Good Roads for Oregon

By E. J. ADAMS State Highway Commissioner

The Herald will run daily "the clearest, most readable and most informative document of the Oregon Good Roads campaign," as the below has been termed, written by E. J. Adams of Eugene, and state highway commissioner. "A simple explanation of the \$6,000,000 bonding act—questions answered—replies to objections—statistics analyzed"—says C. C. Chapman, editor of the Oregon Voter. "The measure discussed in its relation to existing road legislation and the whole road situation as it faces the people of Oregon, at the special election, June 4, 1917.

FIVE TIMES TAX INCREASE (a) Our friends propose, as a substitute, that we increase the direct property tax for road purposes from one-quarter of a mill to one and one-quarter mills. This is unfair for the very reason that many a small home owner gets no use of the roads at all and this would multiply his road tax by five times.

The building of Oregon roads should be placed on the shoulders of those who wear them out and benefit by them. That is just what this provision does.

"BONDS NOT NEEDED." (r) They also tell us that "our present Highway Commission will have about \$1,000,000 annually to use if these bonds do not carry."

This, again, is an erroneous statement. The Highway Commission will have no money at all to use if this bond bill does not prevail, except to cooperate with the Government in the construction of post and forest roads and, as I have stated, the forest roads are built by the Government and the State simply contributes its one-half.

The post roads are built by the State, according to specifications furnished by the Government.

This is practically the limit of road building in the State if the bonds do not prevail. Therefore, a statement such as this is misleading and not correct.

PROVISION FOR MAINTENANCE (a) They then complain that "no provision has been made for maintenance."

In reply to this, I beg to call your attention to Section 11 of the State Highway Code, which already provides for the maintenance of all State roads. Therefore, it does not become necessary to repeat in this bill a law that is already on the books.

FINAL BLAST—TRIUMPH (t) As a final blast of triumph in their effort to befuddle and mislead the voter, appealing to his prejudices and hatred rather than to his reason,

they sum up their defense by saying "The people of this State can better afford to move slowly than embark upon a plan which may lead to wrecked homes and ruined fortunes and may take the bread from hungry mouths."

Great guns and little fishes! What a horrible picture to face! Wrecked homes! Ruined fortunes! Starving children! All this if anything should happen that the automobile license fees should fail to pay these bonds.

What are the facts: If every other source of income should be shut off and we were absolutely forced to pay off these bonds and the interest by a direct property tax, it would amount to forty-two one

Even if Direct Tax it would be only 42 cents on \$1,000 Value

hundredths of a mill per year to pay the principal and interest; or, in other words, 42 cents for each \$1,000 assessed value. Is it possible that such an added burden as this will lead Oregon to wrecked homes and ruined fortunes and starving children?

SPUD AND GRAIN PLANTING IS ORDER OF THE DAY

LOCAL MAN GOES TO MICHIGAN

HAS TWO POSITIONS, ONE WITH AGRICULTURAL COLLEGE AND OTHER IN COUNTY WORK WAITING.

O. I. Gregg, science instructor at the Klamath County High School expects to leave this week for Michigan where he has two positions in view.

One is with the extension department of the Michigan Agricultural college and the other is a county agricultural agency.

He has not yet decided which one he will take. Mr. Gregg came here from Grants Pass, this being his second year here and his sixth in Oregon.

Both positions mean a considerable advancement in remuneration over his present position. Mr. Gregg came to Oregon from Michigan and the county position is in his home county.

BE PRETTY TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attract. ive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

MEAT INJURIOUS TO THE KIDNEYS

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS OR BLADDER BOTHERS

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia water drink.—Adv.

Gravity is Not the Test for Gasoline

"The specific gravity test is worthless, as a test of gasoline quality."

So says the U. S. Bureau of Standards. Boiling points comprise the only real test, because every country, quality, composition, and brand of gasoline has its own boiling points. The gravity-hydrometer tells you nothing about the boiling points of gasoline.

RED CROWN Gasoline of Quality

It is straight - distilled, and thus has its boiling points in a gradually rising, uniform distribution. Boiling points for quick and smooth acceleration, high boiling points for power and mileage.

No mixture can contain an abundance of boiling points—the hundreds of intermediate grades are missing. Be sure and get Red Crown. It's pure gasoline—nothing else.
