Klamath Ball Season

(Continued from page 1)

been handicapped by the weather, but the boys have been working out regularly this week and the Almonds are promised a couple of interesting seasons at least.

"Micky" Shader is anxious to be pitted against Sanders who defeated him in a game last season despite the fact he struck out fourteen men, so Watt is waiting to see how the Almonds are lined up before picking his pitchers for the games. Cook will work the other and Clark will receive.

The Arbuckle Almonds have played eight games this season, the following scores resulting:
 Woodland 2, Almonds 5;
 Woodland 1, Almonds 14;
 Colusa Trolley 3, Almonds 3;
 Oroville Trolley 3, Almonds 3;
 Esparto 1, Almonds 3;
 Colusa Trolley 4, Almonds 6;
 Y. M. I.'s 2, Almonds 3;
 Cottonwood 2, Almonds 28.

"Iron Man" Schroeder pitched for Woodland, La Rock for Colusa, "Bill" James six innings for Oroville and was replaced by Anderson; Holmes for Esparto and Glabe and Dalley for the Y. M. I.'s.

The Almonds secured thirteen hits off James in six and one-third innings and eleven hits off La Rock in six innings.

Sanders, their first string man, is said to be not as effective as last season but is winning consistently. His best strike out record so far this season has been fourteen. A three hit game has been his best performance so far this year.

Dalley may perform for the Almonds. He has pitched one one-hit game and one two-hit game and several other creditable games. He shut out Pittsburg last Sunday with three hits. Of the fourteen men on the squad eight are hitting over .300 for this season, their batting averages being:

Sanders, .555; H. Bailey, .500; D. Trayham, .447; L. Bailey, .375; Moore, .345; J. Gillispy, .345; McDonald, .325; Hall, .315; Woods, .306; West, .305; Strickler, .300; Scott, .183; and R. Gillispy, .172.

The line-up tomorrow are as follows:
 Klamath Falls—Mayer, ss; Bowden, 2b; Downey, 1b; Shandling, 3; Clarke, c; Smith, cf; Clarke, lf; Crawford, rf; Cook and Shader, p.

Almonds—West, ss; Scott, 3b; D. Trayham, 1b; Strickler or Davidson, 2b; Gillispy or Hall, c; Moore, cf; H. Bailey, lf; R. Gillispy, rf; Sanders, Holmes or Dalley, p.

Sunday's New York Tabernacle His Action in Baseball and Pulpit

Enormous crowds flocked to the apolis, and the other illustrating his first meeting in Billy Sunday's New York tabernacle. This scene shows thousands about to enter. The two figures of the evangelist, one in baseball costume, taken recently in Indianapolis, and the other illustrating his postures in the pulpit, show how he puts the same strenuous action into preaching that he had to put into baseball when he played the outfield in Chicago.

The Treatment of Diseases By the X-Ray

SCIENTIFIC RESEARCH SHOWS THAT MANY DISEASES CAN NOW BE CURED BY THESE PECULIAR RAYS

It has been found by actual observation that the X-Ray has a curative influence upon quite a variety of morbid conditions, such as the different kinds of cancers, ulcers, goiters, tubercular glands, tuberculosis of the skin, gout, rheumatism and many forms of skin diseases that have not responded to other methods of treatment.

In the accompanying cut is shown a patient being treated by means of the X-Ray for eczema of the face in the office of Dr. C. E. Wheeler of this city. By means of this machine many cases of so-called incurable diseases are restored to health again.

By means of the X-Ray a picture can be taken of any part of the body showing the outline of the various organs and diseased conditions that may exist unnoticed by any other examination.

In many cases, tubercular lesions in the lung can be seen by the X-Ray before the disease is discovered by other tests allowing the patient to be placed under treatment sooner thereby making the recovery more possible.

But to the rapid advancement of science doctors have at their command many new methods for diagnosis and treatment. When a patient is going to have an operation, say for instance for gall stones, an X-Ray picture is taken to ascertain whether or not the gall stones are present thereby making a diagnosis of the case certain.

When in doubt as to your illness or if you have some chronic disease, such as, tubercular glands, eczema, cancer, skin disease of any kind or a deformity, fracture, dislocation of a bone consult an X-Ray specialist and have the correct diagnosis made and the right kind of treatment outlined for you.
