Dictator of Russia in Action on the Front; Cheering the Soldiers

ALEXANDER F. KERENSKY
Alexander F. Kerensky, just the other day made premier of Russia in place of Prince Lvoff, has now become dictator. At least his cabinet, of which he is believed to be in absolute control, has been given "unlimited powers" by the council of soldiers and workmen's delegates and peasants. This photograph of the new ruler was taken when he recently visited the front to encourage the troops there who had quit fighting the Germans. He was caught in the action of cheering on the men who marched past him.
