Thousands of Young
Serbian Girls Stolen

LONDON, Aug. 20.—Correspond-
ence of the Associated Press—Ten
thousand Serbian girls from 10 to 14
years old have been kidnapped and
deported from Serbia to the harems
of Constantinople, to Bulgaria and
Asia Minor, says advices received by
M. Petich, the Serbian premier, who is
now in London.

"These deportations," said M. Pet-
itch, "have been going on since Feb-
ruary, 1916, but the number was very
limited until a few weeks ago. Now
it has been systematized under Bul-
garian controllers, and it is impossi-
ble to predict how far it will go.

"Eight thousand girls have been
sent to Constantinople, and 2,000
more to Bulgaria and Asia Minor.
Prisoners whom we have taken on the
Salonika front tell us that the traffic
in our girlhood has grown to be a by-
word in Bulgaria and Turkey.

"The girls are kidnapped and taken
away secretly, particularly from the
smaller villages, until at present do-
zens of small towns have been quite
denuded of the young female popula-
tion.

"I do not think that the Turks are

the actual instigators of this gross
violation of the rules of civilized war-
fare. All our information indicates
that the Bulgarians are the prime
movers and the Turks only incidental
beneficiaries of the traffic.

"The girls are too young to be of
any use for laboring purposes, be-
sides, neither Turkey nor Bulgaria is
seriously handicapped for labor, and
in Turkey the use of young women for
outdoor work is practically un-
known.

"It is very difficult for us to do any-
thing to help these unfortunate vic-
tims. Our affairs in Constantinople
and Sofia are now in the hands of the
Dutch government, and we have made
the most earnest possible protests
thru that government. But you know
how difficult it is to get any action in
Turkey. We have suggested, for in-
stance, that some scheme or repara-
tion be put into effect immediately;
that the girls should be sent back to
some place beyond the war zone. But
I fear it is too late to save them, and
that we can only wait in patience
until peace comes."

Disease Attacks
German Nation

BERNE, Aug. 30.—Germany is suf-
fering from an almost nation wide
epidemic of dysentery.

German mortality rates have jump-
ed from 50 to 100 per cent since the
first of the year. Tuberculosis is rav-
aging the people, due to their weak-
ened condition thru lack of proper
food.

The German government is making
frantic efforts to conceal the dysen-
tery epidemic. All German cities have
stopped publication of mortality sta-
tistics. The tuberculosis rate is said
to have nearly doubled in the last few

months. Every effort is being made
to reassure the German public.

Scores of reports have reached here
recently of local outbreaks of dysen-
tery in Germany. From information
obtained today these have been mere-
ly local outbreaks as compared with
the present practically universal
spread of the scourge.

Dysentery comes in part from lack
of proper diet. It is in order to con-
ceal this lack of food that the German
government is making such extraor-
dinary efforts to suppress all details
of the epidemic.

GERMAN FASHIONS
FAIL TO PLEASE

IN THEIR EFFORTS TO GET SOME-
THING DIFFERENT FROM THE
PARIS MODES, HIDEOUS EF-
FECTS ARE PRODUCED

AMSTERDAM, Aug. 30.—In re-
sponse to the old demand thruout
Germany for a new mode of Women's
clothing that shall be entirely Ger-
man and absolutely independent of
Paris, the Munich Wieland has
brought out, after long preparation,
a special supplement of entirely "Ger-
man Fashions," containing a series
of colored designs "absolutely Ger-
man in inspiration and elaboration."

The supplement has attracted wide
attention in the German newspapers,
but almost without exception the
criticism is adverse. The Berlin Tage-
blatt says: "The illustrations might
well be taken for caricatures. The
body from the waist upwards appears
far too short and humpy, the lower
part is padded to appear as an enor-
mity. Bulging pockets; hats too
small or too large, falling over one
ear; wide outstanding collars and
other absurdities complete a figure
from which any rational man would
turn with loathing."

The Tageszeitung and other papers
declare that if this is a fair specimen
of German genius for designing ladies'
fashions, German women had far bet-
ter depend as in the past on Paris.

