OVATION IS GIVEN SOLDIER BOYS BY CITIZENS

BIG CROWD AT RECEPTION LAST NIGHT

Women's Relief Corps and Other Organizations Unite to Show Appreciation to the Fifteen Young Men Who Left for American Lake This Morning—Festive Program Given Last Night.

The fifteen soldiers from Klamath Falls on their way to American Lake in answer to the draft call were certainly not aware that the ovation they are rendering to the nation is appreciated by the home folk. If the interest taken in the reception at the Pavilion last evening and the message at the depot this morning is any criterion.

In answer to the call made yesterday a large crowd of citizens gathered at the Pavilion last night for the farewell reception. Interesting talks were made by Father James McLaughlin and City School Superintendent W. H. Dunbar. A pleasing feature of the evening was the singing of "Good Bye, Klamath, Hello France," "America, My America," and other songs by E. O. Foster and a large chorus of school girls. The crowd joined in enthusiastically in much of the singing. Following the program an informal hand-shaking with the departing boys took place by the big flag which decorated one end of the Pavilion, and the later hours of the evening were devoted to dancing by the pleasure straits of the Peoria orchestra. A big demonstration was made on the departure of the train this morning. Many flowers and other gifts were made the new soldiers. The Women's Relief Corps presented each boy with a basket of fruit on his departure this morning. At the roll call in County Clerk DeLap's office yesterday the ladies of this body gave each boy one of the comfort bags and a red, white and blue badge. The Relief Corps was also responsible for the appropriate decorations at the Pavilion last evening. The boys leaving today were: Nanni Domenico, Robert E. Wittingham, Thomas Nikis

Disastrous Typhoon Visits Chinese Coast

AMOY, China, Sept. 19.—A typhoon struck Amoy at the end of last week without warning, and killed over 600 natives. No foreigners were reported lost. Communication with the outside districts has been cut off. It is feared that there will be a big loss there, as 25 per cent of the water craft in the harbor has been destroyed.

The Japanese steamship Amakusa of 3,300 tons, was driven on the rocks, and it is doubtful whether she can be saved. The former German steamer Kiang Wai has been driven on the rocks, and is in a hopeless condition. The Chinese steamer Kiang has been driven ashore and the British steamer Kiang has been driven ashore. The both of them can be saved.
