

Heavy Development Under Way

ALGOMA MARSH LAND LEASED

WAGELSTEINS OF ALGOMA TAKE OVER LARGE TRACT WHICH THEY WILL IRRIGATE AND CULTIVATE IMMEDIATELY

Reclamation of more of Klamath county's fertile land is announced in the leasing of 400 acres of marsh land at Algoma by John Wagelstein and son, W. G. Hagelstein. This tract is to be cultivated and irrigated by water from Barclay Springs to the north.

The land has been leased with an option to buy from A. G. Cox at Osseo, Wis. The water rights are secured for the irrigation.

Although the land has been drained by the railroad embankment along the shore of the lake, this tract does not at this time dry off sufficiently early in the spring to permit early plowing, and to obviate this difficulty the Hagelsteins have arranged to install a large windmill to pump the surface water off.

The land in this section is very fertile indeed, some of it having been in crop last year, and yielding grain with a production of ninety bushels per acre.

MANY VESSELS WILL BE TAKEN

GOVERNMENT TAKES ALL BOATS IN YARDS OVER TWENTY-FIVE HUNDRED TONS—WILL START WORK BUILDING FLEET

WASHINGTON, D. C., Aug. 4.—The Emergency Fleet Corporation has requisitioned all merchant vessels over 25,000 tons now building in the American shipyards.

Double and triple labor shifts will be put on the yards to speed the construction. According to shipping boards records about seven ships will be taken.

As fast as the yards are cleared of present construction, they will be put to work on the government's great fleet.

The compensation for construction seized will be determined later.

WILL EXAMINE POISON PLANTS

BOTANY EXPERT OF O. A. C. WILL ARRIVE AND SPEND WEEK HERE WITH COUNTY AGENT ON PLANTS OF COUNTY

To make a special study of the poisonous plants of this district, W. E. Lawrence, a botanist from the Oregon Agricultural College, is expected to arrive tonight, and will spend next week giving attention to this subject here in co-operation with County Agricultural Agent, H. R. Glasier.

Glasier has endeavored for the past two years to get an expert in this line here, as the findings may prove of great value to the farmers and stockmen of the county.

DRAFT RESISTERS WILL BE SETTLED

DEPARTMENT OF JUSTICE WILL BRING OKLAHOMA DESPERADOES TO TIME WITH FEDERAL TROOPS, IF NECESSARY

WASHINGTON, D. C., Aug. 4.—Federal troops may be sent to Oklahoma and other states to quell the anti-draft demonstrations which have recently assumed alarming proportions.

The department of justice officials have announced that all draft resisters would be hunted down and brought to justice, no matter what the cost. The officials will decide within the next twenty-four hours whether they will send the troops.

This attention of officials follows the shooting of a sheriff and the destroying of a bridge by draft resisters, who are preparing to offer battle to officers of the law.

DOCTOR SCHULTZ GOES TO PORTLAND

HAS MADE STUDY OF STOCK POISONING HERE, AND WILL PUBLISH OPINION SHORTLY. WILL CONFER WITH LYTLE

Dr. C. A. Schultz, the eminent veterinary scientist, who has been investigating the stock poisoning which has menaced this section recently, left this morning for Portland to have a conference with W. H. Lytle, the state veterinarian, and to investigate conditions in Multnomah County, where they have been having similar trouble.

Dr. Schultz, the apparently satisfied as to the cause of the trouble here, would not give a public opinion until he has made a complete analysis of the material he has gathered on his research in the county.

He will as soon as possible prepare a paper on his findings, which will be published in the columns of the Herald, when received.

PLEASANT TOURIST LEAVES

After enjoying a two weeks' visit among the fishing resorts of Klamath County, where he evidenced his skill in the art of angling, with fatal results to large numbers of gamey trout, W. F. Hopke of Weinstock, Lubin & Co., Sacramento, left this morning for that point.

This is Mr. Hopke's eighth annual visit to this section, and his enthusiasm for the country increases with each trip. He is a substantial property holder in the city.

MRS. SULLIVAN IMPROVES

Mrs. Mary Sullivan, who underwent a serious operation at the Blackburn hospital two weeks since, is recovering nicely, according to report, and will be able to be removed to her home next week.

Mr. and Mrs. William Alverson and their two sons, of San Francisco, are spending a few days in Klamath Falls. Mr. Alverson is general manager of the U. S. Fire Association. They expect to return in October to take advantage of Klamath's famed duck hunting.

