### DULL, SPLITTING, SICK HEADACHE

Dr. James' Headache Powders remove at once—10 cents a package.

You take a Dr. James' Headache Powder and in just a few moments your head clears and all neuralgia and distress vanishes. It's the quickest and surest relief for headache, whether dull, throbbing, splitting or nerve-racking. Send someone to the drug store and get a dime package now. Quit suffering—it's so needless. Oh, how you get Dr. James' Headache Powders—then there will be no sleeplessness.

### "TIZ" FOR SORE, TIRED FEET—AH!

"TIZ" IS GRAND FOR ACHING, SWOLLEN, TENDER, CALLOUSED FEET OR CORNS

Ah! what relief! No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store, and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it—25c.

#### CAMPBELL MEETS WITH NATIONAL DEFENSE COUNCIL

EUGENE, May 8.—President P. L. Campbell of the University of Oregon, who is vice president of the National Association of State Universities, is in Washington, D. C., to attend a special meeting of the association to discuss the mobilization of trained university men of the country.

Today the university heads will meet in joint session with the National Defense Council. Campbell will be in the East for two weeks or more.

#### CHANCES FOR NITRATE PLANT BELIEVED SMALL

PORTLAND, May 8.—The chances are against the Pacific Northwest in its efforts to secure a government nitrate plant, although the war department will consider locations in Oregon, Washington and Idaho, according to a letter received here from Senator Chamberlain.

Needs of other sections are more imperative than are the northwest sections for fertilizers, and as there are almost the extent of peace operations of such a plant, they must be considered, according to the department.

### IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS SIGN YOU HAVE BEEN EATING TOO MUCH MEAT

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take before breakfast in a glass of water for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia-water drink.

### U. S. Ship on Which First American Naval Officer Was Killed

An American naval lieutenant and nine gunners went to their death when the American oil tanker Vacuum was sunk 140 miles west of Barra, Ireland. These are the first American naval or military men to lose their lives in the war. The act which caused their death was the second blow struck in the war, and it was struck by the Germans, who have said they would not declare war on the United States. The first blow was the sinking of a German submarine by Lieutenant Bruce R. Ware, American naval commander on board the Atlantic transport steamship Mongolia.

### Now is the Time to Plant Potatoes

Potatoes should be planted as rapidly as the soil can be prepared. Those planted have made little growth on account of the late spring, but with the weather getting warmer and the excess moisture draining from the soil, growth will be rapid. Abundant production of potatoes will represent important contribution in the campaign to increase the food supply. The abnormally high prices will not be permitted to continue. Householders will find themselves independent of speculators if they utilize the vacant lot adjoining their premises, the back yard, or even the parking in front of their homes. Successful potato growing depends largely upon good land, well prepared, selection of proper varieties, good seed and thorough cultivation and careful protection against insect and fungus pests. While the potato thrives best on sandy or gravelly soil, it will produce with fair returns on heavier or clayey soils, provided the drainage is good and cultivation efficient.

If the area to be planted is small, it would be better to spade than plow it. If the surface is sodded, the sod should be cut up as finely as possible, either with disk or spade, before being tramped under. The soil should be stirred to a depth of eight to ten inches and thoroughly pulverized. Many of the freak potatoes brought into newspaper offices to have their pictures taken are a testimonial to the fact that either the gardener left lumps and clods and stones in the soil and the potato expanded in the direction of least resistance or the seed was diseased. Raw subsoil should not be turned up more than an inch or two at a time, so

if previous plowings have been to a depth of six inches it should not be plowed or spaded deeper this year than seven or eight inches. Where the work is to be done by hand, potatoes can be planted in rows 26 to 28 inches apart. Where the cultivating is to be done by horse, it is advisable that the rows be widened to 30 to 34 inches. Cut the potatoes so that at least two eyes will be left on each piece. Cover them in accordance with the character of the soil, from two to three inches; if light, from three and a half to four inches. The pieces may be dropped from 10 to 12 inches apart. Begin cultivation as soon as the plants have become established, keeping the surface mulched for the retention of moisture, and killing all weeds. If successfully grown, the average lot, 50x100, might be expected to produce twelve or fifteen bushels. A little less than one sack of potatoes will be needed as seed for the average lot. Six hundred pounds of potatoes will plant an acre.

#### HOE PARADE TO BE HELD MAY 8TH

PORTLAND, May 8.—Portland's unique "hoe parade," arrangements for which are being completed today, will be staged on the evening of May 12th. Thousands of Portlanders are expected to walk through downtown streets, each carrying a hoe or other garden tool, and each wearing old clothes. The Citizen's Unification League is in charge of the demonstration, which is intended to promote the cause of food preparedness.

