

CELEBRATED ORATOR HERE TONIGHT

PACKED HOUSE IS EXPECTED TO ASSEMBLE

FOOD CONSERVATION TO BE DISCUSSED

Unusually Capable Professor of Columbia University Will Discuss Issues of the Day Before Citizens at Houston's Opera House—Well Remembered Address Here on Previous Occasion Will Draw Crowd.

The opening gun of the Food Conservation campaign which is to be conducted through Klamath County next week will be fired with a tremendous broadside tonight, when Prof. Irving E. Vining of Columbia University will address a mass meeting at Houston's opera house on "Issues of the Day."

Those who were fortunate enough to have heard the wonderful address made by Prof. Vining here on the Red Cross work a few weeks ago, are lending every effort to bring out their friends for the treat they realize is in store for those who attend. It is most unfortunate that the people of this city have not made more of an effort to attend the gatherings where the problems now confronting the nation are discussed, but it is believed that in view of the exceptional ability of the speaker this evening and his well remembered previous address, that there will be a packed house tonight.

Professor Vining is here at the invitation of the Klamath county Food Conservation committee, and has refused a number of other engagements in order to come to Klamath Falls.

Oregon is the only state in the Union where the schools are held responsible for the success of the food conservation campaign.

Bills are being distributed over the city today notifying citizens of the importance of the meeting tonight.

COMMERCE BODY MOVES QUARTERS

KLAMATH COMMERCIAL CLUB WILL OCCUPY ROOM IN MAHEU BUILDING AT EIGHTH AND MAIN STREETS

Arrangements have been made by the Klamath Commercial Club directors to remove their quarters to a new location in the easterly room of the Maheu building, near the corner of Eighth and Main streets.

The room now occupied by the club will be taken by the First National bank, and remodeled as a book-keeping department.

It is believed that the change by the Commercial Club will be beneficial in many ways, as it will have a good window space on Main street, where attractive displays of the county products can be exhibited for the benefit of the strangers and others visiting the city.

The new move will be made about the 1st of November.

KLAMATH FALLS NEXT TO BOTTOM

WITH THREE DAYS LEFT OF CAMPAIGN, CITY HAS SUBSCRIBED LESS THAN ONE-THIRD OF ITS QUOTA.

With the addition of \$5,200 yesterday to the local subscriptions to the Liberty Loan bonds, the total of \$59,000 for Klamath Falls was raised to \$64,200 toward its quota of \$200,000. Only three days more are left in which to raise the other two-thirds of the quota, and it is hoped that the citizens will respond to the call in a way that will lift this city from its present place next to the bottom of the list of Oregon cities.

Reports from all over the state today indicate that other districts are swelling their totals rapidly. Lakeview is the leading city now in Southern Oregon, and Bend has over-subscribed its quota.

The "Million Dollar Special," composed of the Portland delegation which visited Klamath Falls early last week returned to Portland late last night, having collected applications during the week for over \$200,000 worth of the bonds.

Grant Lands Will Be Opened Next Spring

The first block of Oregon & California grant lands will be opened to settlement early next spring, announced Clay Tallman, commissioner of the general United States land office of Washington, D. C., in Portland the other day.

The lands first to be offered comprise a block in the Southern part of the state. Only lands classified as agricultural lands will be offered. Timber lands (having 800,000 feet or more on each forty acres) will be classified separately, and ultimately offered in larger units for cutting operations.

"As fast as possible other blocks of land will be classified and the agricultural portions will be opened to entry," said Commissioner Tallman.

For the purpose of entry, O. & C. grant lands probably will be divided into four blocks, which will be successively opened, according to Commissioner Tallman's present plans. The immediate purpose of his visit was to see about the classification of the northern portion of the grant lands. Cruising parties working southward have reached a point south of Eugene. Classification was accomplished last year from the southern border of Oregon to a point north of Roseburg. The strip that lies between these two points will have to wait until next year for classification, he said.

"We will publish a booklet containing the cruisers' reports on each section of the land classified," said Commissioner Tallman. "We will prepare a map large enough to show the 40-acre tracts, yet small enough to go into an envelope for mailing. The booklet and the map should provide information necessary to any person."

About thirty were present at the first meeting.

ARE YOU A MONEY SLACKER?

Have you a son in the army or navy?

If not, it may be impossible for you to fully realize that we are actually in a life and death struggle with the most ruthless foe on earth.

The mothers and fathers who have given up their boys to go to the front realize the war is actually here, and that they are part of it.

The family who has sent a son has given the nation what money cannot buy.

Such families need no urging to exert every effort to furnish the army and navy with all possible equipment and supplies. They are awake to the urgency of the situation. They are carrying a double load, for they are giving their boys and they are giving their dollars.

It is to the person who is still sitting back and letting the other fellow do it, that attention should be directed.

Hardly a man in this country can truthfully claim he is too poor to buy a Liberty bond, and that is the only claim that should exempt a person from owning one. Liberty bonds can be purchased

on any kind of terms, the government takes time payments, banks advance money, and practically all employers can arrange the matter so employees can take a bond and pay for it in such easy installments they will not notice it.

There is practically no excuse for you if you don't own a Liberty bond. You are the worst kind of a slacker, for you have failed to do the very easiest thing possible to help in this struggle.

Buying a Liberty bond is just as safe as arranging to buy five ten dollar bills, and it is a whole lot better, for when you have paid for a \$50 Liberty bond you have something drawing 4 per cent interest, which is just as good for money as the currency, and just as safe.

Don't hesitate, now is the time. Don't force the government to resort to taxation when we are offered an opportunity to carry the loan as an investment, drawing interest.

Remember, your boy may be the next to go, and you will want him fully equipped.

WHERE IS THE REST OF IT?

About eighteen months ago the people of Klamath Falls expressed a wish to show their appreciation of the saw mills and box factories that were being installed on the shores of the Upper Klamath Lake and near the city limits, by building a paved road to that district, which would enable the workmen and employes to get back and forth conveniently in the winter season. It was realized at the time that a paved road could not be extended by the city to the further mill, operated by the Pelican Bay Lumber company, as this was considerably outside of the city limits, but it was understood that a spur to this mill would be laid with crushed rock from the trunk road to the city limits, and continued from there to the mill

by the county officials. With this idea in view, believing that they were furnishing a direct connection with both the big pay rolls on the Upper Lake, the citizens of the city voted upon themselves a tax of \$20,000, to be paid in three years.

The Shippington road is now done, and is a fine piece of work as far as it goes, but it does not cover the ground nor the route that was outlined to the people on the ballots at the election a year ago last spring.

Another winter season is drawing close at hand, with excellent prospects for the Pelican City people to play the Robinson Crusoe or Swiss Family Robinson game, as usual.

Where is the rest of the Shippington road?