KLAMATH FALLS AND THE COUNTY FORGES AHEAD

Great Amount of Construction Now Going On

Within Thirty Days After Strahorn Lines Are Dedicated a Number of New Buildings Are Announced in Addition to Other Improvements. Prosperity Is Predicted for This Section, in Spite of War Handicap.

More than \$100,000 worth of new buildings ranging in values from \$1,200 to \$20,000, have been started or been announced for immediate construction since the dedication of the new Strahorn railroad just one month ago.

ARRESTED WITH POISONED PLASTER

PEDDLER IS NABBED IN SALT LAKE CITY SELLING COURT PLASTER TAINTED WITH TETANUS GERMS

SALT LAKE CITY, Aug. 4.—Cracked with selling plasters infected with tetanus germs, Joe Bergman has been arrested here.

Secretary of State Board of Health Health has announced that Bergman's plasters showed the presence of death dealing germs.

A number of these criminals have been traced over the country recently, and the public has been warned against the purchase of their wares.

SINKS GERMAN SUBMARINE AN AMERICAN PORT, AUG. 4.

A French battleship arrived, conveying a liner which arrived here today from a French port, bombed and sank a large German submarine two days after the liner left port, her officers reported.

The U boat attacked the steamer despite a convoy of destroyers and battleplanes, and shot a torpedo that missed the liner's stern by a scant fifty feet. One of the airplanes then swooped down and hurled a bomb that made a direct hit.

GERMAN PRISONERS DIG PEAT

PARIS, Aug. 4.—German prisoners of war are to be utilized in the digging of peat, in order to eke out France's falling fuel supply.

They will work under the supervision of the territorialists familiar with the peat regions, who will be given long leaves from the army for that purpose.

ing to prove of wonderful benefit, despite the war, there seems little doubt.

With the new mills and payrolls opening continually, the unusual yields of the irrigated lands, and the prospects now at hand for the reclamation of other vast tracts, the only handicap by which the progress of the district can be restricted is the lack of labor to carry it on.

It is freely declared by the men who are now expressing their confidence in the future of the city by making investments at this time, that they would not hesitate to go further, were they assured of men to carry on the construction.

The buildings so far announced are: Goeller & Son factory and planing

mill, Sixth and Commercial streets, \$20,000.

W. E. Seehorn company, warehouse on Spring street, \$8,000.

L. Jacobs block on Main street, \$10,000.

E. Quillitch, concrete warehouse on Spring street, \$6,000.

Martin Bros., warehouse, on Sixth street, \$15,000.

Union Oil company building on Sixth street, \$15,000.

Fred Buessing, residence, \$3,500.

Sisters school, Eighth and High streets, \$3,000.

Dr. L. L. Truax, residence, \$3,500.

George B. Chamberlain, bungalow, Eleventh and Grant, \$3,000.

Ewauna Box company, office building, Sixth street, \$3,000.

D. K. McDonald, bungalow, Eleventh and Grant streets, \$1,200.

LOW PERCENT EXEMPTIONS INDICATED WASHINGTON, D. C., Aug. 4.—The first scattered reports from boards throughout the country do not indicate any increase in the physical exemptions from draft over the average of 25.77 established in 1913.

LITTLE INQUEST STARTS AT BUTTE

BODY WILL BE SHIPPED SUNDAY. PROCESSION OF MINERS TO DEPOT—I. W. W. INCENSED OVER LYNCHING

BUTTE, Mont., Aug. 4.—The inquest of the death of Frank Little, the I. W. W. agitator who was lynched here, starts this afternoon. Seven jurors, all miners and examiners, have been summoned.

The body will be shipped to Oklahoma Sunday. Union officials say that a procession of miners will follow the casket to the depot.

KLAMATH SPUDS BROUGHT IN

H. C. Lord, who is one of the successful potato raisers of Klamath county, yesterday brought down a sack of very fine specimens of spuds to the Herald office. While later than ordinary years this year, the samples are very good specimens of Early Triumph, Gold Coin and Oregon Blue varieties. The latter were grown from seed shipped in for the farmers by the Klamath Commercial Club. Mr. Lord is located on the Upper Klamath Lake.

Misses Josephine and Harriet Fink left this morning for Berkeley, where they plan to spend the coming school year. Miss Harriet will continue her studies at the University of California, and Miss Josephine will enter the Berkeley high school. Their mother, Mrs. Ida Fink, will keep house for them thru the school year, leaving for the California city in a short time.

Miss Elizabeth Houston is spending the week end at Brookside as the guest of Miss Evelyn Applegate.

