FEW FOLKS HAVE GRAY HAIR NOW

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Count fifty. Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffing, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Fly's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like a slug. Don't stay stuffed up and miserable. Relief is sure.—Adv.

sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.—Ad.

by the Commissioner of Indian Affairs before July 1, 1920. With each proposal a certified check amounting to \$500.00 must be submitted. This check must be drawn in favor of the Superintendent of the Klamath Indian School. The checks of unsuccessful bidders will be returned and that of the successful bidder will be applied toward the payment on the timber and retained as a forfeit if the bid is accepted and if the bidder fails to enter into contract for the purchase of the timber within thirty days from the date of acceptance of the bid. The successful bidder must make an additional deposit of ten per cent of the estimated value of the timber on each allotment within thirty days after the approval of the separate allotment timber sale contracts.

The right of the Commissioner of Indian Affairs to waive technical defects in the advertisement and proposals, and to reject any and all proposals, is reserved. Further information as to timber and regulations concerning timber sales may be obtained from the Superintendent of Klamath Indian School, Klamath Agency, Oregon. A prominent credit man recently said that he considers A Merchant who still clings to Horse and Wagon Delivery a Bad Risk.

The profit and loss account of America is being written by machinery. Methods that made men rich yesterday will make them poor today. The nose-bag has no place in a progressive community. With corn at one dollar a bushel and gasoline at twenty odd cents a gallon the most extravagant truck is a money saver. But the

MAXWELL ONE TON TRUCK

is the thriftiest truck ever built. A penny counter, a general expense reducer. The greatest single force for better business that the past year has witnessed. At this moment when conservation of energy, time and dollars is so vital to national welfare, when merchants are making so many unexpected outlays—the Maxwell is fighting for economical administration, laboring day and night at a minimum wage and furnishing competent and reliable transportation at the lowest load cost at which goods have been carried in our time.

Maxwell maintenance and repair bills are the lowest of record. It furnishes American Commerce, never so sadly in need of labor, a truck which even a boy can operate and understand. Just the right size for the average firm. 2400 pounds. But muscled for giant burdens. Worm drive—a feature hitherto associated with the highest priced trucks.

Sold under the same guarantee as \$5000 trucks are. Electric lights and generator. 10-foot loading space. 16 miles to the gallon. The lowest priced one-ton truck in the world and sold on liberal terms. \$985; and it will earn its cost out of the savings it effects. Pays its way from day to day.
