Juice of Lemons! How to Make Skin White and Beautiful

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth, so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as sallowness, freckles and tan, and is the ideal skin softener, smoothen and beautifier.
Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer, and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smoothen rough, red hands.—Adv.

A fire may come in the night and wipe out your earthly possessions. Better get good insurance before the fire. See Chilcote. 23

DULL, SPLITTING, SICK HEADACHE

Dr. James' Headache Powders relieve at once—10 cents a package.

You take a Dr. James' Headache Powder and in just a few moments your head clears and all neuralgia and distress vanishes. It's the quickest and surest relief for headache, whether dull, throbbing, splitting or nerve-racking. Send someone to the drug store and get a dime package now. Quit suffering—it's so needless. Be sure you get Dr. James' Headache Powders—then there will be no disappointment.

TRUMB-NAIL SKETCHES

Men Who Run U. S. Navy
Near Admiral Leigh C. Palmer

WASHINGTON, D. C., April 24.—"Man power" is just now about the most pressing of the navy's problems. With the rapid increase in fighting ships, the question of finding men—suitable men—to man them is becoming more and more serious. The big job of raising about 40,000 recruits and that in the very near future, is up to Rear Admiral Leigh C. Palmer, chief of the bureau of navigation. This bureau has to do with all matters of personnel, present and prospective. Moving pictures, cartoons, placards, "open-door" recruiting stations, brass bands, and all forms of publicity and exhortation, are among the means Admiral Palmer is employing to fill up the ranks.

Incidentally, a seductive \$5 a month salary increase, which will be urged on congress for the navy's enlisted men, is expected to prove a great stimulus to recruiting. The new "open-door" policy, chiefly advocated by Admiral Palmer, whereby 100 blue-jackets are to be annually admitted to the Annapolis cadet academy to become full-fledged officers, now offers a further—and very powerful—inducement for enlisting.

The chief of the bureau of navigation, besides being one of the most universally popular officers in the service, is fulfilling earlier predictions of his old commanders. "He is well above the average, and will develop to be an efficient officer in the higher grades," said Admiral Winslow, then a commander. When Admiral Palmer was a lieutenant, Admiral Potter said of him: "He is the most thoroughly proficient officer of his rank I have ever served with." "I consider him among the best of his contemporaries," reported Captain Sims, when Palmer commanded a destroyer of his command.

Klamath County News

(Special Klamath County News)
Farming Begins
ORINDALE, April 24.—Spring is here and farming is in full swing in these parts.

Moves on Ranch
ORINDALE, April 24.—James Stansbie moved on his own place last week, and a Mr. Price is moving on the place Mr. Stansbie vacated.

ORINDALE PERSONALS
ORINDALE, April 24.—Miss Elsie Stansbie was shopping in the county seat Monday of this week. Mr. Mumford has rented his land to R. V. Ess for this season. Mrs. Pell of Round Lake visited a few days in Klamath Falls last week. H. Whiteline has turned his cattle out on the range to get the use of the hills for feed again. James Stansbie was doing some blacksmithing Monday of this week. Mr. and Mrs. C. G. Hunt and family called on Mr. and Mrs. Switzer Sunday afternoon. H. S. Fox had a team in Klamath Falls Monday, after a load of rolled barley. T. O. Hague has installed electric lights on his ranch on the Keno road. James Stansbie lost one of his best work horses the first of this week with lockjaw, caused from an injury.

Will trade clear lot for equity in improved property. See Chilcote. 12

BE PRETTY! TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

GRANTS PASS, April 24.—After walking through the roughest part of Curry county, 100 miles from Gold Beach to Grants Pass, Joseph Wheaton, 17, an orphan, today is one of Uncle Sam's soldiers.

French Aero Wizard Aids U.S.

Top—Blimp non-rigid dirigible. Center, right—Henri Julliet, French aeronautical engineer. Center, left—Julliet's motor near Paris. Bottom—Goodrich factory at Akron, where Julliet is building dirigibles.

AKRON, Ohio, April 24.—The United States, arming to the need of aerial defense, has just secured the assistance of Henri Julliet, noted French dirigible engineer, who is even now working at the F. B. Goodrich factory, this city, on two huge semi-rigid airships for the federal government.

The two air-battle ships will be 160 feet in length, weighing but 5775 pounds including the weight of pilot and observer, and capable of attaining a speed of 48 miles an hour—equal to that of the average locomotive. M. Julliet is giving the United States government the benefit of forty years of actual experience in the construction and, according to our own experts,

Washington Prepares
OLYMPIA, Wash., April 24.—State Commissioner of Agriculture Hensen is enlisting the co-operation of all publications in Washington in a statewide campaign of agriculture preparedness. State experts will prepare 600-word stories of the most approved way to plant and harvest crops suitable to both Eastern and Western Washington.

Slow, But He Enlists
BEND, April 24.—The United States got into a war with Germany without B. S. Bothwell, a homesteader living twenty-five miles from LaPine, hearing about it, but as soon as he did happen to get the news, he walked with knapsack to Bend and enlisted in the navy. Today he is on his way to San Francisco. Between the time he heard of the war and his departure from Bend by train, he walked 75 miles.

