HEAVY BRITISH LOSS IN AUGUST

MORE THAN TWENTY THOUSAND MEN, OFFICERS AND PRIVATES ARE LOST DURING THE MONTH.

LONDON, Aug. 20.—Reports of British casualties issued during the first two weeks of August total 21,723 officers and men. They are divided as follows:

Killed and died of wounds—Officers, 223, privates and non-commissioned officers 4424.

Wounded or missing—Officers 1821, men 15,254.

Total, 21,723.

Born to Mr. and Mrs. W. A. Duncan of Langell Valley, August 19th, a girl. Mother and daughter reported doing nicely. Dr. W. S. Johnson of Bonanza was in attendance.

COMMERCIAL FAILURES SHOW DOWNWARD TENDENCY

Continued reduction in the country's business mortality appears in comparison with last year. 773 commercial failures being reported to R. G. Dun & Co. for three weeks of July as against 819 in the same period of 1916. The record for June, the latest month for which complete figures are available, discloses 1186 defaults for \$14,055,102, and compares with 1227 insolvencies for \$11,929,341 in June, 1916. The augmented liabilities were due to a large munitions failure in the first district; the amounts were also higher in the second, third, fourth, fifth and ninth districts, but smaller elsewhere, and notably so in the sixth, eighth and twelfth districts. As to number, increases in the second, fourth, fifth, seventh, eighth and ninth districts were more than offset by decreases in the other six districts, the falling off being substantial in most cases.

Get a standard fire insurance policy in a standard company at standard rates, and you will have no trouble in adjusting the loss. See Chilreus. 16

Entrainment For Drafted Soldiers

PORTLAND, Ore., Aug. 20.—The men called out in the first draft from Oregon will be mobilized within the state directly under the supervision of the local exemption boards in each county.

Each local board will attend personally to the assembling, subsistence, and finally, the entrainment for the mobilization camp, of all the men called to the colors from its county or district.

Plans of the War Department provide for the mobilization of men drawn in the first draft, in four installments during September and early October.

Thirty per cent of the net quota of each county will be called out on September 5. Another 30 per cent is to be called on September 15, a third 30 per cent on September 30, and the final 10 per cent as soon thereafter as practicable.

The first preliminary to actual mobilization will be the notification by local exemption boards of the men in their jurisdiction who have been certified as called for service and not exempted or discharged.

In this notification they will also be directed to hold themselves in readiness to respond to a call soon to be made by the board to report for military duty at a specified time and place.

The next step will follow notice to the boards from the Adjutant General of the state to assemble at a convenient point of entrainment for the mobilization camp, a specified number of men from their draft quota.

Immediately each local board will post a list of the men who must respond to this first call for mobilization. At the same time each board will send out mail notices to each of these men, directing him when and where to report.

Failure to receive this mail notice, however, will not be an excuse for failure to report. From the time specified by the local boards for the men to report, they will be in the military service of the United States and subject to the orders of the military authorities.

After the men have reported at the point designated by their respective local exemption boards, they will be fed and provided with sleeping accommodations by the boards, at the expense of the Federal Government.

They will be subject to the orders of their board until they are actually entrained for the mobilization camp. Disobedience will be punishable as severely as disobedience to the orders of a military officer.

So far as possible they will not be called to assemble more than 24 hours prior to the time set by the local board for their entrainment. Transportation will be provided by the board.

If any men notified to report do

not appear for duty, or it appears that they have absconded or willfully failed to report, the local board is directed by the regulations "to call upon the police to arrest them as deserters from the army and to deliver them to the nearest military station as prisoners."

Before the men take train for the mobilization camp, the local board is directed to designate one of them, preferably the one best fitted for it by reason of his age, experience and character, to take charge of the party until they arrive at the mobilization camp.

He in turn will appoint another of the drafted men to act as his second in command. The men must obey the orders of these temporary officers.

The foregoing procedure will be followed by the local boards in the mobilization of each of the four installments of the first draft quota.

It will mean much work for the local boards, and much responsibility for them and for the men called.

But if every drafted man, and every citizen, will co-operate patriotically with the boards in aiding them to do their duty, the task can be accomplished with the speed and efficiency that is so essential.

NEW CITY IS TO BE STARTED

DEAVER, WYOMING, IS THE NAME OF THE NEW TOWN TO BE ESTABLISHED AUGUST 29TH BY RECLAMATION SERVICE.

Establishing new towns and creating opportunities for home makers are functions of the Reclamation Service in the Department of the Interior. On many of the irrigation projects these towns are assuming metropolitan airs. They have offered openings for all lines of business, commercial, financial and manufacturing, and have prospered with the rapid growth of the farming communities which surround them.

Secretary Lane announces the opening of a new town site on August 29 on the Shoshone project in northern Wyoming. It is located in the Frannie unit, which will be opened to entry in September, and which contains 41,000 acres of irrigable land. The town site, which will be called Deaver, is on a branch

of the Chicago, Burlington & Quincy Railway, between Billings, Mont., and Lovell, Wyo. On the opening day nearly 300 lots will be offered at public sale, the terms being all cash, or one-fifth cash, and balance in four annual installments, with 6 per cent interest.

By reason of its advantageous location in the midst of a large area of irrigable lands, Deaver should enjoy a good business. With an early opening of the Frannie unit lands a farm population of several thousand people will be established here in permanent homes. Powell, the other project town and the present headquarters of the service, is one of the best trade centers in the northern part of the state, and is only ten years old.

There will be openings at one for general stores and banks, blacksmith and carpenter shops, implement dealers, doctors, lawyers, and other professional men, and for investors in town property.

MAIL LIST.

The following unclaimed mail matter advertised on August 18th will be sent to the "Division of Dead Letters," San Francisco, Cal., on September 1.

A charge of 1 cent will be made for each letter delivered from this list.

In calling please say "Advertised."

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, drowsy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure, for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder, and almost tasteless.—Adv.

It Is Expensive Neglect

It is expensive neglect to allow your watch to go longer than 12 to 15 months without cleaning and oiling.

It's a mechanical impossibility for a watch to continue keeping accurate time without occasional cleaning. The oil dries out. Friction injures the delicate bearings. The life of a valuable timepiece is materially shortened.

Let Upp save you money by cleaning your watch now.

Our work is fully guaranteed and the charge is always reasonable.

Farmers and the New Banking System

The Federal Reserve Banking System established by the government, with its thousand million dollars of combined resources, stands back of the grain fields and assists its member banks in taking care of the farmers.

Our membership in this system gives us special facilities for enabling farmers to plant, gather and store their crops.

The next time you come to town stop in and let us tell you how this new system enables us to help you.
