## REINFORCEMENTS REACH ITALIAN FRONTIER

### BRITISH TAKE NEW GROUND AT BOURLON WOOD

#### Stages of Railway Center to Commence. Civil Population of Cambrai to Be Removed—French Victorious Round Verdun—Hard Fighting and Many Prisoners Reported Taken at All Points.

By Associated Press  
DATELESS—The big drive by the British forces under General Haig in the Cambrai district is still hammering holes in the enemy's lines, altho the Germans, by heavy reinforcements brought in from other sections, have slowed down the earlier progress. The British have captured the high ground in the vicinity of Bourlon Wood, and now dominate the region about the city of Cambrai after two days of vicious fighting.

It is believed that the Germans have removed the civil population of Cambrai, which the British nearby are expected to besiege.

Nearly 10,000 prisoners, 100 guns and much other material has been taken in the last few days.

The French are also reported to be successful in the fighting around Verdun, and to have taken the first and second lines of the enemy over a two mile front. They have captured 800 prisoners in this action.

The Italians are holding the invaders in that section, altho there is serious fighting there at many points.

### ITALIAN HEADQUARTERS, Nov. 26.

The solid ranks of the Franco-British infantry, with artillery and supply trains, have been seen by an Associated Press correspondent within the sound of the battle on the Italian northern line.

The troops have been on the march for the last eight days. Their appearance here at this time is most welcome, for altho the Italians have succeeded in holding back the Teuton advance by desperate efforts, the overwhelming numbers of the latter which are constantly being reinforced, has made the task well nigh impossible.

SAN FRANCISCO, Nov. 26.—The "sing song" has come to San Francisco to stay. The "sing song" is not a new species of bird, but a big public gathering, where all raise their voices in songs, from the classics to ragtime. The first "sing song" held a few nights ago proved such prime entertainment for those attending that a demand was made that these affairs be repeated at specified intervals.

The "sing song" is the latest form of community singing, with the audience selecting its own songs to a great extent. The first "sing song" here was held in the civic auditorium.

A host of friends in Klamath Falls will rejoice in Lieutenant Carnahan's success.

G. C. Huggins, football coach and professor at the Klamath County high school, who left in the early part of the present term to enter the training camp, becomes a second lieutenant. ## WOMAN HEADS AIRPLANE PLANT

LONDON, Nov. 26.—Mrs. Maurice Hewlett, wife of the novelist, was the first woman to gain an air pilot's license in England, and she has now become the first woman head of an airplane factory. The factory employs girls and women almost exclusively. It has just been completed, a huge group of low frame buildings covering what was a year ago a wheat field. It is two miles from the nearest town.

"Girls and women cannot fly during the war," said Mrs. Hewlett in opening the new factory, "because the machines cannot be spared to train them. But they can learn to make airplanes, and they are doing so by scores."

Mrs. Hewlett gained her pilot's license in 1911, and it was not only the first granted to a woman, but its number was only 123.

## Pan-Pacific Commerce Body Is Proposed

SAN FRANCISCO, Nov. 26.—A further cementing of trade relations between China, Japan and the United States thru the formation of a Pan-Pacific Chamber of Commerce, has been proposed here. Francis B. Loomis, former assistant secretary of state, is one of the leaders of the movement.

The details of the project are to be presented to Secretary of State Lansing and other high Washington officials. It is proposed, thru the chamber, to secure greater shipping facilities for the movement of goods between Oriental and Occidental ports.

The basic plans for the Pan-Pacific movement were suggested by the Japanese financial mission now visiting this country. It is understood that it has the backing of Japanese and Chinese financiers, and would be greatly aided by the official sanction of the United States government.

The trade expansion desired would affect Honolulu and practically all of the Pacific, Chinese, Japanese and other Oriental ports.

## Living Rates In Italy Are Almost Prohibitive

ROME, Nov. 15.—(Correspondence of the Associated Press)—Italy this winter has passed from the position of one of the cheapest to one of the dearest war countries as regards cost of living. Speculation in food and clothing and heating material is generally held responsible for the very high prices, in many respects 50 per cent higher than in France. Woolen goods that last summer were sold at \$2.50 to \$4 a yard are now being reinvolved and sold in the same stores at \$5 to \$10 a yard. Women's clothes have been doubled or tripled in price, according to the whim of the storekeeper.

"If you don't buy now, you either won't get the chance at all later in the winter or else you will have to pay more money," purchasers are informed.

Second hand furniture of the most ordinary quality, particularly beds, mattresses, carpets, chairs and tables, sells for the price of new furniture. Single woolen mattresses that last spring sold for \$10 each, this winter

## Chinese Are Adopting Modern Improvements

SAN FRANCISCO, Nov. 26.—The 1,000-year-old walls of Canton, China, which withstood many an onslaught of Tartar brigands, are being torn down to make way for a trolley line.

The Chinese are substituting the American bath tub for the usual dip in the river.

This information was brought to this country by Lieutenant and General

Chiang Ting Tsu of the Chinese army, who is in the United States to inform the war department of the extent to which China intends to operate against Germany.

General Chiang says that the survey for the road before which the ancient Canton walls are crumbling has already been completed. It will be a belt system, and will follow the line on which the walls were erected.

## MAN BELIEVED TO BE GERMAN SPY CAUGHT

### LOCAL DETECTIVE CATCHES BAD MAN

#### Man Who Served as Fireman on Submarine Kreenland and Has Had Suspicious Career During Past Few Months, Taken in Klamath County, Is Alleged to Have Evaded Draft Law—Held on Vagrancy Charge.

In the arrest of Charles Anderson Mallette at Kirk Saturday night, County Detective Fred Morley believes that he has corralled a German spy, and expects some startling disclosures when the career of the man is traced back over the past few months.

Mallette has already admitted, according to Morley, that he was a fireman of board the submarine Kreenland, which visited the United States from Germany before the outbreak of the war, and in the diary found on his person are entries showing that he has jumped rapidly from place to place all over the United States recently, in a most peculiar manner. One entry made at Pittsburg, Calif., where he was employed as fireman, has the following statement: "Blowed out boilers 3 and 5. No damage of consequence."

Mallette came in here a few days ago to work in the local mills, but did not stay in any one place for any length of time. After leaving two or three jobs here he went to the Turner Brothers mill on Stukel Mountain and hired out, borrowing \$16 from two of the men on his coat and suit case. Instead of going to work he sneaked back to camp while the others were at work, secured his coat and suit case, and came to Klamath Falls. It was this action that put Morley on his trail and caused his capture later.

The culprit carried a registration card from Wray, Colo., where he stopped for two days. By his own admission he has not kept that office notified with any of his changes of address, asserts Morley, which is in itself an evasion of the draft law.

A wire from the registrar at Wray declares that Mallette was unknown there, and requests that he be sent in with the last 15 per cent of the first quota yet to be called. The details in the message do not agree with those of the culprit's story.
