Klamath County News

KENO, Aug. 8.—Fire from a unknown cause wrecked a motor car Sunday night belonging to John Ackley. The car was standing by the railroad track a short distance below the Keno Bridge, and had not been used for some time. The fire occurred between 12 and 1 o'clock. John Oscar and Dan D. Murphy have received a notice to appear at the County Clerk's office August 9th and 10th to be examined for the draft.

H. J. Mattoon is preparing to move to Klamath Falls. Fred Esal has rented the Mattoon property at Keno. Brice McCormick property at Keno, and is looking after the forest fires.

General Conditions Good In the Philippine Islands

Success of Liberty Loan Campaign Testifies to Huge Increase of Available Cash and Increase of Taxable Property Indication of Prosperity

MANILA, Aug. 8.—While 1916 saw a gain in the increase in circulation of money in the Philippine Islands which amounted to 15,000,000 pesos, the first six months of this year will exceed that record increase by 3,000,000 pesos. The circulation since January 1st has amounted to 85,000,000 pesos. These figures, say local economists, reflect directly the highly favorable trade conditions that have been maintained for more than two years in the Philippine Islands.

The wealth of the islands is increasing rapidly. In Manila alone the assessed value of taxable property today is over 102,000,000 pesos, which is more than 3,000,000 pesos above 1916. Recent agricultural development in the provinces, the extent of which it is impossible to calculate exactly, makes certain that the increases in property values in other parts of the islands have far exceeded Manila's record. The success that attended the single week's campaign

for subscriptions to the Liberty Loan testified to the presence of much available money in Manila. Banks and other agencies which have all the funds which they can readily make use of are another testimonial to the prosperity of the islands.

There is but one drawback to the general outlook—prices for sugar and copra in the United States are such as to make it unprofitable to pay the current trans-Pacific freight rates. The chief concern is felt as to sugar. There are upwards of 100,000 tons of low grade sugar from the crop harvested last fall in the sugar provinces, lying in warehouses. A large part of the sugar has heretofore gone to China and Japan, but conditions in China have practically closed the market there. An unusually large crop of Formosan sugar has reduced the Japanese demand for the Philippine product to a minimum. Low grade sugar cannot command good prices in the American markets, hence the present rate on sugar to

the Pacific Coast, which is \$35 a ton, makes its shipment to the U. S. a losing proposition. However, it has been thought that the dispatch of the commandeered German vessel to the United States by the Philippine government would offer enough available cargo space to transport the sugar. The government has assured the sugar planters that their space needs would be met.

Nevertheless the government, in order not to compete with commercial liners, is making its rates conform as much as possible to commercial rates. Hence the rate on sugar must be lowered or the sugar men must be prepared to pocket a considerable loss by a sale, probably to Japan, in order to clear their warehouses to make room for the new crop which will begin to come in in November. The situation as regards copra is much the same, though there are not such enormous stocks of copra as of sugar, and the copra dealers can hold their crop for better prices.

SAGE TEA KEEPS YOUR HAIR DARK

WHEN MIXED WITH SULPHUR TO BRINGS BACK ITS BEAUTIFUL LUSTRE AT ONCE

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv

killed himself in his apartments this morning.

He is widely known as an amateur sportsman and belonged to many of the largest athletic clubs.

A telephone call early today at Lambert's apartments was answered by a maid. A woman asked the maid to see how Lambert was. The maid then went to the room and found him lying mortally wounded, with a revolver by his side.

The identity of the woman is unknown.

THE I. W. W. THREAT AGAINST THE POOR

(Henry J. Allen in Wichita Beacon) The Industrial Workers of the World say that, if necessary they'll see to it that there's no wheat crop in this country this year.

The rich can get food whatever happens. If it costs \$10 a loaf for bread, the rich will easily get their bread. So the threat of the I. W. W. is against the poor, against the common man, woman and child of America.

Evidently the Industrial Workers of the World are intent on helping Germany win. They are assisting the most autocratic government on the earth to extend its rule over the world.

The Industrial Workers of the World should migrate to Germany and do their fighting in the open on their own side.

Meatless Fridays Started in Portland

PORTLAND, ORE., Aug. 8.—Meatless Fridays are now the order at the Arlington Club, long considered the most exclusive club in Portland. At a recent meeting, the board of directors decided that the club should do its part in helping conserve the nation's food, so decided to abstain from meat on Fridays as long as the need for conservation exists.

GEORGE BIEHN GETS AIRSHIP

ARRIVES YESTERDAY FROM THE NORTH WITH HUGH ZEPPELIN WHICH IS EXPECTED TO GO UP EVERY DAY.

Have you seen it? Well cheer up, you will, because its going to run every day so George says, and George knows because its George's. Its too big for his two pet bears and it looks too much like a house boat to be the Strahorn passenger coach which he claims it is, so we'll have to wait and let the mystery work out itself. It seems more than likely though that the odd shaped passenger truck which Mr. Bean drove in from Portland yesterday will be used to carry the men who work in the mills on the Upper Lake, back and forth from the city.

The new innovation which is about twenty feet long by seven wide is equipped with fine upholstered leather seats and is fixed to carry thirty passengers. The inside is very much like an open air city street car. It will probably be put into service in the near future.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetaniline, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning, never have any headache or know a miserable moment.—Adv.

HARVEST WORKERS DRAFT DELAYED

WASHINGTON, August 8.—Provisions to protect harvesting from shortage of labor due to the mobilization of the national army has been made by the government in regulations now going out to boards.

Men needed in fields to complete harvesting will be permitted to remain at work until the need for them passed when they will join the colors. Local boards, because of their knowledge of local crop conditions, will determine what men are necessary in this class.

Indiana Lady Describes Condition Which She Says Was Due to Constipation and Talk of Relief Obtained From Black-Draught.

Scottsburg, Ind.—Mrs. Annie Johnson of this place, writes: "I well remember I suffered for a long time with constipation, which would get me down. My doctors' medicines and any number of purgatives. They would leave me worse condition than I was before, and my stomach so upset... I once I suffered... from constipation was so ill we had to have the doctor so nervous and feverish. The doctor said I would have to quit medicine, my stomach was so bad..."

My husband was reading and something about Theodor's Black-Draught and brought me a package. I used it regularly at first and began to feel better, then I used it occasionally. I was cured of my constipation and am sure the Black-Draught did it."

If your stomach is out of order you will suffer from such disagreeable conditions as headache, biliousness, indigestion, etc., and unless something serious trouble may result. Theodor's Black-Draught has found a valuable remedy for such troubles. It is purely vegetable, acts in a prompt and natural way to regulate the liver and to cleanse the bowels of impurities. Try Black-Draught.
