

PEACE TALK OCCUPIES THE REICHSTAG

SAGE LORRAINE DECLARED THE ONLY BAR

MANY WOULD GIVE UP BELGIUM

Kuehlmann sees no Reason Why Peace Might Not Be Arranged. Chancellor Michaelis Says Peace Is Possible With Present Demands of Allies—Reichstag Expected to Take Steps in Few Days.

AMSTERDAM, Oct. 11.—Addressing the reichstag, Foreign Secretary von Kuehlmann said as far as he could see there was no impediment to peace, and no question which could be solved by negotiations except French demands for Alsace and Lorraine.

AMSTERDAM, Oct. 11.—During debate in the reichstag, Conrad Hauman said that the declarations of Foreign Secretary von Kuehlmann, apart from Alsace-Lorraine, was no absolute bar to peace, was sufficient to definite understanding of Belgium should be given up. He stated that "this should be heralded forth to all-nations."

The Berlin Vossische Zeitung says reichstag will probably take decisions regarding Alsace and Lorraine in a few days.

The majority favors the formation of a monarchical federal state, with executive parliamentary guarantees. It is believed the imperial government also favors this now.

TYPHOID PATIENTS IMPROVE

The many friends of Miss Hazel Pembroke will be glad to learn her condition is a trifle improved, according to her physician, Dr. R. Hamilton. Miss Hardenbrook had a very serious time with typhoid fever.

TRUCK CUT WIDENED

Work train with a crew of men now engaged in widening the cut on the Southern Pacific railroad between this city and the end of the

MORE WATER FOR EASTERN KLAMATH

KAISER'S MEN FORSAKE CAUSE

SAILORS START MUTINY AT WILHELMSHAVEN SHIPYARDS AND THROW CAPTAIN OVERBOARD. TROUBLE ON BOAT AT SEA

AMSTERDAM, Oct. 11.—Mutiny believed caused largely by bad food has occurred among the crews of the German battleships at Wilhelmshaven.

The captain of the Westfalen was thrown overboard and drowned. The crews were landed, and surrendered to soldiers who surrounded them.

There is also a mutiny on board the battleship Nurdorg now at sea. The men, who were seasoned sailors, proceeded toward Norway, but were overtaken by destroyers and forced to surrender.

Emperor William went to Wilhelmshaven and ordered one out of every seven mutineers to be shot. Chancellor Michaelis protested, and only three were shot. Servitude was imposed upon the others.

GERMANS FACE FUEL SHORTAGE

RAILROADS WILL CHARGE INCREASED FARES, AND ALL EXCEPT NECESSARY TRAVELING WILL BE DISCOURAGED

LONDON, Oct. 11.—German state railways now face a great shortage of fuel. A drastic limitation of traffic has begun.

The railroads propose to levy heavy excess fares on express trains, and to discourage all except unavoidable business journeys.

MOVIE FIRE PICTURES AT STAR THEATER

The pictures of the Ewauna Box company fire taken by C. R. Miller will be run tonight at the Star theater. They were shown at Dorris last night.

HOLIDAY TOMORROW

Tomorrow being Columbus Day and a legal holiday, both banks will be closed, and also the postoffice. It is announced that the carrier windows will be opened from 8 to 10 at the postoffice, so that all may get their mail.

BALTIC ALFALFA YIELDS BEST IN COUNTY

TESTS ARE MADE OF SEVERAL VARIETIES

County Agent H. R. Wadsworth in his Monthly Report Mentions Several Varieties—Baltic Goes Five Tons and Matures Early—Trials With Sulphur Show Beneficial Results. Barley Also Being Tested.

Very interesting results are given in the monthly report for September issued by County Agent H. R. Gladyer. The tests made on four varieties of alfalfa show that the Baltic variety is probably the best adapted to this particular section, for altho the tests show the yield to be the same as the Grimm variety, it matures earlier. A yield of five tons per acre was produced on both kinds.

