

Society Events of the Week

Mrs. Laura Mayer entertained her Bible class of Loyal Boys at a birthday party, Thursday evening, October 11th. The party was in honor of Emmitt North, whose birthday was celebrated by a cake with candles. The cake was cut so each boy had a slice of cake with a candle on it. The evening was spent in games and a general good time.

A handkerchief shower was given Wednesday evening in honor of Miss Evelyn Bennett at the home of Mr. and Mrs. L. N. Haines. The guests were Misses Esther Haines, Evelyn Bennett, Katherine and Margaret Upp, Constance Fisher and Ida Meyer.

The ladies who assisted at the Red Cross rooms this week are as follows: Monday—Mesdames C. F. Stone, Mortenson, Seltz, Will Humphrey.

Tuesday—Mesdames Strahorn, Joel Ward, Mortenson, H. N. Bradford.

Wednesday—Mesdames J. F. Adams, G. A. Krause, Wm. Hough and Miss Fannie Virgil.

Thursday—Mesdames D.V. Kuykendall, H. T. Chitwood, Frisbe, M. P. Evans, S. B. Evans, A. W. Peil, H. Newham, H. R. Harrison, J. H. Garrett, R. T. Niles and Miss Restora French.

Friday—Mesdames J. Goeller, Harry Goeller, Jennie Hurn, J. F. Adams, H. N. Bogue.

The members of the Eastern Star Lodge spent a very jolly evening at their regular meeting Tuesday night. A very unusual and interesting picture-pasting game was played, and then everyone took part in an old-fashioned candy pull.

The Happy Hour Club will meet on Tuesday afternoon with Mrs. W. P. Johnson of 734 Walnut street. It is hoped that all members will be present, as some important plans are to be made.

A hen party was given on Tuesday evening at the home of Miss Constance Fisher in honor of Miss Evelyn Bennett, who has gone to Albany to live. The guests were Miss Bennett and Misses Esther Haines, Myler, Calkins, Lucille Berkley, Ida Brown, Katherine McAndrews and Waive Jacobs.

SMALL PER CENT OF LOAN NOW SUBSCRIBED

WASHINGTON, D. C., Oct. 13.—Only by a most strenuous campaign during the next twelve working days can the Liberty Loan reach the subscription goal hoped for. According to the treasury department less than 7 per cent of the total expected has been subscribed.

WILL SEIZE COAL TO PREVENT SUFFERING

COLUMBUS, Ohio, Oct. 13.—The mayors throughout Ohio are preparing to seize the coal to prevent suffering, which is widespread.

Call to Colors Pulls Down O.A.C. Enrollment

CORVALLIS, Oct. 13.—The effect of the war was seen when the Oregon Agricultural college opened October 10th, with a decrease in the number of upper class men, 165 of whom had enlisted in military service, and a number of others in some highly specialized technical work for the country. Some of the latter, however, will return to school during the year. Freshman registration was about normal, and about 70 per cent of former students returned.

Three new deans are at the college this year. They are Adolph Zeiffel of the new school of pharmacy, Miss Eva B. Millam of the school of home eco-

nomics, and E. K. Soper, succeeding Mr. Parks, who now is head of the state bureau of mines and geology.

A number of new courses have been added to the curriculum. These include dietetics, to train students for institutional food preparation and serving; five courses in military art, including position and aiming, theory of target practice, military organization, camp sanitation, military policy of the United States, tactical problems and general strategy; first aid; forestry and military construction; engineering and wireless. Another course is in horticultural products to determine the best ways to preserve fruit and vegetables and use by-products.

New York Has Jubilee Over New Water Supply

NEW YORK, Oct. 13.—A drinking fountain which has cost \$140,000,000 in money and eight years of labor will come into the possession of this city today. It extends from the Catskill mountains, 120 miles away, and is known as the Catskill aqueduct. In celebration of its official acceptance as a municipal system which will supply water to millions of persons, a three-day festival is planned which is expected to rival the Hudson-Fulton jubilation exercises here in 1909.

Because of the engineering problems which had to be overcome in enabling the city to draw water from the Ashokan dam, 610 feet above tide level, the construction of the system has been described as a feat surpassing in accomplishment the building of the Panama canal. It is one of the few great undertakings which have been completed both within contract time and without being attended by any labor disturbances.

A citizens' committee appointed by Mayor John Purroy Mitchel, with George McAneny as chairman, has arranged a program in which national, state and city persons of note will participate. George B. McClellan, former mayor, and now professor of economic history at Princeton University, will be the guest of honor. It was during his administration that the project was begun.

The labor organizations which supplied the workers and the board of water supply which directed the task, together with leading civic bodies, will be represented. Charles Strauss, president of the board of water supply, will notify Mayor Mitchel of the completion of the aqueduct. Each night the city will be illuminated. More than 25,000 public school

children will take part in a pageant called "The Good Gift of Water." This will be held tomorrow afternoon in Central Park. The city has constructed an extensive campaign to acquaint children with the importance of the aqueduct. A million pamphlets have been distributed, and pictures connected with the construction of the system are on exhibit at the schools. Medals will be awarded to the children in each school who submit the ablest compositions dealing with the importance of water and methods of obtaining it for the city.

The Catskill aqueduct creates four lakes in its course from the mountains to the city. It burrows under valleys, tunnels thru high land, dives under rivers until it reached a depth of 1,114 feet below sea level, and bores thru the solid rock of Manhattan Island. It is twice as long as the most famous water system of the days of Rome, and is three times the length of the Panama canal. The aqueduct will be capable of delivering 5,000,000,000 gallons of water a day.

REGISTRATION AT O. A. C. IS UNUSUALLY LARGE

CORVALLIS, Ore., Oct. 13.—The registration of Oregon Agricultural College for the first four days smashed all records, with a total of 1,553, a gain of 35 over the same period last year. The men outnumber the women two to one. The senior class has five more than at the corresponding time last year.

MRS. BUCHOLS IMPROVES
Mrs. F. C. Buchols of Spring Lake, who has been on the sick list for the past week, is reported much better.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing sweetening and freshening effect upon the system.

Free Assay

If you have deposits of limestone, magnesia, marble, iron, chrome, manganese, silica, salts or other, send in **particulars and samples for free test.** We can handle commercially worthless deposits.

Try It!

A medicine which has given satisfaction to its users for over 40 years, as Cardui has, must be a good medicine. If you suffer from female troubles, and need a reliable, strengthening tonic, of real medicinal value, as proven by the experience of thousands of women users,

TAKE Cardui

The Woman's Tonic

Mrs. C. S. Budd, of Covina, Calif., in writing of her experience with Cardui, says: "I took a bottle at 13 years old, and it cured my headaches. I have taken it since marriage, and received much help from it. Cardui is the best medicine I ever took. It was the only medicine that helped my back. . . . Try Cardui."
