329 SALOONS IN NEBRASKA CLOSE

LINCOLN, Neb., May 2.—Eight hundred and twenty-nine saloons, fifteen breweries and ten rectifying plants in Nebraska are closed under a prohibitory law initiated by the electorate and reinforced by a supplemental statute enacted by the legislature. Purchase, manufacture, sale or gift of liquor is prohibited, but possession is not forbidden. A large number of saloons throughout the state, reports said, sold their stock before noon. As a consequence prices soared until bottled whiskey and beer retailed in many towns at prices prohibitive to the meagre purse. Stocks of a few dealers were auctioned off, and the bidders were eager and the "knock down" figures high.

HALF BUSHEL POTATO EYES SENT TO PARK

SAN FRANCISCO, May 2.—A half bushel of eyes started on its way to John McLaren, superintendent of Golden Gate Park, today. Potato eyes, of course.

Superior Judge Graham, chairman of the council of defense of San Francisco, issued an appeal to the large hotels and cafes of the city to save the eyes of the potatoes when preparing spuds, and to send the eyes to John McLaren, park superintendent. The eyes will be used by McLaren as seed for the many vacant lots in the city, which are to be planted to potatoes in the council's big "food drive."

An hour after the word had gone out the half bushel of eyes was en route to McLaren and eyes have been accumulating ever since.

INTERESTING TALKS ARE GIVEN AT CATHOLIC CHURCH

There is a series of interesting talks being given each night this and next week at the Catholic church, Eighth and High streets, at 8 o'clock. They are intended for all who desire to know and speak intelligently of the Catholic church.

The Question Box will be a feature of these exercises. Everyone has some questions they would like to ask in regard to religion or the Catholic church. Do not hesitate to propose them. We welcome inquiry, especially from those who are honestly opposed to us.

Perhaps the people of Klamath Falls have often heard the Catholic church described as an enemy to liberty, progress and good morals. At any rate, garbled versions of history, "bogus or ex-priests," scurrilous books and papers, have poisoned with prejudice and misunderstanding the minds of many otherwise well-intentioned people. Should they not then show that broad, liberal American spirit that is always ready to hear the other side of the question, by coming to these lectures? No money will be asked; no collections taken up.

Those who love the Catholic religion should attend and hear the foundations of the ancient faith reviewed and vindicated. Those who HATE the Catholic religion should attend, to find out whether or not their aversion is well founded. PATRIOTISM requires us to eliminate sectional, racial and religious enmities; CHARITY requires us to love others and not hate them; JUSTICE forbids us to falsify or misjudge even one of our fellow citizens, much less millions of them. IN A SPIRIT OF FAIRNESS AND KINDNESS, THESE SHOULD COME AND FIND OUT FOR THEMSELVES.

Those who are INDIFFERENT about the Catholic religion (do not care, one way or the other) should attend. Do they not wish to be well informed upon every question of far reaching importance? But the Catholic church commends itself to the study of every intelligent and knowledge seeking mind. ALL, regardless of creed, should attend these lectures. All are most welcome; all will be treated politely, charitably, kindly. 1-61

Klamath County News

DREDGE WILL REPAIR McCORNACK LEVEE
 (Klamath County Special Service)
 SHIPPINGTON, May 2.—The dredge Klamath Queen was taken up the lake today to the McCornack levee to repair the levee in a few places where it has begun to leak.

PUTS 40 HEAD CALVES ON BUCK ISLAND
 SHIPPINGTON, May 2.—Bert Looney has rented Buck Island of K. P. Hamilton, and has taken about forty head of calves up there for the summer.

RUN BOX FACTORY 10 HOURS; MILL NIGHT AND DAY
 SHIPPINGTON, May 2.—The Klamath Manufacturing company is running its box factory ten hours a day now and the sawmill night and day.

KLAMATH MANUFACTURING TO RUN LONG LAKE MILL
 SHIPPINGTON, May 2.—The Klamath Manufacturing company is repairing the old Long Lake sawmill in Shippington, and intends to run it this summer.