A portion of the report relating to some of the experiments carried on is given below. Variety Crop Demonstrations—Some very interesting and beneficial results have been obtained this season from our alfalfa variety trials in the Merrill section. Four varieties, namely, Common, Baltic, Grimm and Disco 28. This is the second season since planting these varieties. The results show the following:

The Common alfalfa, yield, four tons per acre; the Baltic alfalfa, yield five tons per acre; the Grimm alfalfa, yield, five tons per acre; the Disco 28 alfalfa, yield, four tons per acre.

The yields of the Baltic and Grimm alfalfa are identical, however, the Baltic was ten days earlier in making its growth than the Grimm. This ten days is an advantage for the reason that we believe from now on we will be able to obtain three cuttings of Baltic, where usually this county only affords two. The Disco 28 alfalfa was the latest in maturing of all the varieties. On the farm of M. Giacomini, where these tests are being carried out, twenty acres of the Baltic alfalfa will be seeded next spring as the result of the trials.

Barley varieties up to the present time have shown favorable results. Five varieties used were: Hanchen, Swanneck, Wisconsin Pedigree, Mariot, Manchuria. The Mariot and Manchuria barleys being early maturing varieties, were damaged severely by frosts. The Swanneck, Hanchen and Wisconsin Pedigree, according to appearance before threshing, are about even as to yield, with a slight advantage in favor of the Wisconsin Pedigree. Definite results will be shown after threshing.

Trials with sulphur on alfalfa in the Keno section have shown marked results this season. During the spring months an application at the rate of 100 pounds per acre was applied to the alfalfa field used. The results obtained were as follows: Average yield from non-treated plots, three tons per acre; average yield from treated plots being four tons per acre.

This shows an increase in yield of one ton per acre by the use of 100 pounds of sulphur. Sulphur under ordinary conditions sells for two cents per pound and the alfalfa hay

White Sox Shut Out By New York Giants

By a Score of 5 to 0 New York Evens Race in World Series Struggle. Two Home Runs By Kauff, Is Sensation of Game. Schupp Pitches Great Game

R. H. E. Fletcher. Schupp tossed out Gandil and Weaver fanned. No runs. New York—Zimmerman grounded to Collins. Fletcher grounded to McMullen and Robertson grounded to Faber. No runs.

NEW YORK, Oct. 11.—Before an attendance of 27,746, the Giants topped over the White Sox by a 5-to-0 score, making the series even up. Ferdinand Schupp, the Giants' southpaw, duplicated Benton's shutout performance of yesterday, planing a second coat of whitewash on the Sox. Ben Kauff's two home runs were the features of the game. Total receipts \$63,742. Players' share, \$34,000. Batteries: Chicago—Faber, Dan-

FERDIE SCHUPP

forth and Schalk. New York—Schupp and Rariden.

Line-Up and Batting Order Chicago—John Collins rf, McMullen 3b, Ed Collins 2b, Jackson lf, Gandil 1b, Weaver ss, Schalk c, Faber p. New York—Burns lf, Hersog 3b, Kauff cf, Zimmerman 2b, Fletcher ss, Robertson rf, Holke 1b, Rariden c, Schupp p.

First Inning—Chicago—John Collins grounded to Zimmerman. McMullen's grounder bounced off Zimmerman's glove for a hit. Eddie Collins fanned and Jackson grounded to Hersog. No runs.

New York—Felsch took Burns high fly. Hersog's grounder was captured by Eddie Collins in a nice play. Kauff grounded to McMullen. No runs.

Second Inning—Chicago—Felsch grounded to Zimmerman. McMullen's grounder

is worth about \$10 per ton. Many soils in Klamath County will probably not need sulphur to obtain heavy crops of alfalfa, but from indications many soils can be benefited from the application. Very little publicity has been given to the alfalfa trials with sulphur, as we wish to secure more definite information first.

