BILLINGSLEY IS BACK IN TOILS

RETURNS OF OWN ACCORD AND GIVES SELF UP TO FEDERAL COURT, AS HE PROMISED WHEN HE LEFT DETENTION PRISON

SEATTLE, May 10.—Logan Billingsley, fugitive bootlegger king, who recently featured in the trial of Mayor Gill and other Seattle officials on charges of accepting bribes, and who escaped from the federal detention station several weeks ago, surrendered himself to the federal court this morning. Billingsley sawed his way out of the detention prison, and left word that he would return after attending to some business affairs. Since then he has written several letters to the authorities, telling them of his whereabouts, and reassuring them that he would give himself up when he was ready.

WATCH KITCHEN SINK IS ADVICE

GERMANY MAY LOSE WAR BECAUSE OF THE LACK OF FATS IN HER FOOD SUPPLY—IN THIS AMERICA IS VERY CARELESS

NEW YORK, May 10.—"Germany may lose the war, not through her arms, but through the lack of fats in her food supply," according to Mary Green, author of "Better Meals for Less Money," who adds that "heretofore, thousands of tons of valuable fats have gone down the American sink or into the garbage can."

"Save the fats," is Mary Green's slogan, now that we must feed not only ourselves, but also our allies.

"All drippings from roasts and fat from boiled meats should be carefully strained and saved," she declares, "for they can be used in many recipes, including those for cookies, cakes, meat sauces and soups."

Bacon fat is declared excellent for corn cake, gingerbread, poultry stuffing and soup stock.

There are many kinds of insurance. Chilcote writes the kind that pays.

COUNCIL PASSES SMALL MATTERS

USUAL MONTHLY GRIND OF BILLS, PERMITS, FIRE DEPARTMENT APPOINTMENTS AND OTHER THINGS BEFORE BODY

The monthly grind of bills was passed on by the council Monday night.

The permit requested by the Union Oil company was granted. The station is to be placed on Sixth street at the corner of Market, after the plans for the establishment have been changed to suit surrounding property owners and the council. Local Manager O. Peyton announces that the work will start as soon as the equipment can be shipped from Sacramento, where it is waiting.

Robert Sloan and D. L. Reed were appointed members of the Klamath Falls fire department by Mayor Crisler and the appointments were sanctioned by the council.

L. R. Robertson, member of the advisory board of the fire department, requested that the salary of the fire chief be raised from \$75 to \$100 or \$125, since he has demonstrated his ability to carry the work on in a thorough manner. Mr. Robertson said that it is necessary to raise his salary to make the position worth while to him. The matter was taken under advisement by the fire committee.

Councilman Sheets introduced an ordinance providing for the establishment of a grade on Seventh street from Washington to Prospect, and on Prospect, Seventh to Ninth streets, by the city engineer. It passed to its second reading.

A resolution was passed by council favoring the changing of the grade of Conger avenue from the center line of California avenue to the present terminus of Conger avenue.

Councilman Doty moved that the election boards be granted double pay for their services on election day, amounting to \$4 for the day's work.

Mayor Crisler conveyed the thanks of the Women's Library Club to the members of the council for the use of

the city hall last week for the Baby Week exhibit.

The expense of the fire department of last month in salaries for extra help amounted to \$51, according to the report.

A scheme to get around the city's ordinance requiring the impounding of cattle found in the city's limits was uncovered during the meeting when

Councilman Miller said that the men which had been hired by the city to drive these cattle in have also been placed under the pay of cattle men, and instead of the cattle being driven to the pound they have been driven out of the city.

Councilman Sheets reported on the Civic Beautiful work.

Rutgers College Boys Charging as They Will in France

Rutgers College at New Brunswick, N. J., is ready for war, and soon will be able to send forth a lot of young men equipped to be soldiers, as well equipped as many of the officers now commanding men on the battle fronts in the East and West. Freshmen and sophomores are required, according to the college curriculum, to take military training under an officer of the United States army.
