WANTED—Girl for general housework; good wages. Phone Mrs. Cotton, White Pelican hotel. 14-3t

ATTEMPT TO SHOW FLOUR DEALERS' COMBINE

LOS ANGELES, May 14.—The Los Angeles district attorneys' force has put in a busy week preparing for the presentation today of evidence for the grand jury in an effort to prove a combination exists between flour wholesalers of the country to control flour prices.

Although what evidence has been secured is not announced, it appears the authorities are confident of getting indictments.

MEAT CAUSE OF KIDNEY TROUBLE

WE EAT TOO MUCH MEAT, WHICH CLOGS KIDNEYS, THEN THE BACK HURTS

Most folks forget that the kidney, like the bowels, get sluggish and clogged, and need a flushing occasionally else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness, and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

EVERY CITIZEN TO BE DRAFTED

SAN FRANCISCO CHIEF OF POLICE HAS ALREADY LAID PLANS TO ENROLL EVERY CITIZEN OF ALL NATIONALITIES

SAN FRANCISCO, May 14.—Every male citizen of the United States within the conscription age limits, regardless of nationality, will be compelled to register under the draft law, according to the interpretation by Sheriff Thos. B. Finn of San Francisco.

Finn announced that he would require every citizen, without regard to race, to register, and that failure to do so would mean drastic punishment.

According to Finn's interpretation, Japanese, Chinese, Austrians, Germans, Mexicans, in fact, every person who is a citizen, must register. After registration the majority of these nationalities undoubtedly will be exempted. Hundreds of letters have come to Sheriff Finn from mothers and sweethearts trying to find some way for those in whom they are interested to escape the operation of the draft. Some of these have endeavored to use influence in securing appointment of their sons as deputy sheriffs in the belief that such an appointment would make them exempt from the draft. Finn declared that all of the appointments to deputyships in the world would not save them a moment.

He also says that during the last several weeks his 400 deputies have been gathering data which will make it practically impossible for any male citizen within the prescribed age to escape.

"On the day following registration," Finn said, "the delinquents will be rounded up and charged with a federal offense. No favoritism will be shown, and every citizen of every race must register, and no excuses will be accepted."

"DUMMY" ARRESTED AND POLICE STUMPED

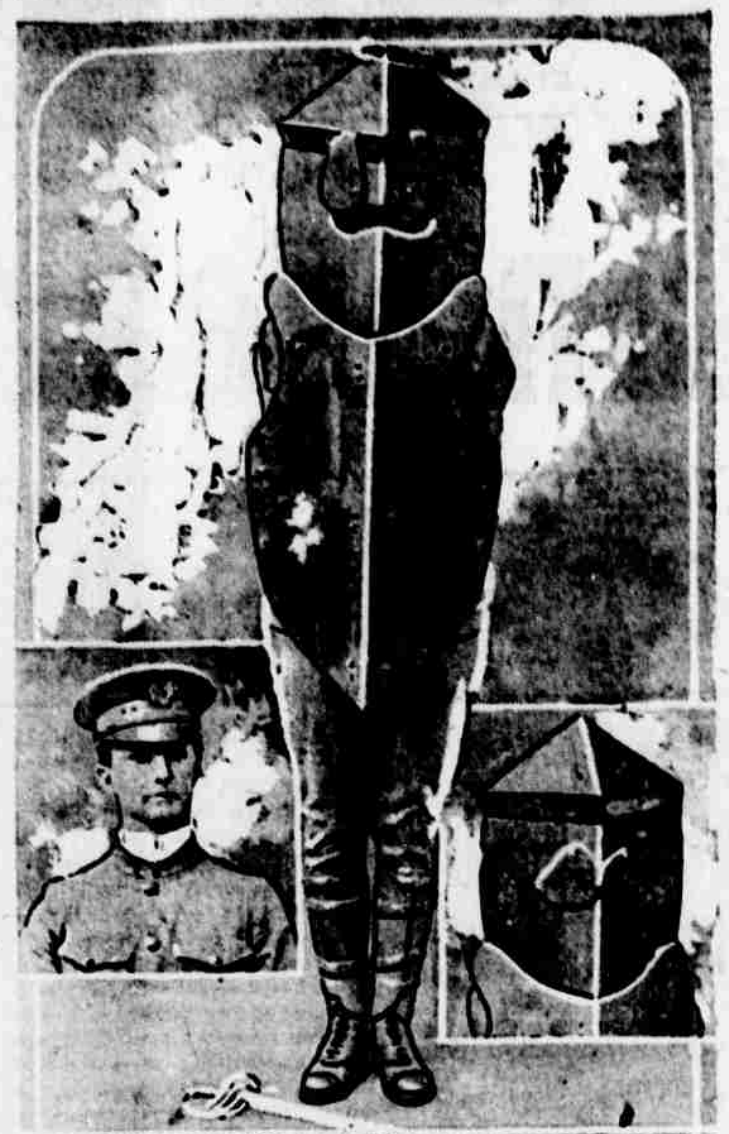

MISSOULA, Mont., May 14.—Local authorities are stumped. They arrested August Strope on a charge of grand larceny, and Strope can't read or write. He can't even understand ordinary sign language.

For thirty years Missoulians have known him as "the Dummy." The authorities are trying to find some way to prosecute Strope, but "the Dummy" probably does not even know why he is arrested. It is impossible to explain the nature of the charge against him, or to arrange for him to enter a plea. He had \$5 and a watch, alleged to have been stolen, on his person when arrested.

There is only one person who can converse with Strope. He is Robert Fredericks, State University of Montana student, now with the aviation corps in far-off Texas.

