Oregon Crops and Range Suffer From Drought

PORTLAND, Or., Aug. 9—Oregon housewives canned unusual quantities of garden products last week according to the summary of Oregon crop conditions for the week ending August 4, issued here today by the Portland Weather Bureau. The summary follows:

"The drought continued unbroken and non-irrigated crops were still suffering, altho cooler weather was beneficial in some districts. Forest fires caused smoky conditions everywhere.

"Under irrigation, corn, beans, hops, flax and sugar beets were doing well. With improvised home outfits, housewives canned unusual quantities of garden products.

"Grain harvest was progressing with better yields of winter wheat than previously anticipated. Barley, oats, rye and spring wheat were only

fair and late seedings had mostly been out for hay.

"Pastures and ranges continued poor. Stock generally doing well, but will deteriorate unless rain comes soon.

"Three fruits still promising, but berries a short crop in most places on account of dry weather. Early peaches ripening, a month later than usual."

FOOTBALL TEAM ARMY PATTERN

PARIS, Aug. 9—Major General Pershing, commander of the American expedition in France, told the Associated Press today what he expected of America's conscript army. The general said:

"Our men must be in good physical condition, keeping their moral clean and thereby capable of meeting the trying conditions of modern warfare. The men must learn to obey orders promptly, implicitly and willingly, but not necessarily automatically."

"I object to the word 'automatic' because we do not want a machine made organization, but an army of thinking men. Men with individuality, men fully capable and ready to assume command of units, should their officers be killed or incapacitated, as sometimes happens in trench warfare.

"The men must be made to realize that war is not sport or play, but serious work demanding the utmost energy and attention to insure success."

General Pershing likened army organization to a football team in which each man is trained to physical perfection under strict discipline, but is capable of brilliant individual action in a crisis. He added:

"We want our men trained the same way." The general was confident that America's army would give an excellent account of itself and would come up to the expectations of the other entente allies despite the tremendous amount of work necessary before active American participation in trench warfare was possible.

COAL WANTED BADLY AT BAKER

BAKER, Or., Aug. 9—Mayor Palmer Monday wired the department of commerce asking that efforts be made to speed up local coal shipments from Wyoming and Utah fields. A little coal is coming thru from Wyoming, but scarcely any from Utah since the Price valley flood.

Local dealers are unable to store any against winter needs, delivering what little is received as soon as it arrives. A critical situation is faced unless conditions improve, which hardly seems likely unless something is accomplished before crops begin moving.

GERMAN VESSELS SEIZED SOON BE READY FOR USE

MANILA, Aug. 9—The first of the smaller of the commandeered German vessels in the Philippines to approach the completion of her repairs will be put into commission within two or three days, to be followed by two more.

These three vessels probably will be the first of the inter-island fleet which the Philippine government expects to establish with the seized vessels. The twenty-three steamers seized in the Philippines at the time of the rupture of relations with Germany had an aggregate tonnage of 84,000. The Philippine government while recognizing that the larger steamers should be put either into the Pacific or Atlantic trade, as the National Shipping Board thinks best, made a plea to Washington that ten of the smaller vessels representing perhaps a third of the total tonnage, be assigned to the government for such service as the insular authorities deemed wise.

While the chief use to which the German steamers will be put, will be either in inter-island traffic or in the sea trade between the Philippines and the China coast, the insular government has in mind the possibility of employing one of the vessels perhaps in trade between the islands and Spain. There is a population of close to 10,000 Spaniards in the Philippines. They alone provide a market for many Spanish products.

Meanwhile, work on the larger German steamers is proceeding rapidly. Two already have sailed. The outfitting of so many vessels and in so short a time has exhausted the supplies of naval stores in Manila and of the China Coast. Some vessels may have to wait for the arrival of these stores from the United States. The manning of so many vessels also virtually has exhausted the supply of sailors in the Philippines, as well as ship's officers. To fill the ranks of the sailors it is probable that some of the vessels will recruit Chinese crews in Hong Kong. Officers will have to be imported from the United States.

Big Percentage Claim Exemption

SEATTLE, Aug. 9—Ninety per cent of the men examined here up to today for service with the national army have claimed exemptions.

This extreme majority has caused speculation today among military authorities and it is stated that the second call for 500,000 men, expected about six months hence, will exhaust Seattle's registration of more than 27,000, providing the majority of those claiming exemptions are granted such release.

Added to this, a considerable number of the 10 per cent remaining, it is said will be granted exemptions on occupational grounds.

Three divisions here have today issued new calls for men because the men summoned on the first call, though twice the quota, will be insufficient to furnish the division requirement.

Cruise, the Leading Bateman of the National League

WALTER CRUISE

The batting sensation of the year is Walter Cruise of the St. Louis Cardinals. He was a "phenom" of the training camp who has made good. He led the league during most of the early part of the season, but few of the experts thought he could keep up the pace. He dropped to second place for a time, but at present he is well in the lead and going better than ever. Cruise plays center field for the Cardinals.

Oregon Coal Lands Will Be Investigated

PORTLAND, Or., Aug. 9—In response to appeal from Governor James Withycombe and Mayor Geo. L. Baker of Portland, United States Senator Charles L. McNary is endeavoring to have the federal government investigate the coal situation in Oregon soon to avert a threatened shortage this winter, according to letters received here from Washington.
