WALL MAPS USED FOR GERMAN TOGS

BERNE, Dec. 21.—German ingenuity has once more found a way to stave off the crisis threatening by reason of the lack of cloths and clothing. The authorities of the so-called imperial clothing headquarters, according to Berlin papers just arrived, have ordered all schools to turn in old wall maps that are mounted on linen or cloth of any sort.

The maps, it is explained by the clothing headquarters, will then be separated from the cloth by a cleansing process, and the supply of linen thus obtained will be used, for clothing, if possible, but in any event, for linings.

ALLIES CHANCES ARE STILL GOOD

LOSSES FROM U-BOATS GROWING LESS WHILE SINKINGS OF LATTER ARE ON INCREASE—100,000 PRISONERS TAKEN

LONDON, Dec. 21.—Speaking in the house of commons yesterday, Premier Lloyd George said that the margin of the losses at sea was narrowing and that the sinking by submarines were decreasing, while the sinking of the submarine was increasing.

Altho the merchant tonnage is down by 20 per cent, the loss has been only 6 per cent of imports over last year.

Regarding the military situation, he said it was idle to pretend that hopes formed has been realized. This disappointment he attributed to the Russian collapse.

He said that the Germans had had only one success, which was due to surprise.

He declared that the Germans had lost 100,000 prisoners, valuable positions and hundreds of guns.

In explaining the war aims he demanded complete restoration of captured territories or compensation.

ODD MATERIAL FOR MUNITIONS WANTED

LONDON, Dec. 21.—Instructions have been sent out to all army and navy canteens to save all used tin leaves, which are to be carefully kept in muslin bags and forwarded to central depots.

The old leaves are not to be used again in making beverage, but are needed in connection with munition making.

Wife of England's Latest War Hero

LADY MARIE EVELYN BYNG

Lady Byng may now well be the proudest woman in England. Her husband, Sir Julian Hedworth Byng, commanded the British third army in its great drive on Cambrai and has been promoted to full general in recognition of his services. Lady Byng is well known in England as a novelist. She is the only child of Sir Richard Moreton.

California Children Prove Aid to Nation

SACRAMENTO, Dec. 21.—A total of 25,168 boys and girls from the high schools of California were engaged in productive industries during the summer vacation, according to a report made public here today by Will C. Wood, state commissioner of secondary schools. Of this number 15,302 worked in the fields and orchards.

The records show the high school pupils responded nobly to the nation's call for labor during the harvest season," Commissioner Wood said. "The boys are deserving of special commendation. Our statistics show that 70 per cent of them enrolled in the high schools worked during the summer."

Since the reopening of the high schools there has been a marked tendency, especially in the large cities, where industries offer many opportunities for gainful occupations, on the part of the pupils to leave school and accept positions after having enrolled, the report says. Eighty-one high schools in the state have reported instances of this nature.

In summarizing labor conditions during the harvest season Commissioner Wood's report said that 167 high school districts reported a shortage of labor during the summer, and that there was a serious shortage of harvest hands in forty-nine districts. Ninety schools postponed the date of opening because of a pressing need for student labor. At Calistoga the opening was delayed nine weeks, and there was a postponement of six weeks at Lodi, both districts in the vineyard sections of Napa County.

A drive to encourage food production by high school pupils and to enlist a large number of pupils for harvest work next summer is to be inaugurated January 1st by the Student's Working Reserve, organized last spring by the state board of education.

England Plans New System of Currency

LONDON, Dec. 21.—Retention of the pound sterling as the monetary unit and its division into 1,000 parts or mills, has been agreed upon by the institute of bankers, association of chambers of commerce and the decimal association. This would permit the retention of the existing gold and silver coins down to and including the sixpenny piece, without any al-

"Buckhecht" Army Shoes - On the Munson Last

Are the only Army Shoes cut from Indian Tan Leather. It is the strongest, softest and most serviceable leather that has ever been produced, and highly recommended by the government, who is using it in large quantities. The soles are the best heavy plump leather, cut from the heart of the hide. Thousands of men in civil life are wearing the "Buckhecht" Army Shoe, and a horde of foot troubles are no longer known to them.

Every pair stamped with the "Buckhecht" trade mark. Carried in either black or tan.

For Comfort, Service and Wear the "Buckhecht" is a Real Wonder

teration in their respective values. For example, the sixpence is represented by exactly 25 mills. In regard to coins of lower denomination, it was unanimously agreed that they shall consist of 1, 2, 3, 4, 5 and 10 mill pieces, of which the latter two would be of nickel.

YOUNG RANCHER TAKES BRIDE

The marriage of Edgar Haller and Miss Maud Brown occurred Thursday evening at the home of Justice E. W. Gowen on Pine street. Both are well known young people of the county. The groom is engaged in ranching in the vicinity of the Hopkins ranch near Midland, where the couple went immediately following the ceremony.

Moving Pictures

"Bab's Dairy," the charming Paramount photoplay starring Marguerite Clark, is the first of several of the famous "Sub-Deb" stories by Mary Roberts Rinehart, which appeared in the Saturday Evening Post. It is a comedy drama of the type best suited to Miss Clark's winsome personality, and as the irrepressible "Bab," she has achieved one of the best character portrayals of her career. "Bab's Dairy" is to be shown tonight at the Star.

NEW IDEA FOR DISABLED MEN

LANCASTER, England, Dec. 21.—The first industrial village for disabled soldiers and sailors is to be constructed here on a large estate given by Sir Thomas Storey. It is to be laid out with workshops, houses for married men and hostels or fraternal homes for others.

There will be a new church, recreation ground, garden, public park and the existing mansion will be used as a club house. There will also be accommodation for about 300 disabled men in the village.

TURN HAIR DARK WITH SAGE TEA

IF MIXED WITH SULPHUR IT DARKENS SO NATURALLY NOBODY CAN TELL

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmothers recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.
