

# Movie Shows Arranged For Boys at Front

PARIS, Nov. 15.—(Correspondence of the Associated Press)—Free motion picture shows are being given each night to the American soldiers and sailors in France. The Army and Navy Y. M. C. A. has made arrangements to install a complete motion picture outfit in every camp and seaport in which more than 1,000 soldiers or sailors are stationed. Twelve shows are already doing business in the field, and seven more are ready for action. Before winter sets in the Y. M. C. A. hopes to have 100 shows in operation in as many different localities, and to increase this number to 200 by spring.

If all the men who want to see the pictures are unable to view the first performance, a second show is given. The shows continue from 8 until 10 o'clock each night.

French companies have been supplying the films for the shows thus far.

Altho most of the films were made in America and show well known American screen artists, the American troops expressed disapproval of the French titles and captions, and "all American" films have been ordered. An arrangement has been made with the British Y. M. C. A. whereby films are exchanged between the two associations. Most of the films supplied by the British to date have been made in America. The British have fifty shows in operation along the front.

Walter H. Trumbull Jr., former Harvard varsity football captain, and now a Y. M. C. A. secretary, is in charge of the motion picture work for the Army and Navy Y. M. C. A. American authorities in France as well as the French government have co-operated in making these shows possible, and it is believed that they will do much toward relieving the monotony of the soldier's surroundings during the long winter nights in camp.

## U. OF C. WOMEN WILL CONSERVE SUGAR

BERKELEY, Nov. 26.—University of California women students and all others interested may now make a clean sweep when it comes to sugar conservation by avoiding the use of sugar entirely except, perhaps, in beverages. Dr. Agnes Fay Morgan of the department of domestic science at the university has advised the women students that candies and all foods that are made with sugar can be mixed, pulled, fudged or boiled with glucose. Glucose, according to Dr. Morgan, contains the same amount of food value as cane sugar, and is particularly suited for glazing of fruits.

## DAIRY BUSINESS IS YOUNG IN ALASKA

FAIRBANKS, Alaska, Nov. 26.—Fresh milk is sold in beer bottles and liquor bottles at Brooks, an Alaska mining camp up near the Apetic Circle, according to Judge Charles E. Bonnel of Fairbanks, who recently returned here from the north. The milkman's name is "Alabama" La Boyteaux and, according to the judge, he has a one-cow dairy, whose lonesome occupant gives about two gallons daily.

Leon Trotzky, new revolutionary leader along with Nikola Lenin, and now foreign minister of Russia, with Lenin as premier, is here shown talking to crowds on the streets of Petrograd. Trotzky was a reporter for \$12 a week on a Jewish daily newspaper in New York City four months ago.

# War Isolates The Falkland Islands

PORT STANLEY, Falkland Islands, Nov. 26.—The war has completely isolated the Falkland Islands from the rest of the world as far as commercial intercourse is concerned, in spite of the fact that the islands are the naval base of the British fleet for the South Atlantic and South Pacific.

Since March 10th of this year not a single ship has stopped at the Falklands on its journey to England, and correspondence for Buenos Aires and Montevideo has been sent by way of Punta Arenas, while passengers for Buenos Aires and Montevideo have

had to go around to Valparaiso on the Pacific liners and then cross the Andes by train to get to their destinations.

The British government has bought up all the wool of the Falklands, giving the owners 55 per cent above war prices. Some of this wool sold as high as two shillings sixpence a pound.

Flour has risen to 50 shillings a sack, and bread is selling at a shilling a loaf, weighing less than four pounds. Sugar is selling at 8 pence a pound.

The islands have become so overrun with rats that the government has offered an English penny a head for all those killed.

# Unique Railroad Has Dog Engine

NOME, Alaska, Nov. 26.—The dog railroad extending ninety miles from Nome to Shelton, has shut down for the winter. The road is a regulation narrow gauge track, properly ballasted and formerly supplied with a steam engine and a train of cars. When traffic failed to warrant operation of this train a small car, with ball-bearing wheels, became the official rolling stock of the line and twelve malamutes were harnessed to supply the motive power.

These dogs pull all the way, except on down grade. When they reach the longest down grade stretch of six miles they lie down in their tracks. The engineer loosens their traces and the animals bound aboard the car,

without much attention as to where they are to light. If the car is full they stretch themselves out over the passengers' laps, and pant comfortably until the coming upgrade halts the train. Then they resume work.

The trip is made at an average rate of eight miles an hour.

**ELECTRICAL WORKERS STRIKE IS UNSETTLED**

SEATTLE, Nov. 24.—Striking members of the Northwest Conference of Electrical Workers who met to consider submitting the proposed strike settlement to a referendum of the unions, have denied that the strike was settled, and said that only the approval of their terms would end it.

## QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU

No man or woman who eats meat regular can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys; they become over worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

## BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow, and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels, and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gas and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.

## OLD MEN WOULD ANSWER COLOR CALL

OAKLAND, Nov. 26.—Many aged men are feeling the urge of war, and are endeavoring to enlist here, according to Recruiting Officer R. J. Tipton of the 115th regiment of Engineers.

One man of 79 offered to pay his own board and transportation in the event he was accepted, but Tipton was forced to decline his services.

## Crew of the Schleswig-Holstein in Mutiny

This is another German warship, the Schleswig-Holstein, on which the crew rose in mutiny and caused trouble. Several officers and men were killed in a fight on the vessel. The full details have not yet been permitted to leak from Germany, but it is thought the men resisted draft for the submarine service.
