SUB BOAT TOLL GROWS HEAVIER

ALTHO LAST WEEK'S REPORT IS STARTLING THE BRITISH ARE STILL CONFIDENT—FEWER FISHING VESSELS SUNK

LONDON, July 28.—The announcement of the British admiralty on the week's work of German submarines shows an increase of seven vessels of more than 1,600 tons sent to the bot-

tom as compared with the report of the previous week, when fourteen were sunk.

In the smaller category the losses are the same as those given in the report of the previous week—three, while there was a falling off by seven in the number of fishing vessels sunk.

The U boats for the previous fortnight had been kept down to a minimum, but for the current week the upward tendency in the curve was not unexpected, in view of the vigorous offensive efforts which the Germans are now putting forward on all fronts, and which no doubt are reflected in the orders to the submarine commanders to support the land offensive by strenuous efforts on "the submarine front."

On the whole the navy may be said to be fairly well satisfied with the progress being made against the under-water enemy, and the feeling is that time is all on the side of the allies, as every week sees anti-submarine methods developing and the co-ordination of the various parts of the anti-submarine campaign improving. The admiralty's statement follows:

Arrivals, 2791; sailings 2791.

British merchantmen sunk by mine or submarine over 1600 tons, including two previously, 21; under 1600 tons, 3.

British merchantmen unsuccessfully attacked, including three previously, 15.

British fishing vessels sunk, 1.

SWELGIN FOUND TO BE VAGRANT

DANGEROUS AGITATOR CHASED OUT OF BEND IS CONVICTED IN JUSTICE COURT—DISPLAYS GREAT CLEVERNESS

Carl Swelgin, believed by local authorities to be one of the most dangerous of the I. W. W. agitators at large, was yesterday afternoon convicted of vagrancy in the justice court of E. W. Gowan. Swelgin was the man who was recently deported from Bend and was captured in a box car at Dorris on his way to Klamath Falls. He is also reported to have been tried as a German spy in Portland, but was released for lack of evidence.

During his cross examination by District Attorney Duncan and W. E. Wiley, Swelgin displayed great cleverness in his admissions regarding the propaganda and motives of the Industrial Workers. He claimed that sabotage and other menacing propaganda were not officially encouraged by the organization, but at the same time admitted that these measures might be resorted to by individuals, and that the tactics, songs and other anarchistic literature was distributed among members as a means of education.

Swelgin demanded the return of a certain infamous piece of verse taken from him by the officers, asserting that it was his personal property, and that they had no right to it.

On his conviction he was ordered placed in a separate cell as a dangerous character.

Several other convictions have been secured on the charge of vagrancy since yesterday.

NEW TRAIL TO LAKE FROM RIM WILL BE BUILT

DIRECTOR OF NATIONAL PARKS VISITS KLAMATH

Says Scenic Beauties are County's Greatest Asset—Looks for Tremendous Travel Thru Here From Now on—Season Has Opened Unusually Heavy This Year—Forest Roads to Be Improved.

A new trail down to the waters edge from the hotel on the rim of Crater Lake to be completed this year at a cost of between \$6,000 and \$7,000 is the announcement made today by Acting Director of National Park Service Horace Marden Albright, who left on the train this morning following a visit to the lake yesterday. The new trail is to be broad and easy, so that a person of 50 years can make it easily.

Mr. Albright came in by way of Medford with H. W. Wenzel, traveling passenger agent of the Southern Pacific. This is Mr. Albright's first trip to this section, and he was wonderfully enthused by the scenic attractions, not only of the Crater Lake Park, but of the drives coming in and out. The drive down by the beautiful Upper Klamath Lake, he says, is one never to be forgotten, and he believes that our scenic attractions, in spite of our other big resources, will yet prove our biggest asset.

Every year the tourist traffic all over the country is increasing, he says, and Crater Lake will come in for its full share. The travel there thus far this year surpasses anything ever known before. More than 700 have registered at the Inn this season, with the hotel opened less than two weeks. It must also be remembered that a large number of visitors are campers, who do not go to the hotel.

Mr. Albright estimates that 100,000 cars will come west every year with the completion of the roads across the Middle West now being built, and points out the tremendous revenue to this district if one fourth of them visit here. Two hundred thousand cars visited Denver last year.

Better roads are predicted for this section with the money available from the Shackelford bill thru the national forests. It is probable that the new road around the rim of the lake will be completed next year.

Mr. Albright has assumed the duties of R. B. Marshall, who passed thru here last August.

Canadian Government Encourages Boxing to Make Good Soldiers

This scene shows the regular morning drill outside the armories of the 355th, the Queens Own Battalion of Canada.
