Door of Japan Will Be Open to Uncle Sam

Japanese Policies Outlined in Most Important Speech By Viscount Ishii During His Visit With Us. Monroe Doctrine For Far East Declared

NEW YORK, Oct. 2.—Japan not only will not seek to assail the integrity of the sovereignty of China, but eventually will be prepared to defend Chinese independence against any aggressor, Viscount Ishii, head of the Japanese imperial mission to the United States, declared Saturday night in proclaiming a Monroe Doctrine of the Far East, in an address at a banquet given in honor of the envoys as the culminating event of their visit to New York. Viscount Ishii's address was regarded as the most important he has delivered since the arrival of the mission in the United States. His discussed frankly his country's aspirations and desires as they relate to China, and denounced as propaganda of ill-will "the persistent cry of the closed door." He did not hesitate to assert that in seeking the trade of China his country possessed natural advantages in trade by means of which it was bound to succeed in China "unless we are very stupid or very inactive." In leading up to the discussion of the open door he said: "It is with no light appreciation of the honor you have done us and the nation I represent—no lack of knowledge of my own shortcomings—that I acknowledge your courtesy and hospitality throughout our visit to the city of New York. I cannot hope to meet the obligation, or to find words fitting the occasion. I can only hope that as time goes on other opportunities

may come to me and to my countrymen to demonstrate our appreciation in some small degree. Let me assure you that our door is open, and while we cannot offer you opportunity equal to this, the latchstring hangs outside always for the man from New York and the man from America.

"The door is always open. It always has been open. It always must remain open, not only to the guest who comes to trot around our little island for a round of pleasure, but to the representative of these vast commercial interests represented so well in this gathering of kings of commerce. ENGINEERS WILL CLOSE ENTRIES

RECRUITING OFFICER LEAVES WEDNESDAY—S. O. JOHNSON WIRMS FOR TWO OR THREE SAWYERS

Altho the ranks of the Twentieth Engineer Lumbermen's battalion are now practically completed there is still a place for two or three good sawyers, and Marion Nine, an officer in this company, who is now in the city, has received the following wire from Major S. O. Johnson of San Francisco, regarding the matter: "Get two or three good sawyers, circular or hand, if possible. If of draft age, wire names and location so they can be ordered assigned to us. Will probably be able to assign \$50 per month to families and have enough left for their immediate needs."

MEAT CAUSE OF KIDNEY TROUBLE

WE EAT TOO MUCH MEAT, WHICH CLOGS KIDNEYS, THEN THE BACK HURTS

Most folks forget that the kidneys, like the bowels, get sluggish and clogged, and need a flushing occasionally else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness, and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incandescent material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out the thirty feet of bowels the previous day's accumulation of poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember, inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Adv.

LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

What girl of woman doesn't wish to have lemon juice to remove complexion blemishes; to bleach the skin and bring out the roses of the forehead and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with cream to white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice, so the pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.—Adv.
