They have all found they have so much work to do since war was declared that they must keep in good physical condition.

I. W. W. THREATEN GREAT WALKOUT

HAYWOOD NOTIFIES PRESIDENT THAT QUARTER MILLION MEN STRIKE UNLESS DEPORTED MINERS ARE RETURNED

CHICAGO, Ill., July 31.—Miners, harvest hands and lumbermen of the middle west threaten to go on a sympathetic strike unless the deported Industrial Workers are returned to their homes in the Warren district of Arizona. A telegram voicing the intention of the walkout of over a quarter of a million men was sent yesterday to President Wilson by W. D. Haywood, secretary of the I. W. W.

The message said that the Michigan miners had begun a general strike and that the Minnesota miners and Dakota farm hands would fall into line unless the deported men were returned to their homes. The leaders say that the suspension of the harvest work means loss of thousands of dollars.

SLAV ARMY IS CLOSELY PRESSED

TWO MILLION NOW RETREATING IN GALACIA. GERMANS ENDEAVORING TO TRAP ONE BIG DIVISION

LONDON, July 31.—A Petrograd dispatch to the Post says that it is conservatively estimated that over two million troops are steadily marching rearward in Galacia. These constitute the eleventh and seventh armies. The eighth army, largely cavalry, not included in these figures is also retreating. Its position is extremely critical. The Germans are straining every effort to capture the seventeenth army and it now looks as though the eighth would be caught in a bag.

Alleged Industrial Workers Get Stiff Terms in Justice Court Today—Extra Ten Days for Contempt of Court Is Given in Two Cases—Van Seelen and Thompson Demand Trial by Jury.

Justice E. W. Gowan has had another busy day. Twenty-one sentences to alleged I. W. W. members who have been convicted under different forms of vagrancy during the past week were pronounced. These sentences range all the way from thirty days in jail and costs of the action to six months confinement and a fine of \$100, the maximum sentence.

In the cases of Joe Schroeder, secretary of the local organization, and Dan Sullivan, who were particularly vicious in their remarks to the court, an additional ten days for contempt of court was given. Two of the men, Kenneth Thompson and Frank Van Seelen, demanded jury trials, and are being held for same. In twelve of the twenty-one cases, the sentence imposed was for four

months or more. In all cases the costs of the action were added. The amount of these will not be known for some time, as none have been figured out yet. In several instances the authorities believe that they are holding desperate characters. Following are sentences imposed: John Pretrell, 60 days and costs. Fred L. Armstrong, 30 days and costs. That the members of the Red Cross Society will rise to meet any emergency of local nature that they may be called upon to meet is indicated in a resolution passed by the board of managers, which requests all members of the society to hold themselves in readiness to assist any crisis or calamity that may occur in the community.

HEAVY ACTION OCCURS ALONG TWENTY MILE FRONT

Expected Big Western Drive Begun—Allies Successful in Reaching Second Line Trenches. Have Demonstrated Air Superiority—Attempt Being Made to Reach Submarine Bases in Belgium.

By Associated Press. BRITISH FRONT IN FRANCE, July 31.—The allies have launched a big offensive on the western front, and have advanced beyond the shell-shattered first line trenches in many places along a twenty mile front. The French have entered the battle under cover of what is perhaps the greatest barrage fire of the war. It is being fought over the most difficult ground imaginable. The British have again captured Labaseville. The Germans are concentrating their artillery and are rushing troops to the scene of action. The allies are reported to have established complete superiority of the air.

This offensive is apparently one of the war's big moves, and has been expected for some time by those who have followed the situation closely. Many believe that the allies are endeavoring to turn the German flank in Flanders, and if possible reach the German submarine bases on the Belgian shores.
