Kathleen Goodell, aid county poor, June, 1917	15.00

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Gave we don't help but look better and feel better after an intake bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisons which before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ash, so food and drink taken each day leaves in the alimentary organs a certain amount of indigestible material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and brighter, you are told to drink every morning upon arising a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowels pores do—adv.

COCCHI'S TRIAL MAY BE DELAYED

STATE DEPARTMENT REQUESTS ITALY TO HOLD UP TRIAL UNTIL EXTRADITION MATTERS ARE SETTLED

WASHINGTON, D. C., June 27.—The state department at the request of Governor Whitman of New York, has asked the Italian government to delay the trial of Alfredo Cocchi.

The request is made to allow the two governments to straighten out the question of Cocchi's extradition for trial in America on a charge of murdering Ruth Cruger, a New York high school girl.

U. S. Gun on American Ship Ready for Submarines; Hole German Sailors Punched in Vessel's Cylinder

The German ship Ockenfels will sail from Boston with American guns mounted fore and aft to destroy German submarines which may attack her in her voyage to Europe with provisions for the allies. She was one of the vessels seized at the declaration

of war, and one of those whom the German sailors in charge tried to damage. The lower illustration shows the hole they punched in one of her cylinders. After drilling the holes they knocked in the walls with hammers.

Good Roads Are Now Being Built in France

HUNDREDS OF MILES BUILT BACK OF BRITISH LINES WITH MATERIALS FROM RUINS—THE ROADS ARE BETTERED

BEHIND THE BRITISH LINES IN FRANCE, June 10.—(Correspondence)—Hundreds of miles of the smooth white macadam roads of Northern France will remain for many years after the war as a real memorial to the devastated towns which the Germans left in ruins after their retreat this spring.

All over Northern France the roads are being widened and resurfaced

with stone and rubble taken from the wrecked houses of Peronne, Albert, Arras and countless other ruined towns and villages. As fast as the British soldiers clear away the debris of the towns, it is piled into lorries and distributed in heaps along the main roads. There German prisoners toll the day long, pounding it into level patches, which the great steam rollers, many of them bearing familiar American names, grind quickly into smooth macadam for the business of transport.

The brick and stone of these old buildings makes as good road material as could be obtained anywhere, and the work of the German dynamiter has been so thorough that much of it is crushed fine enough to need no further preparation.

GERMAN SHIPPING NEWS SERVICE IS PLANNED

COPENHAGEN, June 27.—A German shipping news service on the

lines of the British "Lloyds" was planned at a recent meeting at Hamburg, Germany, of 400 representatives of shipping and commerce.

Wireless telegraphy will be used, new signalling stations are to be established and 800 agents will be appointed to gather shipping news.

Lightweight Champion Buying Liberty Bonds

Benny Leonard, who became lightweight champion of the other day by knocking out Freddie Welch, the young man who held the title by stalling and holding, has just bought \$50,000 worth of Liberty bonds.

"I am not only trying to do my bit, I am trying to do my double bit," said Benny. "I am going through with my announcement that I am going to enlist in the army. I hope that will persuade other young fellows to do the same, because I believe I can truly say that I will be giving up more than most chaps of my age. As champion I could make all kinds of money on the stage, in the movies, and in the ring. But I am going to work for Uncle Sam first. And I want some of my money to work for him, too."

\$5,000 EXPECTED TO ATTEND ALBANY BOUQUET

ALBANY, June 27.—Albany is ready to take care of 20,000 visitors to the Western Oregon Bouquet-Trip to be held here July 1, 2 and 3. Practically all plans have been completed for the exhibition of rough riding, rope throwing, bull-dogging and other events during the three days.

Don't overlook the big shoe sale at the Modern Shoe Store. 27-28

Jiffy-Jell
The Supreme Dessert

Summer Flavors

Mint flavor—made from mint leaves—is the latest Jiffy-Jell flavor. It gives you an instant garnish for cold lamb, mutton and other meats.

Lime flavor—made from lime-fruit juice—is tart and useful and green. Like all Jiffy-Jell flavors, it comes in a sealed vial.

It gives you a jell for salads and for relishes. Mix your salads into it and make them a part of the jell.

Pineapple flavor—made from pineapple juice—is new in quick desserts. This flavor must be sealed to keep. And it must not be scalded.

In Jiffy-Jell it comes in a vial, and you add it when the jell has partly cooled.

Jiffy Mint Sauce
For Lamb and Other Meats
Dissolve one package of Mint Jiffy-Jell in one cup of boiling water. Add the Mint flavor from the vial, then a cup of strained liquid from the pan in which roast is cooked. Serve hot.

And Jiffy-Jell fruit flavor makes a delightful cold dish—for a dessert, for a supper dish or a children's party. Keep several flavors on hand. Every day this summer you will find a use for Jiffy-Jell.
