# Ship Board Disagree Over Wooden Ship Policy

WASHINGTON, D. C., July 21.—Members of the shipping board and Major General Goethals, manager of the board's fleet corporation, who are at odds over the government's ship-building program, at a lengthy conference went over the general's proposals for constructing government ship yards and for speeding up tonnage now building.

The shipping board, Chairman Denman said, wants more information before it approves the general manager's program, but General Goethals said he thought he had submitted most of the information asked for.

Neither side would say what are the points of difference over the program. Chairman Denman intimated that all was not entirely satisfactory.

"There are no professional differences," he said, "only one of policy. I know of no difficulties that could not be adjusted between two rational persons, each willing to concede to the other a difference of opinion."

The only question, it is said, on which the board and General Goethals are now far apart is that of wooden construction. Although General Goethals has let contracts for many more wooden ships than he has of steel, the shipping board, it is said, will insist that the type he intends to build is too slow of construction.

Reports that General Goethals will resign unless given the fullest authority to carry out the program he has announced, were discredited.

The general, when asked about rumors of his resignation, merely said, "I am a soldier, and a man in my position appointed to a place is virtually in orders."

The shipping board, it was made clear, that despite differences, there is no intention to ask General Goethals to quit.

I. W. W. BUSY AT KESLO  
KESLO, Wash., July 20.—The plant of the Eufaula Lumber company, which employs between 275 and 300 mill hands and loggers was partially idle Wednesday as the result of a strike said to be of I. W. W. origin.

Tuesday night two men, said to have been I. W. W. agitators, addressed the men, urging them to strike and to demand "ten hours" pay for eight hours' work.

One hundred and fifty of the men decided to try it, and refused to go to work Wednesday morning. Alexander McCracken, mill superintendent, does not expect to have any trouble in replacing the strikers.

The mill ships its logs to Eastern and Western Lumber company of Portland.

Will trade a good lot in Railroad Addition with spur track for good residence lot. See Chilcote. 9

### Moving Pictures

Take Virginia Pearson's word for it, the way to act great emotional roles is to bury yourself in roses. Pile them high in your home, fill your dressing room with them, scatter them about your automobile, smother them in your handkerchief—anywhere, everywhere, roses! Then you will get inspiration and power for enacting the most difficult roles! That is Virginia Pearson's advice. The statuesque Southern beauty soon to appear in a new William Fox photoplay, "Bitter Truth," gets excitation for her work in roses—armfuls of great beautiful blossoms, filled with an exotic perfume which causes momentary intoxication. When she leaves her studio budoir and walks out before the glare of the mercury-vapor lamps, she brings with her the spirit of the roses which fill her dressing room. At the Star tonight.

Franklyn Farnum and Brownie Vernon will pictorially relate a romance of the jitney bus when "The Car of Chance" is shown at the Orpheus theater. This will be a light comedy, affording Mr. Farnum the very opportunity in which he is seen to the best advantage. Miss Vernon will be provided with a role that exactly suits her winsome personality. There is a lot of good fun in store for those who take a trip in "The Car of Chance."

### TURN HAIR DARK WITH SAGE TEA

IF MIXED WITH SULPHUR IT DARKENS SO NATURALLY NOBODY CAN TELL

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmothers recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mummy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Mrs. James W. Wadsworth Jr., wife of the United States senator from New York, has just accepted the presidency of the National Association Opposed to Women's Suffrage. In accepting Mrs. Wadsworth writes: "Altho most reluctant to shoulder any additional burden outside the care of my family, the war relief work and the charities in which I am already engaged, I feel that it is my duty, in the interest of patriotism and national defense, to accept this office and to do my utmost to justify your confidence."
