MIDLAND MENTION

J. D. Cooper is building a large
dairy barn on his ranch near here.
The new structure is to be built along
up-to-date lines, and will be equipped
with electric lights and all the mod-
ern conveniences.

There will be a big Christmas en-
tertainment in the school house here,
for which preparations are now under
way.

George Furber has taken a position
with the Southern Pacific Rail-
road company, and will soon leave
Midland.

A crowd numbering over eighty as-
sembled here last Friday evening to
show their good wishes toward James
Jory and bride, with a good old-
fashioned chivari. The best of re-
freshments were provided, and danc-
ing was enjoyed until the wee small
hours of the night.

Edgar Furber has completed a
new residence on his ranch at Mid-
land.

The Kerns brothers are now placing
the wire for the power line to the
Hooper and Furber ranches this
week.

Mrs. J. L. Davidson has taken
charge of the Midland hotel for the
winter.

Move Made to Butcher
Light Range Horses

HELENA, Mont., Dec. 6.—As a par-
tial solution of the meat problem, W.
F. Butler, state veterinarian of Mon-
tana, is urging the slaughter of the
range horses of the Northwest, which
he declares are unprofitable for their
present purposes.

Hundreds of thousands who can-
not afford to buy beef would by this
means be supplied with meat, he de-
clares, and ten to fifteen million dol-
lars in cash would be the return.
Such a course would also help to re-
lieve the hay shortage and provide
range for a million cattle and several
million head of sheep, he believes.

"There is no staple market for the
light weight horse at the present
time," he declares in a statement on
the subject. "Its day of practical
usefulness is practically at an end.
It is a hay destroyer—a live liability
rather than a live asset. This does
not apply to the general utility draft
horse. The farm draft horse is an
asset to any country, and will remain
an asset just as long as fields are
plowed and man grows crops for his
sustenance.

"We have in Montana probably
300,000 light weight range animals,
and throughout the United States prob-
ably 5,000,000. Among certain peo-
ple there is an inherited prejudice
against horse flesh, but there are
many people who have not a preju-
dice against this food. In many coun-
tries it has been used for hundreds of
years as a food product, and at the
present time it is offered for sale in
New York, Cincinnati and St. Louis.

"In food value horse flesh is about
equivalent to lean beef. From a san-
itary standpoint, the horse is one of

the cleanest animals living. Its hab-
its require that it eat the purest food
and drink the best of water. It lives
in the open, and is freer from trans-
missible diseases than are either cat-
tle or hogs.

"I am of the opinion that there will
be no difficulty in obtaining a steady
supply of horse flesh for some time to
come. We received a communication
several days ago from one of the
large Western horse markets saying
that it would contract to supply 3,000
horses monthly for the next twelve
months.

The committee on animals and ani-
mal products of the council of defense
of Montana has recommended to the
national council of defense the use of
horse flesh as a food product.

MAN SUFFERS SPELL

OF MENTAL ABERRATION

The call for assistance from the
sheriff's office in controlling an insane
man at Lamm's lumber camp on Up-
per Klamath Lake Monday evening,
proved to be somewhat of a false
alarm. Deputy Sheriff T. E. Griffith,
who made a trip to that point,
and discovered that the man in
question had suffered a temporary
spell of mental trouble, but that he
was only out of his head for a short
time. He is now apparently as well
as ever.

TAKE SALTS TO
FLUSH KIDNEYS

EAT LESS MEAT IF YOU FEEL
BACKACHE OR HAVE BLADDER
TROUBLE

Meat forms uric acid which excites
and overworks the kidneys in their ef-
forts to filter it from the system. Reg-
ular eaters of meat must flush the
kidneys occasionally. You must relieve
them like you relieve your bowels; re-
moving all the acids, waste and poison,
else you feel a dull misery in the kid-
ney region, sharp pains in the back or
sick headache, dizziness, your stomach
sour, tongue is coated and when the
weather is bad you have rheumatic
twinges. The urine is cloudy, full of
sediment; the channels often get ir-
ritated, obliging you to get up two or
three times during the night.

To neutralize these irritating acids
and flush off the body's urinous waste
get about four ounces of Jad Salts from
any pharmacy; take a tablespoonful in
a glass of water before breakfast for a
few days and your kidneys will then
act fine and bladder disorders disap-
pear. This famous salts is made from
the acid of grapes and lemon juice,
combined with lithia, and has been
used for generations to clean and stim-
ulate sluggish kidneys and stop blad-
der irritation. Jad Salts is inexpensive,
harmless and makes a delightful ef-
fervescent lithia water drink which mil-
lions of men and women take now and
then, thus avoiding serious kidney and
bladder diseases.—Adv.

Finest Syrup
20c a Quart

Making it at home saves all the
miscellaneous costs of manu-
facture, sale and cartage.

Take two cups of hot water.
Mix with four cups of granulat-
ed sugar. (Don't boil). When
Sugar is thoroly dissolved, add
one teaspoonful of Crescent Ma-
pleline. Mix well and cool. This
makes one quart of as fine a
syrup as you ever tasted. The
effort required for its making is
no greater than that necessitat-
ed for brewing a pot of tea,
and the total cost of a quart is
but 20c—less than half the cost
of manufactured syrup. A two-
ounce bottle of Crescent Maple-
line costs 35c. Buy a bottle to-
day of your grocer. Then send
us the carton top and 4c
stamps, for the large Mapleline
Cook Book. * * Crescent Mfg.