SHIPPINGTON PERSONALS
 SHIPPINGTON, May 2.—Mrs. Herbert Hill, who has been on the sick list for the last week, is able to be up and around the house today.
 Mr. and Mrs. H. C. Putman are in Klamath Falls today on business.
 Frank Staff, who was called East on account of sickness last week, has returned to Shippington.
 Mr. and Mrs. Geo. Nehrbaas of Mills Addition were in Shippington visiting Sunday.

First U. S. Girl Bugler
 Miss Edwardina Lavoe is bugler of the First Field Artillery band of the New York National Guard, where members of the band need not be enlisted. And she is a regular bugler. There isn't a man in any regimental band who blows a better tune. She wants to go to the trenches with the men, but there is considerable doubt about that.

PREPAREDNESS TEAMPLAY FOR UNITED STATES IS PLANNED

WASHINGTON, May 2.—To bring the efforts of states into a "working unity with the national government for the prosecution of the war," representatives appointed by the governors of the various states are meeting here today with the council for national defense.

Secretary of War Baker, who is chairman of the council, issued the call upon governors for delegates to the conference. It will meet criticism which has been frequent of late, that preparedness measures are conflicting, by co-ordinating methods of mobilizing man power, coping with the food situation and collecting military and industrial census data.

A representative of the famous clothing house will be at K. Sugarman's store tomorrow night with a full line of the new Hart Schaffner & Marx suits for men. You are invited to call and inspect these new clothes. 11

I have the exclusive sale of many of the best farms in the Klamath Basin, Chilcote. 12

A FIRE PREVENTION APPEAL

By CHIEF AMBROSE
 The only person who can prevent loss by fire are the owners or occupants of the premises; upon them rests the responsibility for loss in nearly every fire.

It is up to the owners and occupants who neglect the fire dangers. It is all very well to talk of modern building laws, of fire proof buildings or future buildings, but the great danger is the old buildings, and the way to remove the danger is to make the present buildings safe.

Remember the fire department must have your assistance to fight fires. You can co-operate with the fire department by making your buildings safe against fire.

You can prevent fire in your buildings by removing the causes of fire. You can put out fires in your buildings with small loss or damage by water pails, chemical extinguishers, stand pipes and automatic sprinklers.

You can help firemen get at fires by having stairs and fire escapes accessible. You can guarantee non-interruption of your business, by installing fire prevention.

Do everything possible to keep fires from starting, or from spreading when once started, and you have practiced fire prevention and fire protection. Is not this work in which every good citizen should co-operate to the extent of his ability.

MEN WANTED!

Three hundred men wanted by Pelican Bay Lumber company for camp. Mill hands also wanted at mill.

LABOR SHORTAGE ACUTE IN NORTHWEST

ST. PAUL, May 2.—With farmers and agricultural experts co-operating to raise the largest crops in the history of the great Northwest, a labor crisis which may defeat the carefully laid plans to increase production is developing serious proportions.

So serious is the labor shortage that plans to furlough hundreds of men who will be attending summer training camps at Fort Snelling, and pour them into the harvest fields of the Northwest have been suggested.

Attention will be turned immediately to stemming the tide of immigration into Canada. Five hundred farm hands are crossing the line daily. It is estimated. The Canadian government has begun a systematic campaign to attract American farmers and farm laborers to her vast fields deserted by the call to arms. Homesteads are offered on easy conditions. Men are given certificates promising they will not be called on for military service. Every promise of success and wealth is held out to them.

This campaign is seriously objected to in the Northwest. It is held inimical to the interests of the United States and discourteous to an ally when the United States is facing a labor crisis.

Raise Labor Rates
 On and after May 1st the Klamath Electrical Supply Co. and the Link River Electric Co. will raise their labor charge for shop and outside work to \$1.00 per hour. 11

The J. Stas companies are leaders in the insurance field. See Chilcote. 12
