shown upon the plat for the several farm units. The maximum limit of acreage which water-right application may be made for lands in private ownership shall be 160 acres of irrigable land for each land owner.

8. Application for water-rights. All water-right applications, whether for public or private lands, must be made to the Project Manager, U. S. Reclamation Service, Klamath Falls, Oregon, upon forms provided for that purpose. Every application for public lands must be accompanied by the proper initial water-right payment. Each such application must be for a specific farm unit, and more than one person may make application for the same farm unit. A certificate of filing will be issued each applicant by the project manager. Filing of water-right application and issuance of certificate give no preference right to entry on public lands. Only when the project manager is notified by the local land office that an entry has been allowed, will acceptance of the water-right application be endorsed thereon. Whereupon all other water-right applications affecting the farm unit in question, with payment made, will be returned to the respective applicants, upon surrender by them of the certificate of filing issued by the project manager. Water-right application for private lands may be made on and after date of this notice.

9. Classes of charges for water-rights. The water-right charges are of two classes, to-wit: (1) a charge against each irrigable acre to cover the cost of construction of the irrigation system, called the construction charge, and (2) an annual charge against each irrigable acre to cover the cost of operation and maintenance of the system, called the operation and maintenance charge.

10. Construction charge. The construction charge for said lands shall be \$45 per irrigable acre for unentered public land and \$39 per irrigable acre for all other land, payable as follows:

(a) For lands that were prior to August 13, 1914, subjected by contract or otherwise to the provisions of the Reclamation Law, said construction charge shall be paid in not more than ten equal annual installments, the first of which shall be paid at the time of filing water-right application, the second of which shall be paid December 1 of each year thereafter; provided, however, that if water-right application subject to the provisions of the Reclamation Extension Act of August 13, 1914, or an acceptance of the provisions of said Extension Act in accordance with Section 14 thereof, be filed within six months from the date of this notice, said construction charge shall be payable in twenty annual installments, the first of which shall become due and payable on December 1 following the date of water-right application, and subsequent installments on December 1 of each calendar year thereafter.

(b) For the remaining lands an initial payment of five per centum of the construction charge shall be made at the time of filing water-right application, and the remainder of the construction charge shall be paid in fifteen annual installments, the first five of which shall each be five per centum and the remainder each seven per centum of the total construction charge. The first of said fifteen annual installments shall become due and payable December 1 of the fifth calendar year after the initial installment, and subsequent installments shall become due and payable on December 1 of each calendar year thereafter.

11. Increased construction charge in certain cases. In all cases where water-right application for lands in private ownership, or for lands under entries not subject to the reclamation law, shall not be made within one year from the date of this notice the construction charge for such land shall be increased five per centum each year until such application is made and the initial installment paid.

12. Advance payment of construction charge permissible. Any water-right applicant may, at his option, pay in advance the whole or any part of the construction charge owing by him within any shorter period than that prescribed by this office.

13. Operation and maintenance charges. The operation and maintenance charges for the irrigation season of 1917, and thereafter until further notice, shall be a minimum charge of 25 cents per irrigable acre whether water is used thereon or not, which will entitle the water user to two acre-feet of water per irrigable acre, and additional water will be furnished up to a total limit of three acre-feet per irrigable acre at the rate of twenty cents per acre-foot, and all further quantities for forty cents per acre-foot. All operation and maintenance charges will be due and payable on March 1 of each year for the preceding irrigation season, except that when water-right application is made for public lands entered on or after June 15 in any year the first payment of such charge becomes due March 1 of the second year thereafter.

14. Place and manner of payment. All water-right charges must be paid at the office of the U. S. Reclamation Service, Klamath Falls, Oregon, in currency or by New York draft or money order payable to Special Fiscal Agent, U. S. Reclamation Service.

Popular Debutante of Washington Society

Baroness Charlotte von Winckler is one of the debutantes of Washington society who has become extremely popular this season. Although her father is the Netherlands consul general in far Calcutta, India, she and her sister were introduced into society in the American capital.

phur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Moving Pictures

In the full glory of a beauty that is queenly, enhanced by luxurious surroundings, the finest settings that Morocco-Paramount has ever produced, Miss Kathlyn Williams in "Redeeming Love" has achieved the greatest screen production of her career. It is truly a wonder story. Thos. Holding, who made his screen debut in support of Pauline Frederick in the Famous Players adaptation of "The Eternal City," makes his first appearance as a morocco star in this picture.

