WITHDRAWAL WOULD PRECIPITATE SPANISH TROUBLE

There is evidence that von Hindenburg is planning another great withdrawal—Haig is pressing—The Spanish consors fail to suppress reports—Food condition and industrial unrest aids revolutionaries.

By Associated Press  
The British troops are striking along the entire line in Northern France. There is considerable evidence that von Hindenburg is planning for another great withdrawal. General Haig is pressing him at all points.  
If a second "retreat to victory" materializes, the upheaval resulting from the war which has already hurled two monarchs from their thrones threatens the ancient throne of Spain.  
The Spanish consors have failed to suppress the reports of the grave happenings.  
The Spanish army is reported to be heading a revolutionary movement which is accelerated by the food supply and industrial unrest.

## COMPANY I PLAYS HERE TOMORROW

WATT AFTER PORTLAND OR SACRAMENTO TEAM FOR JULY 4. DOWNEY AND SMITH TO TRY CATCHING

Company I will be here for the baseball game with the Klamath Falls team tomorrow afternoon promptly at 2:30 o'clock at Modoc Park.  
Company I has a reputation as a ball club, and the players are from the Woodburn section of the state, as well as around Portland.  
Last Sunday this team shut out Weed by a score of 3 to 0, and Weed is said to have a strong club this year.  
Manager Watt expects to close up within a few days now with either the Northwest Steel company's team of the Portland Inter-city League, or with Duke's Sacramento team. Both Manager Sharp of Portland and Duke are anxious to some, there yet being some question as to whether the Portland team can get off. Duke promises to bring such players as Rooney, O'Neil, Magee, Machold, Nixon, J. Johnson, Tucker Johnson, and others, and promises the best aggregation ever seen here.  
Manager Watt believes that Klamath Falls fans should give the team better support at the games Sundays, as he feels that the class of ball teams that have been brought here is out of the ordinary. It costs money to bring them long distances, and it is necessary to go far to get good ones. He hopes for a record crowd tomorrow.  
Downey and Smith will be given tryouts tomorrow as catchers, as Watt is unable to get Sam Jolly of Stockton, whom he had picked, at this time. Both are anxious to try it, and if one qualifies a first baseman or fielder will be secured to fill the other place. Jolly is well known here as a catcher.

## KATE O'HARE TO SPEAK MONDAY

PROMINENT SOCIALIST EDITOR WILL GIVE ADDRESS AT OPERA HOUSE MONDAY NIGHT

Mrs. Kate Richards O'Hare is said to be one of the most eminent socialists in America, and a profound student of working class economics. Her early childhood was spent on a Kansas farm. Leaving the farm, her father moved to Kansas city, where he became engaged in a small manufacturing business. Here she learned the machinists trade, serving the necessary four years required to admit her to the International Association of Machinists, the first woman to have that distinction. She early became interested in social problems involving the working class in New York city.  
Some years ago her desire to get first hand information regarding working conditions in various industries where women were employed, led her to seek employment as a candy maker, garment worker, watch case worker, cigar worker, artificial flower worker, factory worker and waitress.  
Mrs. O'Hare has been a member of the Mayor's Unemployment committee in St. Louis for some years.  
She has served as a member of the national executive committee of the socialist party. In 1913 she represented the American movement at the International Socialist Council in London. Her life has been apportioned to her domestic concerns, her children, her visits and her platform work.

## National Red Cross Drive Begins Monday for \$100,000,000—Why?

Oregon, outside Portland, must subscribe \$400,000 of the \$100,000,000 emergency Red Cross war service fund during the week of June 18-24, and Klamath county must subscribe \$11,000, in order to meet the expectations of President Wilson, who has appealed to the nation for this fund.  
Prompting the president's appeal are the thousands of Red Cross ambulances on the firing line that must be maintained. Other thousands of ambulances must be built and sent to the front. Forty-five base hospitals already have been established and the their work must be supplemented with that of many more hospitals, in order to treat the wounds and save the lives of thousands of soldiers, including our own home boys.  
The force of Red Cross physicians and nurses must be greatly increased and kept on duty.  
British, French and Belgian soldiers can be sent home when, under hospital care, they have commenced to recover from wounds or sickness, but for Uncle Sam's soldier boys convalescent hospitals must be built by the Red Cross.  
Mothers and wives who have given up sons and husbands, and who have no other support, must be cared for by the Red Cross Organization.  
Vocational schools for soldiers incapacitated by wounds' for ordinary work must be organized and financed.  
From the front line trenches to the mothers left at home the Red Cross service of mercy must maintain a vast organization, and spend tremendous sums in order to meet an almost overwhelming emergency.
