MODERNIZING THE GARDEN

By CARL VROOMAN

Assistant Secretary of Agriculture, Member of the National Emergency Food Garden Commission. (Written for the United Press)

WASHINGTON, D. C., April 20.—Cabbage plants should be purchased about the middle of April. They should be set two feet apart if of the small variety. Tobacco dust should be sprinkled over them as soon as set to keep off the cabbage louse. The plants should be set deep. In July or August the plants can be set for the winter supply.

The amateur probably will find the bush lima bean the best. The ground should be well warmed for these. They should be sown in rows two feet and a half apart and four inches apart in the row.

Spring onions are desirable and a start can be made with these as soon as the ground is ready. Plant

a third once a week for three weeks about one-half inch deep. The rows should be a foot apart. Thin to four inches apart in the rows when the plants are four inches high. Pull the onions in the fall when the tops begin to fall over and leave them on the ground until thoroughly dry, then store them in a cool place.

April lettuce may be sown early in the open ground. Do not cover them more than a quarter of an inch. The solid head varieties may be sown early in May. When three inches high thin out to four inches apart in the row. For the table cut out every other plant.

Most exacting of all plants is the tomato. The plants should be transplanted to the garden about May 20 to June 1.

Set the plants in rows eighteen inches apart. Plant them twenty inches apart in the rows. As it grows all side branches should be removed and the main stem tied to a stake.

FRISCO ART TOO DARING FOR FIFTH AVENUE, N. Y.

NEW YORK, April 20.—The morals of the Panama-Pacific exposition will go on trial here today. Justice in special session will try Abraham Cahan, Fifth avenue art dealer, in whose window a picture called "The Rising Sun," from a photograph taken at the exposition, shocked an agent of the Society for Suppression of Vice. The agent bought some of the nudes—same varying in degree of nudity—to be used as evidence.

Will trade clear lot for equity in improved property. See Chilcote. 12

WOMEN TO DRIVE WAR CARS IN U. S. SERVICE

WASHINGTON, D. C., April 20.—Enticing debutantes and just ordinary domesticated matrons are dabbling around in pools of grease and oil these days, under model automobiles learning the art of chauffeuring so they will be able to "do something" when the country sounds the call "to arms."

The work was started by the Red Cross here and, according to reports pouring into headquarters, it has spread like a wind-swept fire throughout the country.

THUMB-NAIL SKETCHES

Man Who Run U. S. Navy

Admiral A. G. Winterhalter

WASHINGTON, April 20.—

When on his first long cruise after leaving Annapolis, Admiral A. G. Winterhalter sailed on Friday, "crossed the line" on Friday, and arrived on Friday. But it bore no fruits of misfortune. Today, Admiral Winterhalter has just relinquished supreme command of the United States fleet in the Asiatic after a most successful regime. He is slated for even more responsible duties in the near future.

When the United States took over the Hawaiian Islands in 1898, it was Winterhalter, then flag-lieutenant, who hoisted the stars and stripes over the new territory.

Besides being a fighter, the admiral is a man of the highest scientific and literary attainments. When the navy established its new naval observatory at Washington, Winterhalter was selected to make a tour of all European observatories and scientific institutions to assist in designing the new plant.

Probably the most accomplished linguist in the navy, Admiral Winterhalter speaks or reads within one of a dozen languages.

W. U. PAYS GUARD EMPLOYEES' WAGES

The following order has been issued by President Carleton, of the Western Union Telegraph Company, and applies to employees of the company who are members of the National Guards of the states where they reside, according to a notice received at the local telegraph office from General Manager M. T. Cook, of the Pacific division:

"Employees now members of the National Guard called out by the President, and who have been in the service for one year and over, will be paid half their present salary while with the colors (during a period of one year unless extended by the company), provided that such half pay plus government pay does not exceed their present compensation."

"At the end of such one year or extended period, a position at a salary equal to that now paid will be open to each employee affected."

"The provisions of pensions and other benefits will apply to all such employees."

LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons. Adv.

MR. LANDSKNEK! If you are not lucky enough to get some of the Tule Lake land, call at 624 Main street. I have the exclusive sale of some of the best farms in the Klamath Basin, and prices are low. Better have a look before going away. Chilcote. 18-21

TAKE SALTS TO FLUSH KIDNEYS

EAT LESS MEAT IF YOU FEEL BACKACHE OR HAVE BLADDER TROUBLE

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

Send some one to the drug store now for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless.
