ENTRAINMENT ON SEPTEMBER 5

GOVERNOR SUGGESTS CELEBRATION BE ARRANGED FOR OCCASION THROUGHOUT STATE—INSTRUCTIONS FOR OFFICIALS

The first 30 per cent of the draft quota must be ready to leave early next month, and instructions have been furnished the local board of Klamath County for its procedure.

The following letter from Adjutant General White to Sheriff George Humphrey emphasizes the significance of this event and the responsibility resting upon board members.

A big demonstration is suggested for this date, as it will be the largest single military movement in the history of the United States. The letter follows:

"The time is now close at hand when our quotas for the national army enter upon military training. The first 30 per cent of your quota must be ready to entrain September 5th, and the method of notifying and getting the men in readiness is covered fully by the mobilization regulations which are in your hands.

"Unusual responsibilities are placed upon your local board in the final work of selecting your county's quota. Each process of the regulations should be followed carefully as to mobilization, and you should see to it that the number of men called for is ready to board a train and leave

for the camp. The problem of routing is now being given consideration, and you will receive later information on this subject.

"All necessary forms have been mailed out to your board for the final stage of the selection, and should have reached you before this time. As soon as practicable I will notify you the exact date and hour of entrainment of your contingent. Upon receipt of orders from this office it will devolve on you to call upon the men selected to assemble at the office of your board for transportation to the mobilization camp. In the meantime you should warn these men to hold themselves in readiness to report for military duty.

"The day upon which these contingents entrain is certain to become an important event in the history of the state and nation. The movement will comprise the largest single military movement in the history of the United States. The men selected are going into the national army to uphold the honor and integrity of the nation, and the occasion of their marching away should be made a memorable occasion in your community.

"Governor Withycombe desires me to suggest that the matter be taken up at once with your mayor and with civic organizations of having a public demonstration upon the occasion of the departure of your troops. The governor trusts that a carefully prepared and elaborate program can be arranged. Perhaps this idea has occurred to your local board before now, and you are making some preparation. It is highly appropriate that the departure of your first troops for the national army should be the occasion of a great popular farewell demonstration."
