SPRAY FOR BEAN APHIS

(By A. L. Lovett, Entomology Department of O. A. C.)

The black bean aphis was present in practically all bean fields last year and did no little injury; and in fact, in a great many cases, ruined the bean crop. Indications, at the present time, are that the pest will be present in no great numbers and that there will be just as serious injury this season. Poison sprays are of no value against these sucking insects. Use one of the contact sprays such as kerosene emulsion or a tobacco solution. For large areas, there is probably nothing better than the kerosene emulsion spray. For small home gardens, it is probably

advisable to use the nicotine sulphate. The following formula is recommended: Water 10 gallons, fish oil soap one and one-half pounds, Black-leaf 40 three table-spoonfuls. Shave up the fish oil soap and dissolve in a small amount of boiling water, make the solution up to ten gallons and add the Black-leaf 40. To be effective, this spray must actually wet the insects and it is necessary therefore to have an angle nozzle so that the spray may be thrown from below upward and reach the under surface of the leaves. Frequent examination while the beans are young, killing any small colonies discovered will do much to prevent later serious injury by this pest. Gardeners should write to O. A. C. for Bulletin 91 on Insect Pests.

Germany's Diary Details Destruction Work

By HENRY WOOD

(United Press Staff Correspondent.) WITH THE FRENCH ARMIES, May 15—(By Mail)—The destruction of trees, farms, villages and all personal property as well as railways, roads, bridges and institutions belonging to the state now comprises nearly half the "duty" of a German soldier fighting in France as compared with the usually recognized military duties of a soldier.

Some idea of the proportion of this duty as compared with the regular military duty of a soldier can be formed from the following diary of a German soldier just taken prisoner in France.

Feb. 19—Arrived at Loan at 7 in the morning; marched till 5:30 to the farm

of N. Feb. 20-21—Reposed at the farm. Feb. 21—Exercised and pay day. Feb. 23—Loaded iron on the narrow gauge railway. Feb. 24—Destroyed houses and chopped down trees. Feb. 25—Sunday; morning repose; afternoon loaded materials in iron. Feb. 26—Marched from Montecouve to Sorny. Feb. 27—Chopped down trees. Feb. 28—Destruction of forests. Mar. 1—Destruction of forests in heavy rain. Mar. 2—We began the new position. Mar. 3 to 9—Intrenching near Vaurailion. March 13—Morning, repose; afternoon, demolishing houses. The entries of Feb. 23 and 25 relative to the loading of iron on the narrow gauge railway are presumed to have reference to the carrying away of all railway rails and iron of every description.

at a cost of three cents for a loaf weighing one and one-half pounds. It will be served guests on request. This particular kind of war bread can be made best where there is considerable waste from standard loaves. The crusts and cuttings which were formerly wasted are soaked in water, boiled, pulverized through a sieve and mixed in a dough with flour, salt and yeast, then baked like ordinary bread. As applied to the family kitchen, the formula would work with a pound of bread crusts, four pounds of flour, water, salt and half a yeast cake for six loaves weighing a pound each.

HERE'S HOW TO MAKE WAR BREAD

NEW YORK, May 30—War Bread is being made at the Park Avenue and Martha Washington hotels here today

Assets Behind Liberty Loan

Continued from Page 1

total. He discovered that there were on deposit in banks and trust companies, of his realm, approximately 25 billions of dollars, and that there was borrowed from banks and trust companies, for commercial purposes, about eighteen billions of dollars.

In addition to keeping a good set of books on his own business, Uncle also kept books on the affairs of his neighbors. He made some interesting comparisons and discovered that the material wealth of the United States was greater than that of any two nations on earth. He found that it was as great as the total combined wealth of Great Britain, France, Russia and Italy. It was more than double that of England; four times that of France and eight times that of Italy. His notes indicated that at the beginning of the war the total material wealth of Germany was eighty-five billions of dollars, and that of Great Britain eighty billions. Verily this giant of the West, contemplating these figures, for the first time, really became conscious of his greatness.

Then Uncle Sam began to investigate the debt accounts of his neighbors. He found that since the beginning of the war, August 1, 1914, Great Britain had borrowed in excess of nineteen billions of dollars, which, added to the national debt previously existing, made a total indebtedness in excess of twenty-five billion dollars, and which, by the end of 1917 would approach thirty billion dollars.

He discovered that since 1914, France had borrowed approximately eleven billion dollars, that Germany had borrowed fourteen billions, which added to its previous debt of one billion two hundred million dollars, made a new total, including accrued interest, of approximately sixteen billion dollars.