#### TO PLANT POTATOES AT PENITENTIARY

WALLA, WALLA, Wash., May 8.—Trim, well-kept lawns around the Washington penitentiary here will be planted in potatoes and other vegetables, prison officials said today. The potato patch alone will contain three acres.

### Morse's Never-failing Seeds

If your dealer does not carry Morse's seeds, send direct for our catalogue. Free. Your order will be promptly attended to. C. C. MORSE & CO., Seedmen San Francisco

### OREGON ALUMNI WILL CONGREGATE OVER THE STATE

#### ALL WHO EVER ATTENDED THE UNIVERSITY TO MEET

Purpose of Organization is to Campaign for Women's Building at the University at Eugene—Many Students Enlist and Alumni Asked to "Recruit" High School Students for College Next Year.

Under the direction of local committees of alumni in every section of the state, the friends and former students of the University of Oregon are arranging for a celebration next Friday of the first state wide "University Day," as recently set aside by special proclamation issued by Governor Withycombe. The chairman in charge of the arrangements for Klamath County is Andrew Collier and Judge D. V. Kuykendall has been named as a member.

In each community in Oregon the alumni expect to get together all persons who have ever studied at the university or taken work through correspondence. The program for the day will consist in three parts: First, the effecting of a closer organization; second, the celebration of the day in good fellowship, with banquets, picnics and speeches in the different communities as local convenience may dictate; and third, the carrying out of some work for the university. One of the branches of the university activities which it is hoped to forward is the campaign for the woman's building, which has been conducted for over a year under the leadership of Mrs. George T. Gerlinger of Dallas.

A patriotic trend is given to the observance through the fact that the young men of the university have so largely offered themselves for the national service that one of the purposes of the alumni movement this year will be to "recruit" high school students into the university to be trained and educated to fill the great need for trained men which the nation is going to feel after the war.

••••• \$400,000 TAX LEVY FOR NEW PENITENTIARY •••••  
The Herald will each day print one of the eight measures as they will appear on the state ballot for the special election to be held June 4th.  
The seventh bill on the state ballot, with the respective numbers, is as follows:  
Submitted by the legislative assembly—\$400,000 Tax Levy for a New Penitentiary—Purpose—To authorize the board of control to construct a new state penitentiary by contract or otherwise, and to acquire a new site or grounds therefor in the county in which the penitentiary is now located, at a total cost not exceeding \$400,000. To enable the board of control to carry out the provisions of this act, a state tax levy of \$100,000 each year for four years is authorized to be made in addition to the taxes otherwise authorized by law.  
312 Yes.  
313 No.

### CLIP THIS OUT; MAY COME HANDY

#### TELLS HOW TO TAKE SORENESS FROM A CORN AND LIFT IT RIGHT OUT

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store, but is sufficient to rid one's feet of every hard or soft corn or callus. You simply apply a few drops of this on a tender, aching corn and the soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky, but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this—Ad.

Fire accident and health policies are the standard of the world. Ask Chilcote for rates. 13

### HOWARDS Ashland-Klamath Falls Auto Line BEST EQUIPMENT The Service That Has Made Good NEW SEVEN PASSENGER CARS

### Special Subscription RATES

Following its usual custom, the Herald will give its annual bargain month from May 1st to 31st, during which time the following cash prices for paid in advance subscriptions will prevail:

Delivered by carrier in Klamath Falls, \$4.00 per year.  
Delivered by mail in Klamath County, \$3.00 per year.

As these rates only cover the cost of the print paper of this year's price, we are not justified in going to any expense in canvassing the city or county, and all those desiring to take advantage of these special rates are requested to either bring in their subscriptions or send them by mail before the end of the month. The difference in rates in the county and city is due to the cost of two cents per week for carrier service.

NOTE REFER TO CATALOGUE BY DATE & NUMBER

TECHNICAL DEPARTMENT BULLETIN.

DATE \_\_\_\_\_ NUMBER \_\_\_\_\_

TO ALL DEALERS:

For your information we wish to advise that in our experiments and tests here at the factory with our new Eight Cylinder car, we have been able to secure uniformly better results with Standard Oil Company's Zerolene motor lubricant than with any other which we have used.

Please understand, however, that we do not wish this to be construed as an attempt on our part to dictate the brand of oil which you should use, but merely to call your attention to the fact that this particular brand has given us better results than any others which we have tried, and are giving you this for your information.

Yours very truly,  
THE FEARLESS MOTOR CAR COMPANY

BECAUSE Zerolene is correctly refined from asphalt-base crude, it maintains its lubricating body and value at cylinder heat, thus forming a perfect piston seal, reducing friction, and enabling the motor to develop its maximum power.  
Zerolene is the oil for your car.  
For sale by dealers everywhere and at our Service Stations.
