Food Preparedness Campaign

OFFICIAL

Oregon Agricultural College Extension Service and United States Department of Agriculture Co-Operating

In selecting beans, carrots and turnips for drying, avoid varieties having a large woody core, says today's bulletin from the National Emergency Food Garden Commission, which is co-operating with this paper in its nation-wide food-preparedness campaign. Use only the roots which have grown quickly and are young and tender.

Turnips tops and beet tops in suit, and peeled, sliced into one-eighth pieces and dried, or they may be cooked until three-quarters done, cold dipped for an instant, peeled, and then sliced and dried. Peeling is facilitated by dipping the beets into hot water until the skin loosens.

Carrots may be washed, peeled and sliced lengthwise into one-eighth inch slices and dried, or they may be blanched for six minutes after washing and peeling, and then cold dipped for an instant, the rest of the process being the same as the first method.

Turnip tops and beet tops in suit-

able condition for greens are just right for drying. The whole leaf and stock should be cut into narrow cross-sections and spread in thin layers on the screens.

There are three forms in which string beans may be dried. For this purpose only beans in the right condition for table use should be selected.

(1)—Prepare beans as for cooking, run them thru the slicer if desired, and dry.

(2)—Prepare beans as for cooking, but do not cut them into pieces. String them on strong thread and dry. If desired, the beans may be cooked till nearly done before stringing.

(3)—Prepare as for cooking, cut into three-quarter inch pieces and blanch for six to ten minutes, depending upon the maturity of the vegetable. Cold dip for an instant after blanching, and then spread on trays to dry.

Men May be Examined Outside Home Counties

PORTLAND, July 28.—A question frequently asked in connection with the draft is whether a man absent from his home county, either out of the state or in another county of the state, can arrange to save the expense of returning to his home county for physical examination, etc., if he is called, by appearing before the exemption board of the county in which he happens to be.

He can, but only under the following conditions: Immediately after receiving notification from his home exemption board to appear for physical exami-

nation, the absentee should write the board, fully explaining the circumstances and asking permission to present himself before the board in the county where he is situated.

The war department draft regulations authorize his home board, if it is satisfied with his statement, to give such permission. He should not appear before the other board, however, until he has first been notified by his home board, and has obtained the necessary permission.

The board before which he appears will have full jurisdiction over his case.

LARGE TRACT NEAR CULVER WILL BE IRRIGATED SOON

BEND, July 28.—The last step necessary to make possible the development of the Suttles lake irrigation project, 15,000 acres in extent, and lying ten miles west of the town of Culver, was taken Tuesday, when the settlers of the irrigation district voted \$150,000 bonds to take care of interest for the first three years, and increased construction expenses. The main bond issue of \$600,000 to finance the work was voted in October, 1915. The project was approved last month by State Engineer Lewis.

George S. Young, resident engi-

eer, said that C. M. Wickham, a Portland contractor, had agreed to start work in less than two months, the contract price being \$50 per acre, or \$750,000.

A practically inexhaustible supply of water is furnished by Suttles lake, from which the project takes its name. Six thousand acres is now being cultivated by dry farmers.

ROAD WORK UNDER WAY SOON
SALEM, July 28.—All road work contemplated for this year will be under way by the middle of August, according to State Highway Engineer Nunn. Actual paving has started on roads in Umatilla County.

For want thereof, the plaintiff will apply to the court for the relief prayed for in its complaint, to-wit: For judgment for the appropriation to plaintiff's use for all proper railroad purposes of the following described premises:

A strip of land 100 feet in width, being fifty feet in width on each side of and parallel with the center line of the main track of the Klamath Falls Municipal Railroad, as the same is staked out and located over and across the lands of the said defendants situate in Klamath county, state of Oregon, and known and designated as follows, to-wit:

Northeast quarter of the southwest quarter of section 25, township 28 south, range 10 east of Willamette Meridian, said center line being described as follows: Beginning at a point on the east line of the southwest quarter of section 25, township 28 south, range 10 east of Willamette Meridian, and 1558 feet north of the south line thereof, said point being Station 4748 plus 99.4 of the Klamath Falls Municipal Railroad survey as located and staked; running thence south 89 degrees 53 minutes west a distance of 724.9 feet to the beginning of a spiral curve to the left whose radius varies from infinity to 555.4 feet; thence along the arc of said spiral curve whose long chord is 299.7 feet and bears south 86 degrees 53 minutes west a distance of 300 feet; thence along the arc of a circular curve to the left whose radius is 955.4 feet and whose tangent at point of commencement bears south 80 degrees 53 minutes west a distance of 319.5 feet to the west line of said NE 1/4 of SW 1/4 of section 25 of said township and range, and which contains 2.09 acres more or less,

and for the assessment of the damages to said defendants incurred in such appropriation, and that upon

payment into court of the amount of damages so assessed, judgment be entered appropriating said premises and the whole thereof to the uses and purposes of this plaintiff. This summons is served upon you and each of you, the said defendants, by publication thereof in the Evening Herald, a daily newspaper of general circulation, printed and published at Klamath Falls, Klamath county, Oregon, by order of the Honorable D. V. Kuykendall, Judge of the above-entitled court, made, dated and filed in this action on the 29th day of June, 1917, which said order requires that this summons be published once a week for six (6) consecutive weeks, beginning on the 30th day of June, 1917.

The date of the first publication of this summons is June 30, 1917.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and puri-

fying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
