## Engineer Volunteers Trained And Ranked

PORTLAND, Dec. 5.—All graduates of mechanical engineering, civil engineering or electrical engineering courses who enlist in the navy will be enrolled in the United States naval reserve forces, with the rank of ensign and sent to the Boston school of technology for thorough mechanical training, a recent order announced.  
These officers will be used solely at construction and repair plants for navy aircraft. They will be the government inspectors at the various manufacturing plants, making all the various parts of aircraft, from engine to wings.  
The local navy recruiting station is advised that expert civil, electrical or mechanical engineers, even if not graduates of colleges giving such courses, will be considered eligible if good material for officers.  
The intelligence force of the navy, whose duties compare with those of the secret service force of the army, has decided to publish the fact that German agents are making every effort to thwart America in her anti-submarine campaign. Among their most vital thrusts are secret efforts to persuade men not to enlist in the navy.  
This propaganda is being spread by innocent persons, and the false statement is being made that men enlisting in the navy do not have the benefit of the new government insurance, compensation and family allowance law. Men in all branches of government military or naval service, as a matter of fact, are eligible for the advantages of this law.

## California Prisoners Knit For Soldiers

SAN FRANCISCO, Dec. 5.—Knitting needles are flying in the cells and workshops at the San Quentin and Folsom state penitentiaries, and a big assortment of socks, sweaters and other sartorial comforts are being turned out for the American troops in France and in the domestic service. At San Quentin the twenty-four women inmates are spending all of their time not taken up by other duties in turning out wristlets, socks and many other articles of apparel designed to keep out the cold. In Folsom practically every male prisoner has become adept at the knitting needles, and a half dozen knitting machines have been installed in addition.  
Some of the operators there are said by Warden J. J. Smith to be turning out a pair of socks every fourteen minutes.  
The Red Cross is directing the work in both institutions.  
The men prisoners at San Quentin are not engaged in knitting, but they are besieging Warden James A. Johnston with requests that they be allowed to join the armed forces of the nation. Hundreds of the men have told the warden that they are willing to place themselves in the custody of the United States army in order that they might go to the trenches, and then be returned to the prison to finish their terms.  
Under the laws of the state, how-

## MEAT INJURIOUS TO THE KIDNEYS

TAKE A TABLESPOONFUL OF SALTS IF BACK HURTS OR BLADDER TROUBLES

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

ever, neither a prison inmate or an ex-convict can join the armed forces of the country. The only thing that permits them to do so is an absolute pardon from the governor.  
Because of this the prisoners will have to satisfy their desire to serve by knitting and other war activities that may be carried on within the walls of a prison.

## HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## STOP CATARRH! OPEN NOSTRILS AND HEAD

Sage Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffing, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.—Adv.
