

French Women Take Places of Horses and Oxen

Because all the oxen have been eaten and all the horses are employed in the war, and because their men are all in the ranks fighting the Germans, the French women have taken their places in the fields. This photograph shows three of them drawing a harrow. It is hard work, much harder work than the men did before the war demanded their services, but these women perform it with smiling faces.

Red Cross Library Proving Great Benefit

LONDON, Aug. 17.—Opposite Marble Arch stands the home of Lady Battersea, which in pre-war days was the center of social activity. Now it is the headquarters of the Red Cross library, and is run by Mrs. Gaskell and an army of voluntary assistants. The house is packed with books from floor to ceiling, they cover the walls, are piled up on tables and shelves, overflow into the servants' quarters and even into the stables at the back of the house.

Nearly 50,000 books a week are sent out to all parts of the world, and in addition to gifts, 100,000 books and magazines are purchased monthly. The tastes of the soldiers are remarkable, and an amazing light has been thrown on the matter of best sellers. Far away into the millions goes the demand for Nick Carter detective stories.

Every hospital in France, of which there are some 290, receives a parcel of 130 books every three weeks. Poetry is very largely in demand and

ranges from Shakespeare to modern living poets. The colonial soldier has insatiable curiosity, and his chief demand is for the Encyclopaedia Britannica in forty volumes. No demand is refused, whether it be for the latest handbook on oil engines, theosophy, poultry farming or boxing.

These parcels of books go forth to all parts of the world, wherever the British soldier is fighting. Malta received 7,000 per month, Basrah 9,000, Alexandria 3,000, Salonika 2,000, and even units in East Africa, Italy and Russia are supplied. The admiralty requested the library to supply every sailor in the fleets with a book.

Urgent summons often are received, and when Gallipoli was filling the hospitals a cable message came, "Send 25,000 books at once, light and good print." The other day a request came from Boulogne, and within an hour and a half 3,000 books had been sent in response.

Turks Have Burned the Town of Jaffa

NEW YORK, Aug. 17.—The town of Jaffa, in Palestine, formerly the port for Jerusalem, virtually is in ruins, according to information received from Cairo, Egypt, by the American committee for Armenian and Syrian relief. Jaffa was set on fire by the Turks, and burned after many buildings were dynamited, says the message received by the committee, which adds that of the villages and hamlets within twelve miles of Jaffa nothing remains but heaps of ruins and ashes.

"From a line extending three miles north of Jaffa to the Judean mountains, not an inhabitant remains nor a dwelling," says the message. "All government records have been taken to Damascus and Nablus. The people who were spared from massacre were exiled to Hebron."

Jaffa formerly had a population estimated at between 20,000 and 40,000. It contained several mosques, churches and convents, a bazaar, hospitals, hotels and fine gardens. It is connected with Jerusalem by a railway line fifty-four miles long.

HIGH SCHOOL OPENS SEPT. 10

ALL THOSE WISHING TO SECURE OUTSIDE EMPLOYMENT DURING THE TERM ARE REQUESTED TO NOTIFY PRINCIPAL

The Klamath County high school at Klamath Falls will commence the fall term September 10th.

Principal C. R. Bowman, in making this announcement, asks that those intending to enroll be on hand to register at this time. He also asks that any boy or girl who wants to get outside work to do during the coming year, to notify him at the earliest moment convenient, so that he may be on the lookout. Likewise, anyone in the city having work that a high school student could handle public expenditures.

to advantage, is requested to get in touch with Principal Bowman.

While there was a substantial loss last spring from the high school, owing to the number of boys leaving for the front, it is believed by faculty members that a big enrollment will be made this season, and that the young people of the community will respond to the appeal of the nation's leaders to get all the education possible in preparation for the big call for skilled labor after the war.

The teachers of the county will convene for the regular institute during the week preceding the term opening, from September 4th to 8th.

COMMITTEE TO LOOK AFTER ENGLISH FINANCES

LONDON, Aug. 17.—The house of commons has appointed a committee to inquire into the national finances, and suggest methods of giving Parliament more effective control over public expenditures.

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready to use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it is done so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes dark, glossy, soft, and luxuriant, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

IF KIDNEYS ACT BAD TAKE SALTS

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 5-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.—Adv.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.
