CIRCUS DAY NEXT MONDAY

Al. G. Barnes' Circus Has a Personally Conducted Trip Through the Animal Tents Especially for Teachers and Children Patrons.

"The Most Highly Educational Circus in the World" is the titled earned and merited by the Al. G. Barnes big four-ring wild animal circus which will be in Klamath Falls next Monday.

The Barnes Circus is the first in the world to put on a "Personally Conducted Trip" to give patrons the great animal study a circus contains, and is the first circus in the world to be given the rare distinction and honor of having public schools, academies, state universities and parochial schools suspend session for it.

During the 1916 season and this season, so far, an almost unbroken line of school and college holidays marked the path of this marvelous congress of educated animals.

To see an animal circus the magnitude of the Barnes Circus is a big educational feature in itself. School teachers and educational workers high in the educational world, like J. H. Francis, formerly of the Los Angeles schools, have frankly said they learned natural history over again when they saw the remarkable things the animals in the Barnes Circus do.

To every teacher, child and escort who attend the afternoon show a personally conducted trip through the animal tents under the direction of competent lecturer and attendants is given free. They are requested to be at the entrance of the main tent promptly at 1 p. m., and will be entered first. Once inside, the party is taken in charge, the lecturer explaining where each and every specie of animal comes from, how captured and educated to do every kind of circus trick. The party is then escorted to their seats in the main tent, a special block of seats being especially set aside for them.

"Circus" to the last degree, the Barnes Circus is full of clean, education, wholesome amusement and interest. The laughs are clean laughs. The sensations are clean sensations. The features are fastidious and delicate.

A two-mile long open den street parade in the morning at 10:30. Doors opening at 1 and 7 p. m. Performances at 2 and 8 p. m.

With everything to delight the heart of animal lovers and circus fans, the Barnes Circus is sure to draw.

I have the exclusive sale of many of the best farms in the Klamath Basin. Chilcote. 12

LADIES! DARKEN YOUR GRAY HAIR

USE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so natural and even that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it, and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Back of this season's new Overland Big Fours and Light Sixes are a direct line of nine preceding models from which they were developed.

They directly continue the line of models that made the Overland name stand in the public mind for integrity of value.

Overland policy has steadfastly sustained that integrity of value in the car throughout its entire service in the hands of owners.

Over three hundred thousand of these cars are now in use and the helpful suggestions of their owners and of the more than four thousand dealer and factory-branch organizations that sold and served them, are largely responsible for the balanced greatness of this season's Big Fours and Light Sixes.

Their new beauty, their perfected easy riding qualities, their proven sturdiness and mechanical excellence, their admitted tire, fuel and oil economy make them worthy of the confidence we enjoy, that they will still further enhance Overland prestige.

They embody the wisdom of the unmatched Overland experience in building cars of this type.

They are dominant values, cars of proven dependability and sterling worth.

As long as we have them for delivery before May 1st, the prices are \$850 for the Big Four, \$985 for the Light Six—thereafter \$895 and \$1025.

It Makes a Difference Where You Buy a WATCH

So far as you are concerned, the factory, with a few notable exceptions, doesn't produce a complete watch. The jeweler buys the cases of another manufacturer. And unless he buys good cases, and has a skilled, experienced watchmaker to fit the movements into the cases, the watches he sells won't give satisfaction, no matter how fine the movements are. The watch bought at Upp's gives thorough satisfaction, because only standard movements are dealt in, and we are experts in casing and regulating them.
