CONGER AVENUE UP IN COUNCIL

CITY OFFICIALS' SALARIES FIXED. ROCKING OF FIRST STREET. BUENA VISTA ADDITION, ESTIMATE CALLED FOR

A petition presented to the council by Joel T. Ward for the re-subdivision of lots was granted.

An ordinance passed the first two readings recommending and approving a survey re-subdividing lots 1, 2 and 3, block 65; lots 6, 7 and 8, block 67; and lots 1, 2, 6 and 9, in the Nichols Addition.

An ordinance passed the first two readings providing for the licensing and the charging of a fee of "for hire" automobiles. Committees from the council and jitney drivers are to arrange the charges.

An ordinance passed the first two readings providing for the paying of \$250 to the Klamath Falls Military band for a period of five months.

The ordinance providing for meetings of the council on the first and third Mondays of the month passed and was adopted by the council.

Damage to the streets in Mills addition caused by property owners irrigating was up for discussion, and it was the sentiment of the council that the owners should be arrested where found to be doing so.

The sum of \$100 was awarded the July 2-4 celebration committee from the incidental fund by the council, after an adverse report by the finance committee.

A resolution was introduced by Councilman Lee and passed by council that it is the intention of the city to improve Conger avenue by paving or hard surfacing, and calling for plans and specifications, and an estimate of the cost of the work.

An estimate was called on the cost of rocking First street of Buena Vista Addition from the Shippington road to the intersection of the county road.

Alms accident and health policies are the standard of the world. See Chilcote. 14

A resolution was introduced in the council and passed regarding the salaries of city officials as follows:
City engineer, \$10 per diem.
City health officer, \$25 per month.
City attorney, \$1,000 per year.
Chief of police, \$100 per month.
Patrolman, \$100 per month.
Teamster, \$100 per month.
Fire chief, \$75 per month.
Chauffeur, janitor, \$75 per month.

Moving Pictures

"The Bad Boy," a comedy drama of young America, will be shown at the Star theater tonight. This is the first play to present Robert Harron on the Triangle program as an individual star. In "The Bad Boy," which was produced at the Triangle Fine Arts studio under the direction of Chester Withey, Harron has the part of a small town youth who belongs to a "gang" which makes life miserable for the town constable and most of the inhabitants. His evil associations finally get him into serious trouble when a number of "yeggs" induce him to join in preparations for the burglarizing of his father's bank. At the last moment he refuses to aid them and is then forced to become an unwilling participant. This leads to an ordeal which is a severe lesson to the boy, and ends in his reform.

LONG TIME AMERICAN RESIDENT OF JAPAN DIES

YOKOHAMA, June 21.—Augustus Jesse Bowie, a long time American resident of Japan, who was born in Baltimore, Md., 71 years ago, died here recently.

Mr. Bowie moved to the Pacific coast with his father in the early days of the gold rush. His family, among the pioneer residents of San Francisco, is well known in that city. A hydraulic engineer by profession, Mr. Bowie came to Japan fourteen years ago. He was an expert on hydraulic mining, and was the author of a book on the subject.

HOUSTON EXPLAINS TWO FOOD BILLS

(Continued from page 1)

control, manufacture and distribute food products.

Authoritative information as to the supply of food available in the United States always is of the highest importance. It is imperative in the existing emergency, when soaring prices create unusual motives for manipulation, speculation and hoarding. Intelligent increase of production and equitable distribution depend upon thoro and reliable knowledge of the food supply.

This survey can be quickly made. It will probably be followed by monthly reports. If the war lasts, a further survey may be made after an interval of five or six months. All this work, it is contemplated, can be done for \$500,000 or \$600,000.

May Store Seeds

The bill also authorizes the secretary of agriculture, in case of special need in restricted areas, to purchase, grow, or otherwise procure seeds for the production of food or feed crops; to store them and to furnish them to farmers on credit or other terms at cost.

Power also is given to requisition such seeds and to fix a reasonable price to be paid for them by the government, such price to be subject to review by the courts. These new powers are required by the department of agriculture to meet special emergency needs that may arise on account of adverse conditions, such as storms, plant diseases or insect injury, in order that production may be maintained at a high level. It is also necessary to protect the seed reserve from use or depletion for industrial or consumptive purposes.

Enlarges Co-Operative Forces

Provision is made for the enlargement of the co-operative agricultural extension forces. It is proposed to place at least one county agent in every rural county of the nation, and also further to develop the extension work for women. At present only about 1,300 counties out of 2,850 rural counties are provided with county agents. The remaining provisions of the bill have in view the following objects:

Objects in View

1.—To stimulate the production of

live stock; to promote the conservation and utilization of meat, poultry, dairy, and other animal products, and to make a larger attack upon animal diseases and pests, such as hog cholera, contagious abortion and the cattle tick, which exact an annual toll of over \$200,000,000.

2.—To extend the activities of the department dealing with destructive plant diseases and insect pests.

3.—To conserve perishable crops by stimulating better handling and storage, drying, canning and the like.

4.—To extend and develop the market news service for fruits and vegetables, as well as of other important activities of the office of markets and rural organization. It is proposed to enlarge the number of products upon which market reports now are furnished so as to include all the more important fruits and vegetables and such staples as dried peas and beans.

5.—To provide facilities for dealing effectively with the farm labor problem, in co-operation with the department of labor.

6.—To extend and develop the work of the bureau of crop estimates, the bureau of chemistry, the activities of the department in connection with the destruction and control of predatory and other animals which destroy livestock and crops, and the publication and informational work of the department.

To Clear Channels

The second bill, known as the "food control bill," aims to facilitate and clear the channels of distribution, prevent hoarding, assure fair prices, restrain injurious speculation, prohibit evil practices on exchanges, protect the public against corners and extortion, and reduce waste.

It deals with the necessities of life, including foods, feeds, shoes, clothing, fuel and articles required for their production. It is strictly a war-emergency measure. It confers, for the duration of the war, wide powers upon the pres-

BE PRETTY! TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Watch Repairing Well Done

That's what you get at Upp's. No apprentice putters over your time piece. A skilled watchmaker of long experience takes care of it. It's the work of a mastercraftsman, done with painstaking care. Materials and parts used are supplies secured from the factory which made your watch. Charges are as low as the best work can be done for.

If your clock is out of order, phone or write, and we will send for it.

Frank M. Upp

ident in the directions indicated, to be exercised only after he has found that a state of affairs warranting action exists. It is specifically stated that the legislation arises from a war emergency and is essential to the successful carrying on of the war. All the powers included in the bill doubtless will be exercised thru an emergency agency, which the president is authorized by the bill to create.

May License Businesses

Authority is given to license and regulate any business of manufacture, storage and distribution of foods, food materials, feed or feeds; he is authorized, in order to prevent spoilage, to direct the disposition of food, and to direct the market of perishable products; to procure necessities by purchase or otherwise, to store them and to dispose of them at cost; and to fix a guaranteed price, if essential, to stimulate production.

With the increase of production attained thru the operation of the first of these bills, and the regulation of manufacture, distribution, conservation and utilization attained under the second measure, our people will be spared many of the hardships of war, particularly, in its influence upon the cost of living and the successful prosecution of the war will be greatly advanced.

IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS SIGN YOU HAVE BEEN EATING TOO MUCH MEAT

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, also you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take before breakfast in a glass of water for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia-water drink.

The co-insurance clause is all right in some cases and all wrong in others. Be sure you understand this clause before having it attached to any of your policies. Ask Chilcote. 14
