DOUGLAS FAIRBANKS "WILD AND WOOLLY"

In accordance with his progressive policy of presenting "the biggest and best" in motion pictures, Manager Houston of the Star announces the engagement of the second Douglas Fairbanks pictures released by Artcraft, "Wild and Woolly." The story has to do with a city youth whose wild fancies of the great West eventually gets the better of him. Clad in an immaculate cowboy attire such as one might wear at a masquerade ball, he travels to the land of his dreams, only to find that his outfit is as unique as it appeared to the inhabitants of New York's Fifth Avenue on the morning he set out on his journey. Many incidents of typical Fairbanks variety are promised in this picture, together with thrilling situations such as confront the young men from the East, who find himself in the midst of a plot of real serious proportions. At the Star tonight and tomorrow.

SAGE TEA DANDY TO DARKEN HAIR**IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR**

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Adv

Juice of Lemons! How to Make Skin White and Beautiful!

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth, so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as sallowness, freckles and tan, and is the ideal skin softener, smoothener and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer, and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smoothen rough, red hands.—Adv.

Big Call For Knitted Goods From Red Cross

WASHINGTON, D. C., Dec. 7.—General Manager Harvey D. Gibson of the American Red Cross authorizes the following statement:

"A great number of inquiries are being received by the Red Cross from women knitters throughout the United States as to whether they should discontinue knitting."

"The Red Cross, therefore, desires to place before the women of this country its conception of the knitting situation. As is well known, it is the policy of the Red Cross to supplement, so far as it has the power, the efforts of the army and navy in conserving the health and comfort of our soldiers and sailors, either in this country or abroad."

"Sweaters and other knitted articles are designed primarily for warmth. They certainly are not ornamental. Therefore it must follow that when there is an almost universal demand on the part of our soldiers and sailors for sweaters and other knitted articles the demand is a real one. Such articles, therefore, can only be classed as equipment, supplementary to the army and navy. And they undoubtedly constitute equipment that will add greatly to the health and comfort of our men under conditions generally met with."

"The Red Cross knows that the soldiers and sailors want sweaters and

other knitted articles. These goods can be obtained from the Red Cross in single garments only upon individual request; or if in bulk, then upon the request of a commanding officer. How great the need is, is best evidenced by the fact that in addition to the hundreds of thousands of knitted articles produced by our Red Cross chapters in the last few months we have been compelled to purchase 550,000 extra sweaters alone to meet the insistent demand made upon us by our men for them. We are sorry that we had to do any purchasing at all, because we know how much the soldiers and sailors of this country prefer the sweaters and other articles knitted by the women of this country."

It may be understood further that in addition to the demands of our army and navy, we have very urgent demands from commissions abroad for like articles for destitute civilian population—men, women and children—who, if not actually homeless, are very scantily clad and usually without fuel, in this cold weather, to warm their houses.

"It is hoped that this general statement will satisfy the women of this country who have been devoting all their possible time to knitting for our men. We cannot too strongly urge all women who are now knitting to keep on knitting."

ARCTIC EXPLORER IS THOUGHT STILL ALIVE

IOWA CITY, Iowa, Dec. 7.—Prof. C. C. Nutting of the state university here has been called upon to aid in examining and classifying the materials obtained by two famed Arctic explorers, Vilhjalmur Stefansson and Rudolph Martin Anderson, both of whom are graduates of the university. Material relating to the blond Eskimo tribe, said to have been discovered by these two explorers, are

engaging Prof. Nutting's attention. Although the world has lost all trace of Stefansson since he entered the Arctic region several months ago, Prof. Nutting believes that he is alive and well, and will return with a wealth of information and material.

CONVICTS RECAPTURED

JOLIET, Ill., Dec. 6.—All thirteen of the desperate convicts who escaped from the penitentiary here, with the exception of one, have been recaptured.

GERMANS PLAN FOR MANY NEW AIRPLANES

AMSTERDAM, Dec. 7.—Automobile works in Germany are preparing for expansion on an enormous scale for the production of aircraft. One of the foremost factories has just voted to increase its capital from \$6,000,000 to \$8,000,000. Special facilities have been granted by the German government for the flotation of the new shares.

A circular issued by the company says: "We entered the war with large reserves for extension purposes, but this has been used up by the large demands of the war. We can no longer speak of 'expanding' our works, but must use the term 'multiplying' them."

At the time of the Titanic disaster, the Travelers paid one accident claim of \$120,000. This is the largest claim ever paid. Ask Chilcote about Travelers' contracts. 7