WILL KNIT FOR BOYS AT FRONT

ALL VARIETIES OF COMFORTS WILL BE PROVIDED FOR THE KLAMATH BOYS ARE TO BE MADE BY RELIEF CORPS

The patriotic committee of the Women's Relief Corps met Friday afternoon and started the work of knitting scarfs and wristlets for Klamath's boys who have been called to the colors.

When these articles are completed, socks, sweaters and helmets will also be made.

At next Monday's meeting of the corps the experienced knitter will teach the beginners, and it is planned to have these articles ready for every boy who needs them when the cold weather comes.

A call has been sent out all over the United States for these comforts, and thousands are being shipped daily to headquarters by the army and navy leagues.

The corps will make comfort bags at its meeting Monday, and all members who do not knit are asked to bring scissors and thimble.

GETS REGISTERED BUCKS

Ten fine registered Ramboulet bucks were received here today by Rex Bord, a prominent sheep man of the Olene district. The animals were shipped from Pilot Rock.

This is the second shipment received this week by Mr. Bord, two other valuable animals having been received from the Baldwin Sheep and Lamb company of Hay Creek, Ore.

Thomas Dolf and wife, Miss Margaret Dolf, Miss Ruth Williams and Miss Anna Baker of Fallon, Nev., with Mrs. C. H. Braynard of Redding, Calif., stopped at the Hall last night on their return from Crater Lake.

BIG OFFENSIVE NOT YET RESUMED

SEVERAL GAINS ARE REPORTED, HOWEVER, ON THE WESTERN FRONT—GERMANS MAKE COUNTER ATTACKS WITHOUT GAIN

While there has been no renewal of the smashing offensive on a large scale inaugurated by the allies in Flanders since Tuesday, the incessant pressure on German lines is beginning to tell in the further yielding of ground.

The British yesterday captured the village of St. Julian. The French moved ahead last night.

The Germans have launched a number of counter attacks against the allied lines since the big offensive was checked by the storm and mud, but these efforts, under the supervision of Prince Rupprecht, have been without result save the useless destruction of many Teuton soldiers.

DUCK HUNTING NOW AT PARIS

PARIS, Aug. 4.—The "conseil general," the deliberative body of the department of the Seine, has asked the government to permit the entry of game into Paris more freely. This measure, it is held, would ease the meat and poultry market. The minister of agriculture has already authorized the shooting of wild ducks. Before the war the yearly receipts at the central markets averaged 150,000 pheasants, 170,000 hares, 350,000 partridges, 620,000 larks, 450,000 rabbits, 250,000 water fowl.

T. Woods of Portland, special agent for the Aetna Life Insurance company, is spending a few days in Klamath Falls, getting acquainted with the local agents. He has visited Fort Klamath and other sections, and is enthusiastic over conditions of this district.

To Fight the Yellow Fever

DR. JUAN GUITERAS

Dr. Juan Guiteras, director of sanitation in Cuba, has been commissioned by the Rockefeller Foundation to fight yellow fever abroad, and while his destination has not been given out, it is believed he will go to the Balkans. He was a member of the commission sent by the foundation last year to study and fight the disease in South American countries.

Let Klamath Falls Get Busy

Portland is out to help Klamath Falls. The Portland Chamber of Commerce is sending out letters this week to all the commercial bodies in the state, asking co-operation in getting the people of Oregon to visit Crater Lake, and to help advertise it afterwards. This is, of course, a very good move for the state of Oregon to promote, as it will get an Oregon attraction before the public eye, which if located in California would have been heralded from coast to coast for a quarter of a century.

A very large portion of the people who visit Crater Lake also visit Klamath Falls, and incidentally leave enough samples of the coin of the realm in the pockets of our merchants and business men to make a substantial increase in our revenue. No community in the state will benefit more and few communities as much as Klamath Falls by the proposed move of the Portland body.

Shall we, then, as a community, not get behind this movement and push it with every means in our power? Shall it be said of Klamath Falls that it was necessary for distant districts to do the boasting which brought the strangers to the attractions at our very doors?

Because of the fact that this city is so near the lake, and has been visited by nearly everyone, it will not be necessary, perhaps, to form clubs to visit it, but we can certainly push the plan of sending the postal cards to our friends on the outside saying that we have seen it, and urging them to do the same.

A postal card costs five cents. If your prospect is induced by it to see this magnificent sight, you will have put into circulation in the city and county about five times that many dollars. It's a good bet if you lose. Do it today.
