# True Economy

consists in buying toilet goods from a quality instead of a price standpoint

Read a little plain talk. We are building a business in Toilet Goods that grows larger and better every day. We are able to forge ahead constantly because we make it worth while for the men and women of this place to buy Toilet Goods at our store. We stand for highest quality in Toilet Goods, and have made it an article of our business faith to sell nothing that we cannot stand back of and recommend to our customers. The inferior or indifferent goods that find their way into other stores because of a pretty package or tempting price, cannot get into our store. Our customers know this, and more and more people are finding it out every day and becoming customers because of it. We don't ask you to pay more for high grade Toilet Goods, very often you pay less, but what you buy here is better than most other stores sell for the same money or more. Make up your mind that you ought to buy Toilet Goods at a store that safeguards your interests in every possible way. We know that it pays us to keep the best grade of toilet goods, and we feel that it will pay you to buy only the best.

# The Jitney Law Is Now Completed

## Ordinance Which Has Been Considered For Several Months Passes Second Reading By City Council

The much discussed Jitney ordinance for Klamath Falls finally passed second reading at a meeting of the city council during last evening's regular session.

The new ordinance in its final form provides for a license of all drivers of city cars, amounting to \$50. A subdivision is made for drivers of city cars between Klamath Falls and outside points twenty miles or more distant who enter the city only once each day for a \$10 license.

Before obtaining a license to operate a car for public hire, the applicant must first file a bond with the police judge for \$1,000 in favor of the city, so that any person wrongfully injured may obtain redress.

Section 9 of the new ordinance, regulating tolls to be charged, is as follows:

"Section 9.—Tolls charged by the operator or licensee of any licensed motor vehicle shall not exceed the following rates:

(a)—Between corner of Sixth and Main streets and adjacent area, and Shippington or Upper Lake boat landings, \$1 for one to four passengers, and 25 cents for each additional passenger.

(b)—Between corner of Sixth and Main streets and adjacent area and any point in Mills, Mills Second and Darrow Additions, 50 cents for one or two passengers, and 25 cents for each additional passenger.

(c)—Between corner of Sixth and Main streets and adjacent area within the portion of the city bounded by Link River, McKinley street, Upham street, Wall street, East Main street, Wantland avenue, Sixth street and Southern Pacific depot, 25 cents for each passenger.

(d)—Between corner of Sixth and Main streets and adjacent area and any point not included in above, 50 cents for each passenger.

(e)—During the months of December, January and February, the above rates may be increased 50 per cent thereof, provided, however, that rates herein specified applying to

paved streets shall not be increased. Violators of this ordinance will be punished by a fine of not less than \$5 or more than \$50 or by imprisonment of not less than three days nor more than twenty days or by both such fine and imprisonment.
