of protein while average meat at 30 cents a pound will supply a little over 1 ounce of protein for the same money.

Excellent soups can be made from the water in which soy beans are cooked, as well as from the water in which most vegetables are boiled. Save also vegetable tops, skin milk bones and meat scraps for soups. Make the butcher give you all the fat that he weighs with your cut of meat—it's valuable grease.

Don't depend on one kind of food. When potatoes are dear, remember that 1 pound of dry corn meal produces about 5 times as much fuel or energy and 5 times as much tissue-building protein as 1 pound of raw potatoes and cost from one-third to one-sixth as much.

Raisins are rich in sugar, mineral salts, and the natural grape acids and their cost is low.

Whole wheat, cooked till it bursts open, or cracked in a little \$2.50 hand mill, is one of the most delicious and nourishing breakfast foods known—and inexpensive even at the present high price of wheat.

Save fuel and labor by making hot breads only when using your fire for the cooking of other foods. Avoid

the danger of overcooking, and conserve the flavor of your dinner by using a fireless cooker. You can make a good one yourself very cheaply.

By such expedients as these every woman can "prepare" her home not only against war but also against sickness and hard times.

SUMMER STARTS

WHETHER OR NO

LONDON, April 6.—Summertime in England will start day after tomorrow. Nature has nothing to say about it, because the government decides such things for her.

Times have changed since celluloid collars were all the rage and automobiles only had two cylinders. Like artificial ice and storage eggs, the seasons have been taken completely out of the hands of Providence.

Summer starts April 8, because on that date the clocks of the realm will all be set forward one hour to save daylight. On September 23, the clocks will be set back again, and Nature can suit herself about the seasons for the rest of the year.

Mayor Lanes \$25,000

SALEM, Ore., April 6.—Mayor Walter E. Keyes dropped the dignity due the executive of the capital city—forgot that he was a statesman and barrister—and joined his brother Elka in a production of "Get-Rich-Quick Wallingford" here last night. The mayor played the "boob" part—mayor of the town of Battlesburg—and during the course of the play was flogged to the extent of \$25,000 (stage money).

HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU
DARKEN GRAY, FADED HAIR
WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

FORTY MILLION ACRES OF LAND RECLAIMED

WAITING TO BE CONVERTED
INTO FARMS, ACCORDING TO
ANNOUNCEMENT GIVEN OUT
BY RECLAMATION SERVICE

WASHINGTON, D. C., April 6.—Forty million acres of barren land in the west are waiting to be converted into prosperous farms, according to the Reclamation Service of the Interior Department today. Soon modern irrigation canals will dot these wastes, supplied by the Reclamation Service from the fund obtained by sale of public lands in semi-arid sections.

Since the service was established 1,500,000 acres of land have been reclaimed and 1,000,000 of those acres are producing crops that will help bring down the high cost of living. Homes have been established on these lands by 30,000 families, and even thriving cities and railroad centers have sprung up where barren wastes existed.

Projects now under way or completed embrace approximately 2,000,000 acres of irrigable land, divided into 60,000 farms. The net investment thus far is about \$100,000,000.

In some cases the reclamation even controls its own reservoirs and coal mines for the people who have moved to the open territory. This instance is illustrated at Villiston, North Dakota, where such a mine has been maintained for five years without loss of a life. Telephone lines, lighting and heating plants and other public service means are likewise maintained by the government for the benefit of the settlers.

WOMEN! IT'S MAGIC! CORNS SHRIVEL AND LIFT OUT—NO PAIN!

For a few cents you can get a small bottle of the magic drug freestone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freestone. Apply a few drops upon a tender, aching corn and instantly, yes immediately, all soreness disappears and shortly you will find the corn so loose that you lift it out, root and all, with the fingers.

Just think! Not one bit of pain before applying freestone or afterwards. It doesn't even irritate the surrounding cuticle.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet just seem to shrivel up and fall off without hurting a particle. It is almost magical. It is a compound made from ether, says a well known druggist here, and the genuine has a yellow label.—Adv.

Big Salmon Run Expected
VANCOUVER, B. C., April 6.—This being the "big" year of the four-year cycle in the fishing business, salmon canneries along the Fraser river and throughout this district in general are preparing for a record catch. A shortage of fishermen is all that worries the cannerymen.