A remarkable feature of this play, which comes to the Star theater tonight, is the plunge of an auto into the sea. It is a hair-raising feat, but is only an incident in the rapid dramatic action of this coming production.

Montana Students Loyal

MISBOULA, Mont., April 13.—There is no question as to the patriotism of the students of the University of Montana. The united student body telegraphed President Wilson that the university had faith and confidence in the president, following a patriotic demonstration and parade.

circulation, printed and published at Klamath Falls, Klamath county, Oregon, by order of Honorable D. V. Kendall, Judge of the above entitled court, made, dated and filed in this cause on March 8, 1917, the date of first publication of this summons being March 9, 1917.

R. C. GROESBECK,
Attorney for Plaintiff.

NO HEADACHE OR NEURALGIA PAIN

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.

When your head aches you simply must have relief or you will go wild. It's needless to suffer when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once. Send someone to the drug store now for a 10-cent package of Dr. James' Headache Powders. Don't suffer! In a few moments you will feel the headache gone—the neuralgia pain.

How to File on Tule Lake Lands

The Secretary of the Interior has issued the following public notice, received by the Klamath Commercial Club, for prospective settlers who desire to file on the Tule Lake lands, which may be done between April 19 and April 25, the filings to be opened on April 25.

The notice was received from Congressman Sinnott:

1. In pursuance of section 4 of the Reclamation Act of June 17, 1903 (32 Stat. 388), and of acts amendatory thereof and supplementary thereto, and particularly of the Reclamation Extension Act of August 13, 1914 (38 Stat. 686), public notice for lands in the Third Unit of Klamath Project, Oregon-California, is hereby issued as follows:

2. Lands for which water will be furnished. Upon proper application being made therefor, water will be furnished under said project in the irrigation season of 1917 and thereafter, for the irrigable lands in said Third Unit, shown on farm-unit plats of the following townships of the Willamette and Mount Diablo meridians, to-wit:

T. 41 S., R. 11 E., W. M., Oregon.
T. 41 S., R. 12 E., W. M., Oregon.
T. 40 N., R. 5 E., W. M., California.

which plats were approved March 31, 1917, by the Secretary of the Interior and are on file in the office of the Project Manager, U. S. Reclamation Service, Klamath Falls, Oregon, and in the local land offices at Lakeview, Oregon, and at Sacramento, California.

3. When and how to make entry for public lands. Homestead entries for the farm units shown on said plats covering public lands of the United States may be made beginning April 21, 1917, at 9 o'clock a. m., at the local land office of the district within which said land is situated. Every person desiring to acquire any of said public lands must execute a homestead application subject to the provisions of the reclamation law in manner required by law, which, with the required fees and commissions, accompanied by certificates of the project manager as to the filing of water-right application and payment of water-right charges as hereinafter

provided, may be presented to said local land office, in person, by mail, or otherwise, within a period of nine days prior to the opening, to-wit: On and from April 16, 1917, to and including 9 o'clock a. m. April 25, 1917. Applications presented after said period of nine days will be filed and noted in the order of their receipt. Any application not based on a prior settlement right will be subject to valid settlement claims asserted in the manner required by law.

4. Simultaneous filings for public land. Applications reaching said local land office during said period of nine days will be held and treated as simultaneously filed, and the register and receiver will dispose of them as follows:

(a) Where there is no conflict the application will be allowed, irrespective of whether settlement is alleged.

(b) In case of conflicting applications and only one of the applicants alleges prior settlement, his application will be allowed and the others rejected.

(c) If two or more conflicting applications, each containing allegations of prior settlement are received, a hearing restricted to those alleging such right will be ordered to determine the priority of right.

(d) Where there are conflicting applications in which no one of the several applicants claims prior settlement the register and receiver will write on cards the names of the several applicants, and each of these cards will be placed in an envelope upon which there is no distinctive or identifying mark, and at 3 o'clock p. m. on the date of opening to entry, if practicable (if not, at the same hour one day later), after all the envelopes containing the names of the several applicants shall have been thoroughly mixed in the presence of such persons as may desire to be present, they will be drawn and numbered in order. The cards as drawn and numbered will be securely fastened to the applications of the respective persons, and the applications will be allowed in such order. Applications conflicting in whole with those previously allowed will be rejected in the usual manner.

5. Failure of applicant to obtain public land applied for. Where an applicant fails to obtain land applied for by him he will be permitted to elect whether he will amend his application to embrace other lands not affected by pending applications and otherwise subject thereto when such amended application is presented, or withdraw his original application without prejudice. In the event of such withdrawal the fees and commissions will be returned by the receiver, and the water-right charges deposited will be returned by the project manager, upon surrender of the certificate of filing issued by the project manager.