LUXBURG WILL BE INTERNED

DISMISSED GERMAN COURT IS NOW A MAN WITHOUT A COUNTRY—FINDS ENEMIES ON EVERY SIDE

BUENOS AIRES, Oct. 11.—Dismissed by the Argentine government, disavowed by his own government, denounced by the people and press of his country, Count von Luxburg, ex-charge d'affaires of Germany here, is facing "enemies, enemies everywhere, and not a home to go to."

For nearly two weeks not a trace could be found of the count. Then he bobbed up suddenly in a southern province, "attending to his personal business," dispatches say. With him still is a police escort, assigned by the foreign office as a guarantee of his personal safety.

The foreign office notified him that he must return at once to the capitol. Force will be used if he carries, the message states. Immediately upon arrival here he must leave the country. His one alternative will be internment on the island of Martin Garcia, where prisoners from German raiders are detained.

The count is expected to choose internment.

RUSSIA STARTS COALITION RULE

COUNCIL OF FIVE ORGANIZED A MONTH AGO IS REPLACED BY NEW REGIME—ARMY BROUGHT TO HIGH FIGHTING POWER

PETROGRAD, Oct. 11.—The new coalition government assumed control of Russia yesterday, replacing the council of five organized a month ago. It announced an active foreign policy, bringing the army up to the highest fighting power and the restoration of economic tranquillity.

PAPER MEN ANSWER CHARGES

WASHINGTON, D. C., Oct. 11.—Twenty-three book paper manufacturers answering to the federal trade commission's complaint that thru their bureau of statistics they had advanced paper prices unduly, announced that the bureau had been discontinued, and asked for a dismissal of the charges. The commission will render a decision October 29th.

WILLOW CREEK PROJECT NOW UNDER WAY

WILL IRRIGATE UPPER LANGELL VALLEY

Ten Farmers Interested in Project to Cover 1,720 Acres by Damming Willow Creek, East of Langell Valley—Work on Dam Under Way and Plans Made to Use Water Next Year—R. F. Tuttle Is Promoter.

With New Irrigation projects starting all over the county this fall, the farmers in Upper Langell Valley have determined not to let another season go by without water on their lands. A total of 1,720 acres is embodied in the Willow Creek project under which ten farmers of that section propose to get water at a low figure.

This project is not entirely new, as a former dam constructed at the mouth of Willow Creek a few miles from Langell Valley by R. F. Tuttle was washed out last year, just when the farmers under the ditch had begun to reap the benefits of irrigation. It is understood that the dam will be constructed on a somewhat smaller basis this time, covering only the lands in the upper end of the valley, and that the lands around Lorella will be supplied eventually from some other source.

Work is now well along on the dam, and it is planned to get the water on the lands next year.

The County Court yesterday named December 1st as the day for the hearing of a petition for creating an irrigation district.

PEACE PLOTS WERE STARTED IN LONDON

LONDON, Oct. 11.—An European news agency has stated that it has learned that the French commission which is coming to London in connection with the Bolo Pasha case, has documentary evidence of Germany's peace plots in the allied countries. It added that "sensational developments" are expected in London in connection with the case.

EMBARGO LIFTED

WASHINGTON, D. C., Oct. 11.—The embargo on coal shipments to Canada has been lifted.

Air Raid Over U. S. Planned Next Week

WASHINGTON, D. C., Oct. 11.—The American cities from New York to San Francisco will be bombed from balloons and balloons with bombs containing Liberty Loan literature about October 20th. Night balloons have already been ordered for this work, and forty-five airplanes have been secured.

Crane Goes to Take Pasteur Treatment

As a result of contact with a dog, which later developed rabies and was killed, "Blondy" Crane, a well known farmer of the Klamath Basin, left for Portland this morning to take the Pasteur treatment.

Mr. Crane had knocked the skin from the back of one of his hands, which was licked by his dog. A short time afterward the dog went mad. By taking immediate steps to prevent infection it is believed he will not suffer any bad results from the incident.
