Player Piano Rolls
Standard Piano Dept.Not a Bite of
Breakfast Until
You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out the thirty feet of bowels the previous day's accumulation of poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headaches, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject. Remember, inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Adv.

German Leader of Drive Into Italy

GENERAL VON MACKENSEN

General von Mackensen, the famous German general, who has been responsible for many of the German-Austrian victories on the eastern front of the Head Huzzars, one of the most famous war, is the leader of the drive into Italy. This photograph of him just received from Germany shows him in the uniform of an officer of the Death's regiment in the German army.

German World Conquest
Was Planned Long Ago

When Dewey was in command of our fleet in Manila Bay it will be remembered that a German admiral, von Dedrich, tried to make trouble for Germany. That was the first intimation the people of this country had had that the Kaiser and his military advisers were plotting against the peace and welfare of this nation. Here is a bit of interesting history which throws some light on the purposes of Germany, which every loyal American ought to know. One of the representatives of the German navy and of the German government, a guest of our government as military observer for his own government, was Admiral von Goetz. I do not know whether Admiral von Goetz had too many drinks under his belt, or why he was so indiscreet as to boast of what his government had in mind, but here is the official record of what he said in 1898:

"About fifteen years from now my country will start her great war. She will be in Paris about two months after beginning hostilities. Her move on Paris will be but a step to her real object—the crushing of England. . . ."

OUCH! LAME BACK
RUB LUMBAGO OR
BACKACHE AWAY

RUB PAIN RIGHT OUT WITH
SMALL TRIAL BOTTLE OF OLD
PENETRATING "ST. JACOB'S
OIL"

Kidneys cause backache? No! They have no nerves, therefore can not cause pain. Latent! your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacob's Oil." Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacob's Oil" from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

Rub old, honest "St. Jacob's Oil" whenever you have sciatica, neuralgia, rheumatism or sprains, as it is absolutely harmless and doesn't burn the skin.—Adv.

Admiral Dewey. It may naturally be asked, Why was this never made public by our government? I do not know, but I presume that our government did not feel that it would be wise to quote the language of a German officer which might stir up trouble between this government and that of Germany. It may be, also, that at that time our government regarded the language as the mere empty boasting of a half-drunken German officer, and not worth serious attention. However, Admiral Dewey considered the language of von Goetz of sufficient importance to report it to our government.

SACK OF FLOUR
PROVES VALUABLE

AVERAGE WAGES WOULD HAVE
TO BE INCREASED CONSIDER-
ABLY IF ALL FLOUR WAS SOLD
AT THIS PRICE

SAN FRANCISCO, Nov. 29.—Revel Colt Gridley's sack of flour, which was sold and resold hundreds of times during the Civil War, and thereby earned \$275,000 for a rehabilitation fund for Union soldiers, has a counterpart in a similar sack which was first raffled off by the Shriners here, and which is now making a tour of the country. The sack is to be sold in Butte, Mont., on December 7, and on December 14 it will be sold in Helena, Mont. Today it is on its way north from Leavenworth, Kans. The total receipts of the accumulated sales are to go to the Red Cross.

The sack was started on its way in this city on May 26th of this year, and has been "on the go" ever since. It was taken to Honolulu, and sold there for \$1,036. It was also sold on the steamers which took it to and brought it back from the islands.

Gridley's sack, which was first started from Austin, Nevada, wore out dozens of ordinary flour sacks and three buckskin coverings before it reached the final purchaser. It has already been necessary to place the Shriners' sack in a lauhala, or tough mat-like covering. This covering was a gift of the Honolulu Shriners.

In every case when the sack is sold, auctioned or raffled off it is returned by the purchaser to the person selling it. Thus it is being kept in the hands of the Shriners, who pass it on from lodge to lodge. The sack will progress on its money-making way until there is nothing left of it, or until the demands of the Shriners for this particular Red Cross fund have been satisfied.

A Trick of the
Spice Trade

There are tricks in all trades, as we have all been told for years. A trick of the spice trade is to use off-grade, immature spices for grinding. This is the practice of about nine out of every ten spice grinders. We believe we were the first Pacific Coast Spice House to use exclusively first quality spices for grinding. Our profits are lowered by this practice—but our patronage is broadened. So our loss is in reality a gain. If first quality spices are your desire, insist on the Crescent Brand. Buy a can of pepper, nutmeg and all-spice today. Also write for our authoritative spice book. It's free. * * Crescent Mfg Co., Seattle, Wash.—(8-2)

SPECIAL NOTICE

Our government, thru its Council of Defence, has asked all grocers throughout the nation to conserve or cut down their delivery service to one delivery to each customer daily, thereby relieving a great many men to better assist the great cause in which we are all engaged. In order to do this successfully we feel that our customers must cooperate with us in buying sufficient quantities to run them from day to day, and to carry home articles urgently needed, thereby doing away with special deliveries.

In accordance with the above request, we, the undersigned grocers of Klamath Falls, announce that commencing Monday there will be only one delivery made daily, excepting on Saturdays and general holidays, when two will be made. Goods ordered one day will be delivered the following day. This will give us time to put up your orders in proper shape, and with your help will result in complying with our country's demand.

The first five photographs shows the men who were lost. Spitzer was saved.