If you need blotters, phone 66, and Chilcote will deliver them. 9

Inventor Staked His Life on Belief in Correctness of His Theories

Dr. Brewster. Uniform with eyes closed. With eyes closed

Dr. Guy Brewster of Dover, N. J., is an inventor with the courage of his convictions. To prove he had at last found a bullet proof armor for foot soldiers—just the kind needed in the trenches in France—he put on the armor and permitted Sergeant Criswell, a sharpshooter of the United States army, to shoot at a vital part. Officers looked on. The bullets flew off, and there was no damage at all, not even a trace of the shock, which has made all other such inventions useless. The bullet travelled at a speed of 2,740 feet a second, and carried an impact of 2,400 pounds. It struck over the heart. The armor weighs thirty pounds. It has openings for the eyes which may be closed in case of danger. The body is protected from the thighs up.

GUNNERS PRACTICE ON BIG WHALES

ASTORIA, May 14.—The gunners on foreign steamers arriving here the other day grew tired of waiting for one of Kaiser Bill's underwater boats, so practiced at whales along the coast. One whale near the Oregon coast was "tickled" three out of five times.

War Hits Shriners' Convention

MINNEAPOLIS, Minn., May 14.—War today halted preparations for a typical Shriners convention here June 25th. Elaborate plans for a water pageant, parades and brilliant receptions which were to mark one of the most gorgeous gatherings in years were stopped upon announcement that all social features would be cancelled and only a routine business meeting held by the Nobles.

Epidemic Costs Astoria \$1,333

ASTORIA, May 14.—Astoria's recent smallpox epidemic cost \$1,333. Today the city is building an isolation hospital, preparing to handle such emergencies with greater ease and less expense the next time.

"Buy a home first," and you'll have a place to stay in your old age. See Chilcote. 9

Famous Old Tree Fast Withering

WASHINGTON, May 14.—Experts of the department of agriculture today began extraordinary efforts to save the historic Egyptian acacia tree, in front of the White House executive offices. It has been an object of interest to thousands of Masons for twenty-five years. Now it is believed to be dying. Blight attacked it.

President Harrison planted the tree from a seedling in 1892, and since then many members of the Masonic order have passed there to behold its peculiar charm.

"About Free Stuff"

We have it in Linkville. Our free air is of the very best quality. The elevation is four feet higher than in Klamath Falls, and we have no real estate offices, consequently the air is cooler. As everyone knows, hot air is very bad for tires.

Your storage battery, regardless of make will be inspected free of charge. We will point on your car free of charge in any conspicuous place a picture of a "Waminux," a very beautiful animal and our trademark. The free camp ground is next door to our garage, and you can take a free bath in the lake at any time. Don't fail to get in on all of this free stuff. You are welcome to it.

PLANNING ORDER OF PLANTING IN GARDENS

By A. G. SOUQUET

Head of Vegetable Gardening, O. A. C. It is very evident that for a gardener to get the greatest amount of vegetable produce from the land he must make his land work to the limit. There must be no idle land during the growing season.

It is a good business proposition to plan the work and work the plan. Then the planting does not go along without some guide as to the place and time of where to put this or that vegetable. It is not difficult to figure out which are the short season crops, such as radish, lettuce, green onions, early peas, spinach, early beets and early carrots, and this figuring will soon show that some provision must be made for putting to use that land which has first grown these early crops.

Thus green onions, early beets, early carrots and kohlrabi, for example, which will have a tendency to be ready for use at the same time, may well be followed by the setting of plants of fall cauliflower, or broccoli, or late cabbage or Scotch kale, the latter one of the best winter greens anybody can plant.

The land now occupied by the early peas will be ready for another crop by the latter part of June or the first of July. A late sowing of string beans for use in September will work nicely, or the land can be given over to a late sowing of beets or carrots which, with water, will make good roots for the fall.

I shall not elaborate on this subject at this time more than emphasizing

the value of the careful and thoughtful distribution of the seed of the various vegetables in their respective places. No one plan will suffice for all. Some gardens are going to contain a great number of different vegetables and some will only have a specialized few.

Onions, parsnips, Lima beans, bush beans for drying, tomatoes, eggplants and peppers will require all of the growing season, and once planted will be undisturbed. Let them, therefore, be placed in a place by themselves.

Celery, late cabbage, late cauliflower, brussels sprouts, Scotch kale and broccoli, being late season crops, will ordinarily be good crops to follow the quickly maturing ones mentioned above. It is not necessary that land on which these vegetables are to be planted in late June or July be idle until that time. Put it to use with a short season crop.

In planting the sweet corn area it is best not to plant the corn in straight rows, but to block it in rectangular form, for it will pollinate much better in that way.

In planning the planting right now do not overlook the importance of setting in the garden good plants of cabbage, lettuce and cauliflower. If the plants are strong, well developed, and well hardened, and are sold at a reasonable sum, they are a very good investment. I find people do not take readily to buying good head lettuce plants, but at 20 cents a dozen they will give you the earliest and cheapest lettuce you can obtain. New York or May King is good.

COPPER TAKES BRITISH FLAG FOR GERMANY'S

PORTLAND, May 14.—"What do you mean by flying the German flag?" demanded the broad-shouldered policeman on the front porch of Mrs. A. D. Goodfellow, 390 Jefferson street.

"Where do you see a German flag?" she asked.

"Right there," answered the cop, and he pointed to a flag hanging from the porch of the Goodfellow home. "We've had several complaints that a German flag was hung from this house, and this is a German flag, all right." He ordered her to take down the flag.

She refused, advising the officer to go somewhere and find out what a German flag looks like. The banner was the British flag, and is still flying from the Goodfellow porch.

Pioneer Paper Moves

ASTORIA, May 14.—After almost a quarter of a century in one location, the Evening Budget has moved from its pioneer location, and today is occupying larger and more modern headquarters.
