

FIRE SWEEPS THRU

JAPAN; NO RAIN

HAOKODATE, Japan, June 28.—A disastrous forest fire which swept Northern Hokkaido recently, cost the lives of at least twenty-three persons and utterly wiped out several hamlets. So rapid was the onrush of the flames that many inhabitants were either burned to death or forced to jump into the streams, where some were drowned or suffocated. Lack of rain is causing numerous fires throughout the empire.

Do You Know How an Automobile Is Made?

It is not possible for everyone to visit one of the big automobile factories and see all the details used in conducting this great modern industry.

Yet the people of Klamath Falls will be given an opportunity tonight at the Temple Theater to see the big Chevrolet factory at Oakland in full operation. This is the only automobile factory on the Pacific Coast, and seeing these motion pictures is as good as a visit to the plant itself. Don't fail to be at the Temple theater tonight.