He noted that since 1914 Russia had borrowed about eight billion dollars; that Austria had borrowed in excess of six billions; Italy two and one-half billions and Hungary almost two billion dollars.

He computed that by the end of 1917 Great Britain would have practically one-third of her national wealth mortgaged; that France would have easily one-fourth; and that Germany, the chief of the central powers, would soon have approximately one-fourth of its assets mortgaged.

He noted that Germany alone pays an annual interest charge of approximately \$82,000,000.

Then Uncle Sam realized that to date he had borrowed less than one two-hundredth of his assets; that to go into debt to the extent his European neighbors have borrowed would require borrowing to the extent of nearly fifty billions. This volume of money would enable him to conduct five years of warfare with an annual expenditure equal to that which Great Britain is now making.

So, in spite of the fact that the Lib-

erty Loan multiplies the national debt by seven; in spite of the fact that it is the largest loan ever offered in the world's history, a comparison of the proposed debt, with our resources, compels the conclusion that such a volume of borrowing, under present conditions, will hardly impair, to the slightest degree, the nation's credit and the successful consummation of this loan will not require anything like the financial strain that most European nations have already successfully undergone.

Sons of Famous Men Are "Doing Their Bit"

Louis Swift, son of the millionaire packer of Chicago, is hard at work at Fort Sheridan training for service in Europe.

Sale of Personal Property.
On Saturday the 2d day of June, 1917, at 10 o'clock in the forenoon, I will sell to the highest bidder for cash in hand, the following personal property belonging to the Estate of H. W. Butler, deceased:
Store building occupied by 3 S Milling Co.; Stock of seeds; poultry supplies and feed scales; counters; hand truck; and other articles.
MRS. FRANCES BUTLER, Executrix of H. W. Butler Estate. 29-41

LEGAL NOTICES
Notice of Final Settlement
In the Matter of the Estate of Etta Wood, Deceased.
Notice is hereby given that the undersigned, administrator of the estate of Etta Wood, deceased, has filed in the county court of the state of Oregon, for Klamath county, the final account of his administration of said estate, and that the said court has fixed Friday, the 1st day of June, 1917, at the hour of 10 o'clock a. m. as the time, and the court room of said court as the place for the hearing of objections, if any, to said final account, and for the settlement thereof.
Dated May 2, 1917.
WILLIAM WOOD, Administrator of the Estate of Etta Wood, Deceased. 29-16-23-30

(No. 882)
Suit in Equity—Divorce
In the Circuit Court of the State of Oregon, for the County of Klamath.
V. C. Dixon, Plaintiff,
vs.
Nola Dixon, Defendant.
To Nola Dixon, the above named Defendant:
In the name of the state of Oregon: You are hereby summoned and required to appear and answer the complaint filed against you in the above entitled court and cause within six weeks after the first publication of this summons in the Evening Herald newspaper of Klamath Falls, Oregon. And if you fail to appear and answer or otherwise plead within said time, the plaintiff, for want thereof, will apply to the court for the relief prayed for in her complaint, that is to say:
For a decree of the honorable court dissolving and declaring the bonds of matrimony, alleged to be existing between the plaintiff and defendant, void and to be hereafter held for naught, and for such other and further relief as may be in accord with law and justice.
This summons is published pursuant to an order of the above entitled court made and entered on the 9th day of May, A. D. 1917, directing the first publication of summons to be made on the 9th day of May, and last publication to be had on the 20th day of June, 1917, that being the time within which the defendant is required to appear or plead.
F. H. MILLS, Attorney for Plaintiff. 9-16-23-30-6-13-20

Ruler of New York Leong Tong Buying a Liberty Bond

Lou Fook secretary to the Leong Tong in New York City, the strongest of the secret Chinese societies there, has introduced the Liberty loan bond to Chinatown by making the first application there for one. Lou Fook, carefully plotted through a sea of dotted lines by two attorneys and a representative of the Liberty loan committee, affixed his signature to an application for a \$50 Liberty loan bond, and the same will be made out to him in due time. "I born here—I Merican," he explained at the conclusion of the ceremony in 19 Mott street. "Chinese republic—Merican republic—all same republic." This utterance, as interpreted by Samuel Furstenburg and N. M. Delagi, attorneys for the On Leong Tong, signified that he (Lou Fook) considered that whether he looked upon himself as a Chinaman or an American he must in either case hold himself bound to help out in the cause of democracy to the extent of \$50 at least.

SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts in Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull ache in the kidney region, you suffer from headache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot harm, makes a delightful effervescent fluid-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists tell you they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