6. Warning against unlawful settlement upon public land. No person will be permitted to gain or exercise any right whatever under any settlement or occupation of any of said public lands, begun at or prior to 9 a. m. April 25, 1917, provided, however, that this will not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

7. Limit of area for which water-right may be secured. The limit of area per entry representing the acreage which, in the opinion of the Secretary of the Interior, may be reasonably required for the support of a family upon such lands, is fixed as

application, and subsequent installments on December 1 of each year thereafter, in which event the first four installments shall each be two per centum, the next two installments shall each be four per centum, and the next fourteen each six per centum of the total construction charge.

(b) For the remaining lands an initial payment of five per centum of the construction charge shall be made at the time of filing water-right application, and the remainder of the construction charge shall be paid in fifteen annual installments, the first five of which shall each be five per centum and the remainder each seven per centum of the total construction charge. The first of said fifteen annual installments shall become due and payable December 1 of the fifth calendar year after the initial installment, and subsequent installments shall become due and payable on December 1 of each calendar year thereafter.

11. Increased construction charge in certain cases. In all cases where water-right application for lands in private ownership, or for lands under entries not subject to the reclamation law, shall not be made within one year from the date of this notice the construction charge for such land shall be increased five per centum each year until such application is made and the initial installment paid.

12. Advance payment of construction charge permissible. Any water-right applicant may, at his option, pay in advance the whole or any part of the construction charge owing by him within any shorter period than that prescribed by this office.

13. Operation and maintenance charges. The operation and maintenance charges for the irrigation season of 1917, and thereafter until further notice, shall be a minimum charge of 25 cents per irrigable acre whether water is used thereon or not, which will entitle the water user to two acre-feet of water per irrigable acre, and additional water will be furnished up to a total limit of three acre-feet per irrigable acre at the rate of twenty cents per acre-foot, and all further quantities for forty cents per acre-foot. All operation and maintenance charges will be due and payable on March 1 of each year for the preceding irrigation season, except that when water-right application is made for public lands entered on or after June 15 in any year the first payment of such charge becomes due March 1 of the second year thereafter.

14. Place and manner of payment. All water-right charges must be paid at the office of the U. S. Reclamation Service, Klamath Falls, Oregon, in currency or by New York draft or money order payable to Special Fiscal Agent, U. S. Reclamation Service.

GIRLS! MAKE A BEAUTY LOTION WITH LEMONS

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the roses and beauty of any skin. It is truly marvelous to smoothen rough, red hands.—Adv.

LEGAL NOTICES

Summons
In the Circuit Court of the State of Oregon, for Klamath County
Nellie Wall, Plaintiff,
vs.
W. H. Wall, Defendant.
To W. H. Wall, Defendant above named:
In the name of the state of Oregon: You are hereby required to appear and answer the complaint filed against you in the above entitled action on or before Friday, the 30th day of April, 1917, that being the last day of the time prescribed in the order of publication of this summons, and if you fail so to appear and answer, for want thereof, plaintiff will apply to the court for the relief prayed for in her complaint, to-wit:
For a decree dissolving the bonds of matrimony now existing between plaintiff and defendant; for the care and custody of Herbert Vernon Wall, Carol Louis Wall, and Harold Lee Wall, minors, and for such other and further relief as to the court may seem equitable. This summons is served on said defendant, W. H. Wall, by publication thereof in the Evening Herald, a daily newspaper of general

THE MAGIC FLUID

Few drops and corns or calluses loosen and lift off with fingers. No pain!

The world owes thanks to the genius in Cincinnati who discovered frezone, the new ether drug.

Tiny bottles of the magic fluid can now be had at any drug store for a few cents.

You simply apply a few drops of this frezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so loose and shriveled that you lift it off with two fingers. Not a bit of pain or soreness is felt when applying frezone or afterwards. It doesn't even irritate the skin or flesh.

For a few cents one can now get rid of every hard corn, soft corn, or corn between the toes, as well as painful calluses on bottom of feet. Everyone who tries frezone becomes an enthusiast because it really doesn't hurt or pain one particle. Genuine frezone has a yellow label. Look for the yellow label.—Adv.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the day's indigestible waste, sour bile and poisonous toxins; thus cleansing, stomach, liver and bowels the previous sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying hot water and limestone phosphate on your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.
