HEADS NEW WAR BOARD

Frank A. Scott of Cleveland has been appointed chairman of the war industries board, which will be one of the most important, if not the most important, war bodies in the United States except the cabinet of President Wilson. It is to purchase all the supplies for use in the war, and thus will have enormous power. Mr. Scott has been a member of the National Security League for a year and a half, and is actively interested in the league's great campaign of patriotism through education to arouse the people of the country to a realization of the meanings of the war. He delegated one of his chief assistants in the munitions board, Major Bascom Little, to address the recent conference in connection with the Security League's campaign held at Chautauqua.

The building material has been ordered for the new plant of the Union Oil company here, according to announcement made today.

The plant will be located at Sixth street, near Market, and will be put up at a cost approximating \$15,000. It will consist of tanks, fire house and other buildings.

It is believed that the material will be on the ground by the 15th of this month, and the construction will be completed in a very short time afterward.

CONFINED ANIMALS WILL BE LIBERATED

PORTLAND, Aug. 7.—Portland will soon be on the market offering for sale about half the elk, buffalo, black bears, guinea pigs, raccoons, coyotes and other animals in the Washington Park Municipal Zoo, on account of the high cost of food for the animals, and to provide money to erect new quarters for a smaller collection.

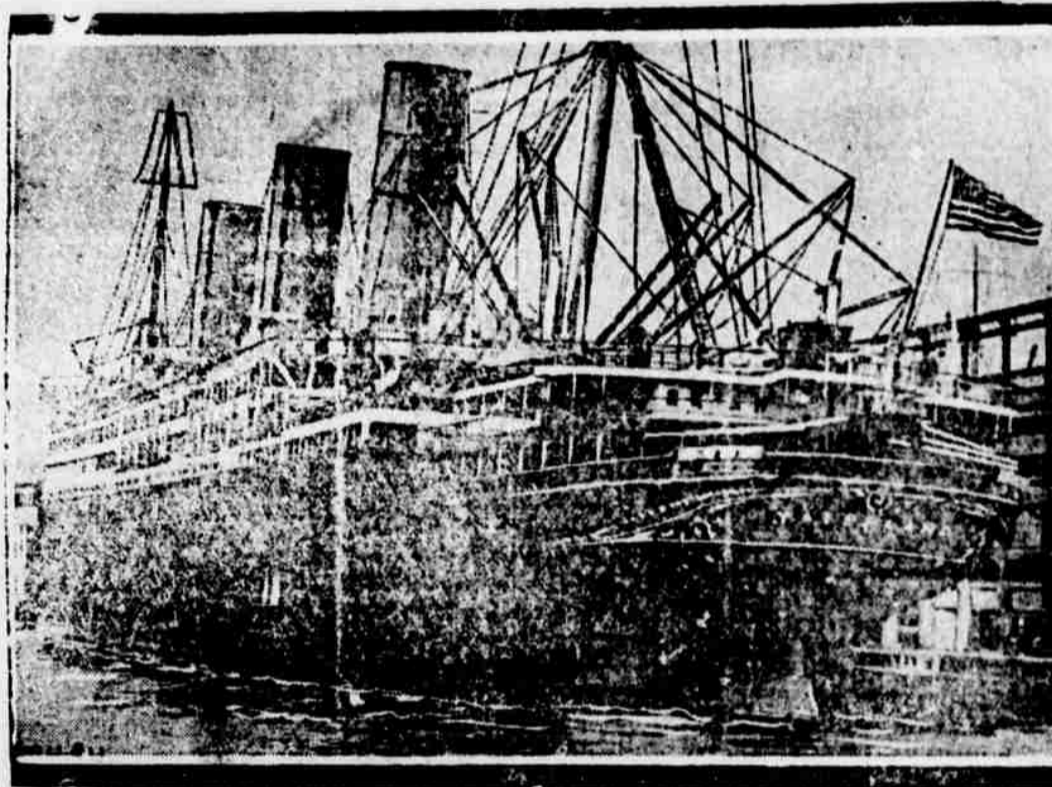

Some of the elk will be liberated in Oregon forests, it is planned, if they cannot be sold. In the Washington Zoo at present are 23 elk, 11 buffalo, 200 guinea pigs, and many black bear, deer and other animals. The officials expect to sell the elk for about \$250 a pair and the buffalo for about \$300 a head.

Vaterland, German Ship, Greatest in World, With American Flag

The great ship Vaterland, the biggest vessel in the world, which the Hamburg-American line had in Hoboken when the war was declared in August, 1914, and which has remained there ever since, now flies the American flag. It was run up the other day. The vessel has been taken over by the navy department, and has been repaired at a cost of \$1,000,000 because of the damage done by German agents when the United States declared war on Germany. She will likely carry troops to fight against the Germans.

COMPANY APPEAL NOT SUSTAINED

THE OREGON INLAND DEVELOPMENT COMPANY IS HELD TO BE FRAUDULENT—HELD LANDS IN KLAMATH COUNTY

SAN FRANCISCO, Aug. 6.—On the ground that its claim to possession of forty thousand acres of land in Oregon is not well established, the Oregon Inland Development company lost its appeal to the District Court of Appeals to legalize the payment of many thousands of dollars made on the lands by purchasers. The court held the deeds to be faulty, and declared that the company's literature misrepresented the land. It is situated in Klamath, Douglas, Umatilla and fifteen other counties of the state.

The Oregon Inland Development company mentioned owned the tract known as the Orindale Addition south

of this city. It was the intention of the company to sell the property as town lots, but the land was foreclosed by E. B. Henry for surveying charges. It is said that many other tracts of this sort were held and sold throughout the state.