POPE'S OFFER
IS CONSIDERED

AMSTERDAM, Aug. 30.—The com-
mission of Germans appointed to con-
sider the reply of the pope's peace
note, held its first session Tuesday,
according to newspaper reports from
Berlin, and has adjourned to wait the
verdict of Vienna, Constantinople and
Sofia.

San Salvador Volcano
Is Still Very Active

SAN SALVADOR, Republic of San
Salvador, Aug. 3.—Correspondence
of the Associated Press—The San Sal-
vador volcano which burst into violent
eruption on the night of June 7th last
still continues to hurl into the air at
intervals of from half a minute to a
minute, quantities of redhot stones.
These emissions are accompanied by
tremendous explosions, like the firing
together of a hundred pieces of heavy
artillery. Smaller stones glowing
with heat are thrown 3,000 feet in
the air and larger ones 1,500 to 1,800
feet.

In the great eruption of June 7th,
when scores of persons were killed
or injured, vast quantities of burning
lava poured from vents in the sides
of the ancient volcano, spreading over
the valleys of El Pinar and La Chin-
tos. These fields of fire now mostly
have cooled.

A lake which occupied the old crater
was undisturbed by the first explo-
sion, but a few days later it began
to throw off steam. For twenty-two
days it continued to boil from subter-
ranean heat and when, at the end of
that period the water of the lake had
evaporated, it was possible to observe
that a new crater had been formed
within the mouth of the old one.

It is from this new crater that
eruptions now take place at regular
intervals. The spectacle is awe-in-
spiring. Millions of tons of burning
stones have been thrown out on the
dry bedrock, where they continue to
glow. Nevertheless it is possible to

go within a few hundred yards of the
old crater without danger, and some
men even have lowered themselves
into the old crater with ropes.

Excursions to the volcano from all
parts of the country are popular, as
a railroad runs from San Salvador to
Santa Tecla, eight miles from the
volcano. The remainder of the jour-
ney is made on horseback.

LAND OPENING
IN CROOK COUNTY

74,000 ACRES WILL BE OPENED
TO SETTLEMENT IN THE LAT-
TER PART OF SEPTEMBER—NO
PRIOR SETTLEMENT

WASHINGTON, D. C., Aug. 30.—
In the restoration of Carey act seg-
regation list No. 20, in Crook county,
Oregon, to the public domain, oppor-
tunity is given to settlers to secure
74,000 acres withdrawn in 1905,
when the state of Oregon took over
the land and attempted to secure the
application of water for irrigation.

The land will be open to homestead
entry at 9 a. m. on September 24th,
and to actual settlement and other

forms of entry on October 1st. All
persons are warned by the general
land office that no rights can be ac-
quired by prior settlement prior to
October 1st, and persons attempting
to occupy the lands will be ousted.
Prospective settlers, however, may
go on the land for the purpose of se-
lecting locations, and prior rights will
be accorded to those who may have
initiated legal rights prior to the with-
drawal date in 1905.
Applications will be received at
The Dulles land office for twenty days
prior to the opening, and information
as to the lands may be obtained there.

RAISE IN MILK PRICES

PORTLAND, Aug. 30.—Within the
next fortnight, if present plans ma-
terialize, the price of milk to the con-
sumer in Portland will advance to 15
cents a quart.

Dealers declare that the proposed
rise is due to the fact that farmers
have declared an advance at points of
production to \$3 a hundred pounds,
owing to abnormally high prices of
feed. All dairymen are working in
common, and expect soon to perfect
an organization, dealers say.

NOTICE!

WE WISH TO ANNOUNCE TO
MILK CONSUMERS OF
KLAMATH FALLS THAT WE WILL
HAVE OUR PASTEURIZING PLANT
INSTALLED AND OUR COWS TU-
BERCULIN TESTED IN A FEW
DAYS. YOU WILL HAVE THE
SAME ADVANTAGE AS THOSE IN
THE LARGER CITIES, FOR WE
WILL FURNISH PURE MILK AND
CREAM FROM TUBERCULIN TEST-
ED COWS AT THE SAME PRICE
AS OTHER MILK.