Refrigerators and ice will assist materially in reducing household expenses during the war. Call and see our new line of large refrigerators Klamath Valley Warehouse and Forwarding Company. 23-6t

THE REACH 1917 GUIDE RECEIVED

The 1917 Reach American League Guide—the official handbook of the great American League—has just made its appearance, thus ushering in one more baseball season, a function which it has fulfilled each spring for 35 consecutive years. This long continuation of publication alone has served to make the Reach Guide the standard annual publication of the baseball world, without considering the merits of the contents of the book, which is edited by Francis C. Richter, the veteran baseball writer and authority. This year the Guide has been rearranged, being grouped into four distinct sections, a method that makes it especially easy to search out matters of reference and record.

The book gives a complete review of the American League's sixteenth eventful season as a major league. The National League race of 1916 is also fully treated and exhaustive averages of the National League players are furnished, together with portraits of the leading players in the 1916 season, and the roster of the champion 1916 Brooklyn team.

In addition to the above there is a great deal of general information contained in special articles, namely, a record of all major league interleague games of 1916, and details of various record-breaking events in 1916. Special chapters are devoted to the no-hit games of 1916; the deaths of 1916; the remarkable extra-inning games of 1916, and some wonderful record-breaking pitching and batting feats in the major and minor leagues.

The 1917 Reach Official American League Guide also contains the most important requisite to give it official stamp and public value, namely, the revised and correct uniform Playing Rules Code for 1917, together with the 1917 championship schedules of the American League and National League. In short, everything of interest or value either for record or reference will be found within the covers of this great book, which is thus really a complete history of baseball in 1916.

his presence in the Goodrich factory will assure Uncle Sam of the very best in the semi-rigid type of dirigibles.

Not only can Uncle Sam's new air crafters make a speed of 48 miles per hour at an altitude of 600 feet but that speed can be maintained for ten hours. In other words one of our army officers can send one of these semi-rigid dirigibles any morning and, by that night, the pilot will have covered 480 miles—possibly all of it over the enemy's territory.

It is interesting to note that only 548 pounds is allowed in the new dirigible for engine, mufflers, radiators, water, propeller and hub. In the former days of gasoline engine construction the weight of a single cylinder engine nearly approached this weight. If necessary the pilots of the new aircraft may alight upon water or land and it is declared that these new city warriors will play a prominent part in the national defense of the United States.

Report is Delayed
SALEM, OREGON, April 24.—It may be several weeks before the report on the Tumalo project is ready, said State Engineer John H. Lewis, upon his return to Salem after a trip to Central Oregon. The legislature appropriated \$10,000 for an investigation into the leakage of the Tumalo reservoir.

Pendleton Raises \$100
PENDLETON, April 23.—As a patriotic step toward food preparedness, the Pendleton Commercial Club has on hand today a \$100 fund with which poor people will be aided in securing seed to plant.

I have the exclusive sale of many of the best farms in the Klamath Basin. Chilcote. 12

13,318 YEARS TO SPEND 7,000,000,000 DOLLARS

WASHINGTON, D. C., April 24.—Spending the money at the rate of one dollar a minute, it would take one person 13,318 years to spend Uncle Sam's \$7,000,000,000 war fund.

Figuring on the basis of that much money ever being in one man's possession, mathematical sharks figure that if this seventh degree billionaire spent a dollar every minute he would go broke in the year 15,235.

Deaf to Fight

VANCOUVER, Wash., April 24.—One thousand deaf men—all experts with the rifle—will be a part of Colonel Roosevelt's proposed volunteer division, if J. F. Meagher, instructor in the Washington State School for the Deaf, has his way. He has written the colonel for permission to recruit 1,000 "sons of silence," whom, he says, he can have ready for service in four months.

Denied Citizenship

PORTLAND, April 24.—Having sworn his intention of renouncing his allegiance to Kaiser Wilhelm, yet denied citizenship in the United States for the present, August Voger of this city is today a man without a country. He was refused final papers because of the 100-year-old law which provided that an alien enemy cannot be granted citizenship.

Bond Campaign on

TACOMA, Wash., April 24.—A "give-a-dollar-a-week-to-buy-a-war-bond" campaign is on here, under the direction of the Tacoma Rotary Club.

Vancouver Building Rushed

VANCOUVER, Wash., April 24.—Work on the plans for the new \$40,000 building for the state school for the deaf are being rushed here today. Julius Zittel of Spokane and Dennis Nichols of Vancouver have been awarded the contract for preparing the plans, and have been instructed to complete the plans as soon as possible.

If you are interested in having an expert piano tuner come here from Sherman, Clay & Co., San Francisco, call up Mrs. Zumwalt at 258M at once. 31-3t

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief. Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffing, mucous discharge, headache, dryness—no struggling for breath at night—your cold or catarrh is gone. Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.—Adv.

HIGH HEELS PUT CORNS ON TOES

TELLS WOMEN HOW TO DRY UP A CORN SO IT LIFTS OUT WITH OUT PAIN.

Modern high-heeled footwear bushes the toes and produces corns, and many of the thousands of hospital cases of infection and lockjaw are the result of woman's suicidal habit of trying to cut away these painful pests.

For little cost there can be obtained at any pharmacy a quarter of an ounce of a drug called freezone, which is sufficient to rid one's feet of every hard or soft corn or callus without the slightest danger or inconvenience.

A few drops applied directly upon the tender, aching corn stops the soreness and shortly the entire corn, root and all, lifts out. It is a sticky substance, which dries the moment it is applied, and thousands of men and women use it because the corn shrives up and comes out without inflaming or even irritating the surrounding tissue or skin. Cut this out and try it if your corns bother you.—Paid Adv.
