OREGON FIRES AGAIN SERIOUS

MORE FIRES BREAK OUT IN THE SISKIYOU MOUNTAINS — DISTRICTS NOW BEING PATROLLED BY GOVERNMENT TROOPS

PORTLAND, Aug. 29.—Two fires in the Siskiyou mountains in Southern Oregon are reported serious today.

Fires in the Deschutes River country have also taken a fresh start. All fire districts are now patrolled by troops, the last of which reached their destinations today.

GRAIN SUPPLIES SUBBED

ATLANTIC PORT, Aug. 29.—The Greek steamer Lia, which left May 20th with grain for Italy, was sunk in the Mediterranean by a German submarine, a member of the crew arriving here today said.

A rest for the feet by having Neolin soles and Wing-Foot heels put on your shoes, at the Modern Shoe Store. 29-1t

Glass of Hot Water Before Breakfast a Splendid Habit

Open choice of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it, and you are assured that you will look better and feel better in every way shortly.—Adv.

Two Views of Uncle Sam's New Torpedoes Ready for U-Boats

The upper photograph shows a giant torpedo just leaving the tube at the testing grounds at Sag Harbor, New York. The lower picture shows the splash of the torpedo after it struck the water. Each torpedo is tested in this way. It is shot into the water and followed by a submarine chaser to be picked up when it has spent its force. If the torpedo runs true to form it is accepted by the government, and it is believed, sent on its way to the North Sea, there to be used against the German submarines.

Bonds Between U. S. and Japan Strengthened

YOKOHAMA, Japan, Aug. 1.—Correspondence of The Associated Press—A notable demonstration of friendship toward the United States was given recently by the citizens of Yokohama, who arranged an elaborate entertainment in honor of Admiral Austin M. Knight and other officers of the United States Asiatic fleet.

Admiral Knight came to Japan to convey to Emperor Yoshihito the thanks of the United States for the honors shown to George W. Guthrie, late American ambassador.

The festival was held in the public gardens, which were beautified by the pink and white lotus blossoms of the season. The distinctive feature of the function was the presentation of a magnificent silver flower bowl to Admiral Knight by Mayor Audo, in behalf of the citizens. The souvenir bore a suitable inscription in Japanese, and contained a scroll, signed by leading residents, asserting: "The existence of friendly relations

between your country and ours is traditional. Yet, by the entrance of the United States of America into the present war, our interests have become more closely linked together than ever before the friendship existing between us has so matured that today we are not only friends, but allies. We deem it a fitting occasion, therefore, for us to show our high regard for you, and thru you our warm feeling for the American people, by presenting to you this bowl. May it serve both as a mark of our respect for you and as a token of our sincere friendship for your fellow countrymen."

Admiral Knight accepted the gift as an expression of the good feeling borne for the United States by the people of Japan.

The entertainment consisted of jugglery and geisha dances. Japanese artists painted fans before the guests and later presented them to the Americans as souvenirs.

"Minnie" Is Object Of Special Attention

BEHIND THE BRITISH LINES IN FRANCE, Aug. 2.—Correspondence of the Associated Press—"Minnie" is a very forward young lady who lives as a rule in German front line trenches. She has no pretensions at all to beauty. She is for use, not ornament. She is a trench gun, and her projectiles remind one of plum puddings attached to sticks. They fly very irregularly, but burst very regularly in that part of No Man's Land furthest removed from Minnie's temporary lodging.

Just before the latest push around Ypres there was a particular Minnie located a few miles from Ypres which was more than usually a nuisance. The British trench was not well sited, nor very well protected. Consequently when Minnie was active she made things very uncomfortable for the occupants of that British trench. Moreover, she has no regular habits, she worked on no plan, ladylike, she did just about as she wished.

The young British subalterns hated her with a persistent, pervading hatred, and concocted many schemes for her undoing, but to no avail. But one night chance brought into the trench a very irritable old artillery

officer, just as Minnie was active. One of Minnie's puddings soiled his boots, and thereby aroused in him a grim determination to devote himself to her destruction.

He stayed in the trench all that night, studying Minnie's location and characteristics, and on the morrow he returned, followed by his orderly, unrolling wire as he walked. At the trench end of the wire a temporary telephone was fixed. The far end of the wire led back a mile and a half to a battery of field artillery.

Along about noon Minnie opened up for her midday strafe. Promptly the artillery officer verified his observations of the night before, and spoke a few figures into the telephone. A minute later a loud boom announced the arrival of a British shell just across on the other side of No Man's Land. The British officer swore softly, and spoke again into the telephone. The first shell had been at least thirty yards off. The second was perhaps twenty yards on the other side. Again the officer spoke into the telephone, and for the third time the gun spoke. "Bullseye" sang the officer into the telephone, and packed up his belongings in business like fashion. Minnie was deceased.

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready to use preparation improved by the addition of other ingredients, coating about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it is done so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes dark, glossy, soft, and luxuriant, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Auto channels reset by the Klamath Auto Spring Works makes your old wheels as good as new. All work strictly first class and guaranteed. eod
