

# Twelfth Federal District Report Conditions Good

SAN FRANCISCO, Nov. 2.—Bank deposits in the Twelfth Federal reserve district, instead of being adversely affected by first liberty loan, showed marked advance over the corresponding period last year, according to a statement on business conditions issued here by the District reserve bank. The statement reports disturbed labor conditions, but a superb agricultural situation.

The salmon pack, reported previously from other sources as generally very light, will show an extraordinary total, although weak in spots, the report says. In part, it follows:

The second Liberty Loan has had the center of the stage during October. Subscriptions to the first Liberty loan closed June 15th, and the last payments were made August 15th. Consequently the pressure upon banks because of withdrawals and borrowings occasioned by the first loan would appear within this period. Some timid banks feared great reduction of resources. The loans, however, of the national banks in the eight reserve cities of this district, show an increase of only \$17,900,000 from June 30 to September 11, while

deposits increased \$22,300,000. During the year, September 12, 1916, to September 11, 1917, deposits in the same banks increased \$80,000,000, ranging from increase of 11.7 per cent in Los Angeles to 24.2 per cent in Seattle. While complete reports of state banks are not available, those published indicate a similar trend.

"Strikes have hampered the lumber industry, but output has again reached 75 per cent of normal. Mill stocks are from 51 to 83 per cent below those of November 1, 1916.

"In Arizona the I. W. W. agitation has ceased, although the Miners' Union has not yet voted to return to work in the copper mines. The most serious recent depredation has been the firing of grain and feed in the San Joaquin Valley in California.

"The yield of grains is below normal, except in the case of barley. The hay crop is about normal, with decreases in Oregon and Washington, and increases in California, Idaho and Utah."

## Rulers of the Two Lost Tribes of Israel

KING DAVID. QUEEN MARY.

King David and Queen Mary are the rulers of 700 persons in the peculiar religious sect at Benton Harbor, Mich., who believe they descended

from the two lost tribes of Israel. The king and his subjects neither cut their hair nor shave their faces. But the king is more modern than the lost tribes, because he is a wonderful baseball player. He is catcher on the community nine, while his queen is leader of the brass band which plays in the grandstand while the men are on the diamond.

## German Public Kitchens Feed Enormous Crowds

AMSTERDAM, Nov. 2.—The public kitchens established thruout the German empire since the beginning of the war would now be able to supply food for about one-fourth of the population, according to a statement published by the German war office. It would appear from this statement that there was 2,200 such establishments in the empire, and that their ordinary capacity amounted to the production in a recent month of 2,500,000 quarts of food.

There are in the German empire

563 communes, having 10,000 or more inhabitants each. Only about fifty of these are now without public kitchens. The majority of towns report establishments providing mid-day dinners only, although all the kitchens are equipped for supplying at least two meals daily.

In Berlin there are now sixty-six public kitchens. The number of persons who obtain food from them fluctuates in a remarkable manner. In recent weeks the number of participants has averaged about 170,000 daily.

### FREIGHT TONNAGE SHOWS BIG INCREASE

WASHINGTON, D. C., Nov. 2.—The following statement is authorized by the railroads' war board:

Freight statistics for July, the latest month for which official figures are available, show that the railroads successfully handled 20.2 per cent more freight than for the same period last year. The figures that tell the story of this accomplishment have just been compiled from railroads having 220,054 miles of track,

or approximately 85 per cent of the entire trackage of the United States.

In July last year these railroads gave service equivalent to carrying 27,809,430,889 tons of freight one mile, while this year they carried 33,434,568,536 tons one mile, an increase of exactly 20.2 per cent.

This great increase in service was rendered with an almost negligible increase in the amount of equipment used. The number of freight locomotives in service in July last year, for instance, was 29,888, while this year the number was 30,377, an increase of only 1.3 per cent. Last year in July there were 2,304,903

freight cars in service, while this year the number was 3,256,831, an increase of 2.3 per cent.

## Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make out stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices in the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate

A good nickel smoke

THE OWL is always a mellow smoke—never harsh. That is because a million dollar supply of slowly curing tobacco is always in reserve for the OWL.

The OWL is an unusually even-burning smoke. That is because it is seasoned leaf, properly made into a cigar.

Naturally, the OWL is always worth your nickel.
